Bestway 8ft Fast Set Pool Instruction Manual

Brand: Bestway

Model: 57265

INTRODUCTION

The Bestway 8ft Fast Set Pool is designed for quick and easy setup, providing a convenient above-ground swimming option for families. This inflatable pool features a durable TriTech material construction, ensuring strength and longevity. It is ideal for cooling off and enjoying water activities during warm weather. The pool includes a filter pump to maintain water cleanliness and a built-in drain valve for simple water removal and compact storage.

IMPORTANT SAFETY INFORMATION

WARNING:

- Not suitable for children under 6 years of age.
- Adult supervision is required at all times when children are using the pool.
- Always ensure the pool is set up on a level surface to prevent collapse or water spillage.
- Do not dive into the pool.
- Keep all electrical devices away from the pool area.

SETUP INSTRUCTIONS

Setting up your Bestway Fast Set Pool is a straightforward process that typically takes about 10 minutes before filling with water. No tools are required for assembly.

1. **Choose a Level Surface:** Select a flat, stable, and clear area in your garden. Ensure there are no sharp objects, debris, or uneven ground that could damage the pool or cause it to tip.

2. **Unfold the Pool:** Carefully unroll and unfold the pool liner on the chosen level surface. Ensure the drain valve is positioned where it will be convenient for draining later.
3. **Inflate the Top Ring:** Locate the air valve on the top inflatable ring. Use an air pump (not included) to inflate the ring until it is firm but not overinflated.
4. **Begin Filling with Water:** Start filling the pool with water. As the water level rises, the inflatable top ring will float upwards, and the pool walls will expand and take shape. Smooth out any wrinkles on the bottom of the pool as it fills.

5. **Connect Filter Pump (if applicable):** If your model includes a filter pump (330 gal filter pump mentioned in product description), connect it to the designated ports on the pool using the provided hoses and attachments. Ensure all connections are secure to prevent leaks.
6. **Review Setup DVD:** A setup DVD is included with the pool. It is recommended to watch this DVD for visual guidance on the setup process.

OPERATING INSTRUCTIONS

Once your Bestway Fast Set Pool is set up and filled, it is ready for use. Follow these guidelines for optimal enjoyment and safety:

- **Water Level:** Ensure the water level is maintained within the recommended range, typically just below the inflatable top ring.
- **Filter Pump Operation:** If a filter pump is connected, operate it daily for several hours to circulate and clean the water. Refer to the filter pump's specific manual for detailed operating instructions and maintenance.
- **Chemical Treatment:** Use appropriate pool chemicals (not included) to maintain water hygiene and balance. Always follow the chemical manufacturer's instructions for dosage and application.
- **Supervision:** Always ensure adult supervision, especially when children are in or near the pool.
- **Enjoyment:** The pool is designed for recreational swimming and cooling off. Add your inflatables and water toys for hours of fun.

MAINTENANCE

Proper maintenance will extend the life of your Bestway Fast Set Pool and ensure clean, safe water for enjoyment.

- **Water Filtration:** Regularly clean or replace the filter cartridge in your filter pump to ensure efficient water circulation and debris removal.
- **Water Chemistry:** Test the pool water regularly for pH and chlorine levels. Adjust chemicals as needed to maintain proper balance and sanitation.
- **Cleaning the Pool:** Skim debris from the water surface daily. Use a pool vacuum or brush to clean the bottom and sides of the pool as needed.
- **Draining the Pool:** When it's time to drain the pool, attach a garden hose (with adapter) to the built-in flow control drain valve. This allows for easy and controlled water drainage to a convenient location.
- **Storage:** After draining, thoroughly clean and dry the pool liner. Deflate the top ring. Fold the pool compactly and store it in a cool, dry place away from direct sunlight and extreme temperatures to prevent material degradation.
- **Repair Patch:** An adhesive repair patch is included for minor punctures. Clean and dry the affected area before applying the patch firmly. Allow sufficient time for the adhesive to cure before refilling the pool.

Troubleshooting

Here are solutions to common issues you might encounter with your Bestway Fast Set Pool:

Problem	Possible Cause	Solution
Pool is losing air from top ring.	Puncture in the inflatable ring or loose valve cap.	Locate the puncture using soapy water. Clean and dry the area, then apply the included repair patch. Ensure the valve cap is securely tightened.
Water is cloudy or dirty.	Insufficient filtration, improper chemical balance, or heavy use.	Run the filter pump for longer periods. Clean or replace the filter cartridge. Test water chemistry and adjust chlorine/pH levels as needed. Skim debris regularly.
Pool walls are not standing upright.	Uneven ground or insufficient water level.	Ensure the pool is on a completely level surface before filling. Add more water until the walls are fully supported by the water pressure.
Water is not draining properly.	Drain valve is blocked or hose connection is faulty.	Check the drain valve for any obstructions. Ensure the garden hose is securely attached to the adapter and the valve is fully open.

Specifications

- Product Name:** Bestway 8ft Fast Set Pool
- Model Number:** 57265
- Dimensions (Inflated):** Approximately 2.44 m x 66 cm (8 ft x 26 in)
- Water Capacity (80% full):** 2,100 Liters (555 Gallons)
- Shape:** Round
- Material:** TriTech (3-ply reinforced PVC and polyester)
- Included Components:** 1 Pool, 1 Heavy-duty repair patch, 1 Setup DVD (Filter pump included with some models, check packaging)
- Drain Valve:** Built-in flow control drain valve
- Item Weight:** Approximately 5.1 kg (11.22 lbs)
- UPC:** 744343453320

Warranty and Support

For information regarding product warranty, please refer to the warranty card included with your purchase or visit the official Bestway website. If you require technical support, replacement parts, or have questions not covered in this manual, please contact Bestway customer service through their official channels. Keep your purchase receipt as proof of purchase for warranty claims.
