INTRODUCTION

Thank you for choosing the Sunter Professional LED Vanity Mirror, Model VM-2018. This manual provides essential information for the safe and efficient use, setup, operation, and maintenance of your new mirror. Please read these instructions thoroughly before use and retain them for future reference.

This mirror features dual 1x and 10x magnification, natural daylight LED illumination (6,500K), and a fog-free design, all encased in a durable brushed nickel finish.

IMPORTANT SAFETY INFORMATION

WARNING: To reduce the risk of burns, fire, electric shock, or injury to persons:

- For indoor use only.
- Do not place in direct sunlight.
- Always unplug the mirror prior to installing or changing the bulb.

- Keep the power cord away from heat sources.
- Do not operate if the cord or plug is damaged.
- Do not use attachments not recommended by the manufacturer.
- Never drop or insert any object into any opening.
- Do not use outdoors.
- Unplug from outlet when not in use and before cleaning.

SETUP INSTRUCTIONS

The Sunter Professional LED Vanity Mirror (VM-2018) comes fully assembled and ready for use. No assembly is required.

1. **Unpacking:** Carefully remove the mirror from its packaging. Inspect for any damage during transit.
2. **Placement:** Place the mirror on a stable, flat surface, such as a vanity or countertop. Ensure there is adequate space around the mirror and that the power cord can reach an electrical outlet without being strained or obstructed.
3. **Power Connection:** Plug the mirror's power cord into a standard 120V AC electrical outlet.

OPERATING INSTRUCTIONS

1. **Turning On/Off:** Locate the power switch on the base of the mirror. Press the switch to turn the LED illumination on or off.
2. **Adjusting Magnification:** The mirror features two sides:
 - **1x Magnification:** Provides a true-to-life reflection for general viewing.
 - **10x Magnification:** Offers enhanced magnification for detailed tasks such as makeup application or tweezing.

To switch between magnifications, gently rotate the mirror head 180 degrees.

3. **Adjusting Angle:** The mirror head can be tilted up or down to achieve the desired viewing angle. Hold the mirror frame and adjust as needed.

MAINTENANCE AND CARE

- **Cleaning:** Unplug the mirror before cleaning. Wipe the mirror surfaces and the brushed nickel finish with a soft, damp cloth. Do not use abrasive cleaners, solvents, or harsh chemicals, as these may damage the finish or mirror coating.
- **Bulb Replacement:** The mirror uses an energy-saving replaceable LED bulb. Always unplug the mirror before attempting to replace the bulb. Refer to the warranty section for information on the lifetime warranty for the LED bulb.
- **Storage:** When not in use for extended periods, store the mirror in a dry, safe place, away from direct sunlight and extreme temperatures.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Mirror light does not turn on.	Power cord not securely plugged in. Power outlet is not functioning. LED bulb needs replacement.	Ensure the power cord is fully inserted into the outlet. Test the outlet with another appliance. Contact customer support for LED bulb replacement under warranty.
Mirror surface is foggy.	High humidity in the environment.	The mirror is designed to be fog-free. If fogging occurs, ensure the room is well-ventilated. Wipe with a soft, dry cloth if necessary.
Mirror wobbles or does not hold angle.	Loose pivot points or unstable placement.	Ensure the mirror is placed on a completely flat and stable surface. If the pivot points feel loose, contact customer support.
