Tribest PBG-5001-A

Tribest Glass Personal Vacuum Blender PBG-5001-A Instruction Manual

Model: PBG-5001-A | Brand: Tribest

INTRODUCTION

This manual provides detailed instructions for the safe and efficient operation, maintenance, and care of your Tribest Glass Personal Vacuum Blender PBG-5001-A. Please read all instructions carefully before first use and retain this manual for future reference.

The Tribest Glass Personal Vacuum Blender is designed to preserve the freshness and nutritional quality of your blends through its innovative vacuum blending technology. It offers versatile blending options with a focus on a clean, plastic-free blending environment.

PRODUCT COMPONENTS

Your Tribest Glass Personal Vacuum Blender PBG-5001-A includes the following components:

- Motor Base
- One-Touch Vacuum Pump
- 42 oz Glass Container with Vacuum Lid
- 24 oz Glass Container
- Stainless Steel Utility Scoop
- Stainless Steel Blade Assembly
- Silicone Sealing Ring
- Silicone-Lined Tumbler Lid
- Base Cover
- Power Cord
- User Manual (this document)

All Stainless Steel Blade

The removable blade assembly ensures zero food contact with plastic and an easy cleanup.

Figure 1: Included Accessories. This image displays all components that come with the blender, including the motor base, various glass containers, lids, blade assembly, and the vacuum pump.

SETUP

- 1. Unpack Components:** Carefully remove all parts from the packaging.
- 2. Clean Before First Use:** Wash all removable parts (glass containers, lids, blade assembly, silicone ring) with warm, soapy water. Rinse thoroughly and dry. The glass containers and blade assembly are dishwasher safe.
- 3. Assemble Blade:** Ensure the stainless steel blade assembly is securely attached to the bottom of your chosen glass container.
- 4. Place Container on Motor Base:** Position the assembled glass container onto the motor base, ensuring it is seated correctly.
- 5. Connect Power:** Plug the power cord into a suitable electrical outlet. The power cord can be stored neatly in the base when not in use.

OPERATING INSTRUCTIONS

Blending Modes

The Tribest Glass Personal Vacuum Blender offers two primary operating modes for precise control over your blending:

- **Variable Speed Dial:** Provides continuous control over blending speed for desired texture.
- **One-Touch Pulse Button:** Allows for quick bursts of power for chopping or fine-tuning consistency.

Variable Speed Dial and One-Touch Pulse Button

Get maximum control over your desired texture and consistency blend-after-blend.

Figure 3: Control Panel. This image highlights the Variable Speed Dial and One-Touch Pulse Button for precise blending control.

Vacuum Blending Technology

The innovative vacuum blending technology removes excess air from the blending container before blending. This process helps to protect nutrients, colors, and flavors from oxidation, extending the shelf life of your recipes.

Vacuum Blending Technology

The innovative One-Touch Vacuum Pump **removes oxygen from the blending container** before you blend to lock in flavors, create smoother textures, enjoy more vibrant colors, extend shelf life, and preserve nutrients in your favorite recipes.

Figure 4: Vacuum Blending Benefits. This visual demonstrates the difference in color and freshness between ingredients blended with and without vacuum technology.

Clean Blending Environment

The blender features an all-stainless steel blade assembly and glass blending containers, ensuring your healthy recipes remain free from harmful chemicals often found in plastic components.

Tempered Glass Containers with Silicone-Lined Lids

Silicone-lined lids keep your recipes clean and easy to take with you in travel-friendly glass containers.

General Blending Procedure

- Add Ingredients:** Place your desired ingredients into the glass container. Do not overfill past the maximum fill line.
- Secure Lid:** Place the appropriate lid (vacuum lid or silicone-lined tumbler lid) securely onto the container.
- Select Mode:** Choose your desired blending mode using the Variable Speed Dial or the One-Touch Pulse Button.
- Blend:** Activate the blender. For vacuum blending, ensure the vacuum pump is engaged before starting.
- Serve:** Once blending is complete, turn off the blender, remove the container, and serve.

MAINTENANCE

Cleaning

Proper cleaning ensures the longevity and hygiene of your blender. Always unplug the blender before cleaning.

- **Removable Parts:** The glass containers, lids, and stainless steel blade assembly are dishwasher safe (top rack recommended).
- **Motor Base:** Wipe the motor base with a damp cloth. Do not immerse the motor base in water or any other liquid.
- **Blade Assembly:** Exercise caution when handling the sharp blades. Ensure all food residue is removed.
- **Silicone Sealing Ring:** Remove the silicone ring from the lid and wash separately to prevent residue buildup.

SPECIFICATIONS

Feature	Detail
Brand	Tribest
Model Number	PBG-5001-A
Color	Silver
Special Feature	Programmable
Capacity	1200 Milliliters (42 oz)
Product Dimensions	6"D x 6.5"W x 18"H
Power Source	Corded Electric
Number of Speeds	2 (Variable Speed Dial, Pulse)
Voltage	12 Volts
Material Type Free	Plastic-free
Blade Material	Stainless Steel
Container Material	Glass
Item Weight	14.01 pounds
