## SHIDU S258

# SHIDU Voice Amplifier S258 Instruction Manual

Portable PA System with Microphone Headset

## INTRODUCTION

The SHIDU S258 Voice Amplifier is a compact and portable public address system designed to amplify your voice clearly and effectively. It is ideal for various applications such as teaching, tour guiding, coaching, and public speaking, helping to save your voice and ensure your message is heard by a large audience. This manual provides comprehensive instructions for the setup, operation, maintenance, and troubleshooting of your SHIDU S258 Voice Amplifier.

## PRODUCT FEATURES

- **Powerful & Original Sound:** Compact size with crystal clear output, capable of covering a room with up to 120 people without noise or whistling.
- **Wide Coverage Area:** 10W output power can cover approximately 11,800 sq. ft (1100 ), ensuring effective voice amplification.
- **Long Battery Life:** Equipped with an 1800mAh built-in rechargeable lithium battery, providing up to 12 hours of amplification time or 10 hours of music playback on a full charge (3-5 hours charging time).
- **Multifunctional Playback:** Supports TF (Micro SD) card playback and USB flash drive playback. Features include repeating individual songs, looping all music, and switching songs.
- **AUX Input Capability:** The microphone port doubles as an AUX port, allowing connection to cell phones or computers via a 3.5mm AUX cable for use as a wired speaker.

- **Compact and Portable:** Weighs only 0.36 lbs (approximately 163 grams), featuring a detachable clip for attachment to a belt or pocket, or use with the included waistband.
- **Durable Design:** Constructed from wear-resistant material for enhanced durability and a fashionable appearance.

## PACKAGE CONTENTS

Upon opening the package, verify that all the following items are included:

- 1 x SHIDU Voice Amplifier (S258)
- 1 x Wired Headset Microphone
- 1 x USB Charging Cable

- 1 x Waistband

Image: The complete set of items included in the SHIDU Voice Amplifier package.

## SETUP

---

### 1. Charging the Amplifier:

Before first use, fully charge the voice amplifier. Connect the provided USB charging cable to the DC 5V port on the amplifier and plug the other end into a USB power adapter (not included) or a computer's USB port. The charging indicator light will show charging status and turn off when fully charged. A full charge typically takes 3-5 hours.

### 2. Connecting the Headset Microphone:

Insert the 3.5mm jack of the wired headset microphone firmly into the microphone input port on the amplifier. Ensure a secure connection.

### 3. Wearing the Amplifier and Microphone:

You can wear the amplifier in several ways:

- Use the detachable clip to attach it to your belt or pocket.
- Attach the waistband to the amplifier's loops and wear it around your waist or hang it around your neck.

Position the headset microphone close to your mouth, ideally about 1-2 cm away, for optimal voice pickup. Ensure the microphone is pointed towards your mouth.

Suitable for teaching, trainer, coacher, tour guide, shopping mall, outdoor speech and etc.

## OPERATING INSTRUCTIONS

### 1. Power On/Off:

Locate the power switch on the amplifier. Slide it to the "ON" position to power on the device. Slide it to the "OFF" position to power off.

### 2. Volume Control:

Adjust the volume using the volume roller or buttons on the amplifier. Rotate or press to increase or decrease the amplification level to a comfortable listening volume.

### 3. Voice Amplification:

Once powered on and the microphone is connected, speak into the headset microphone. Your voice will be amplified through the speaker.

**Important:** To prevent feedback (a high-pitched squeal), ensure there is sufficient distance between the microphone and the speaker, and avoid pointing the microphone directly at the speaker.

#### 4. **Playing Audio from TF Card/USB Drive:**

Insert a TF (Micro SD) card or USB flash drive containing MP3 audio files into the respective slot on the amplifier. The amplifier will automatically detect and begin playing the audio files. Use the control buttons to skip tracks, repeat, or loop playback.

#### 5. **Using as a Wired Speaker (AUX Mode):**

Connect your mobile phone, computer, or other audio device to the amplifier's microphone port using a 3.5mm AUX cable. The amplifier will function as an external wired speaker for your device.

## MAINTENANCE

- **Cleaning:** Wipe the amplifier and microphone with a soft, dry cloth. Do not use abrasive cleaners or solvents.
- **Storage:** Store the device in a cool, dry place away from direct sunlight and extreme temperatures.
- **Battery Care:** To prolong battery life, avoid fully discharging the battery frequently. Recharge the amplifier when the battery is low. If storing for an extended period, charge the battery to about 50% every 3 months.
- **Handling:** Handle the amplifier and microphone with care to prevent damage from drops or impacts.

## TROUBLESHOOTING

Problem	Possible Cause	Solution
No sound or low volume	<ul style="list-style-type: none"> <li>◦ Amplifier is off.</li> <li>◦ Volume is too low.</li> <li>◦ Microphone not connected properly.</li> <li>◦ Microphone faulty.</li> <li>◦ Battery is low.</li> </ul>	<ul style="list-style-type: none"> <li>◦ Turn on the amplifier.</li> <li>◦ Increase the volume.</li> <li>◦ Ensure microphone jack is fully inserted.</li> <li>◦ Test with another microphone if available.</li> <li>◦ Charge the amplifier.</li> </ul>
High-pitched feedback (whistling)	<ul style="list-style-type: none"> <li>◦ Microphone too close to the speaker.</li> <li>◦ Microphone pointing at the speaker.</li> <li>◦ Volume too high.</li> </ul>	<ul style="list-style-type: none"> <li>◦ Increase distance between microphone and speaker.</li> <li>◦ Adjust microphone position away from the speaker.</li> <li>◦ Lower the volume.</li> </ul>
Cannot play audio from TF card/USB drive	<ul style="list-style-type: none"> <li>◦ Card/drive not inserted correctly.</li> <li>◦ Unsupported file format.</li> <li>◦ Corrupted files.</li> </ul>	<ul style="list-style-type: none"> <li>◦ Reinsert the card/drive firmly.</li> <li>◦ Ensure files are in MP3 format.</li> <li>◦ Try different audio files or another card/drive.</li> </ul>

Problem	Possible Cause	Solution
Device not charging	<ul style="list-style-type: none"> <li>◦ Charging cable faulty.</li> <li>◦ USB power source faulty.</li> <li>◦ Charging port damaged.</li> </ul>	<ul style="list-style-type: none"> <li>◦ Try a different USB cable.</li> <li>◦ Try a different USB power adapter or port.</li> <li>◦ Contact customer support if issue persists.</li> </ul>

## SPECIFICATIONS

Feature	Detail
Brand	SHIDU
Model Number	S258
Output Wattage	10 Watts
Battery Type	Lithium Ion
Battery Capacity	1800mAh
Amplification Time	Up to 12 hours
Music Playback Time	Up to 10 hours
Charging Time	3-5 hours
Item Weight	11.6 ounces (330 Grams)
Product Dimensions (L x W x H)	4.13 x 1.57 x 3.35 inches
Connectivity Technology	AUX, USB
