KEY FEATURES

- **Elongated Size:** Designed to fit most standard oval toilets. Dimensions are approximately 18.5"L x 14.3"W, with a mounting hole distance of 5.5". The toddler seat hole measures 5.8" x 7.1".
- **Dual Magnetic System:** The built-in potty seat secures magnetically within the cover when not in use, eliminating the need for separate attachments. Two additional magnets on the sides of the toilet lid make it easy for children to release the seat independently.
- **Quiet Slow-Close:** Both the main lid and the adult seat feature a slow-close mechanism, preventing loud slamming and pinched fingers. This ensures a quiet environment, especially during nighttime use.
- **Family-Friendly Design:** Accommodates the needs of both adults and children, promoting independent potty training for young ones.
- **High-Quality Material:** Constructed from durable white PP plastic, resistant to fading, peeling, and breakage. The

smooth surface is easy to clean with a soft towel, maintaining its pristine appearance for years.

OPERATING INSTRUCTIONS

Using the 2-in-1 Seat:

- For adult use, simply lift the entire toilet seat and lid. The child seat will remain magnetically attached to the lid.
- For child use, lift the main lid. The child seat will detach from the lid and can be lowered onto the adult seat.
- After child use, lift the child seat back up towards the main lid until it magnetically reattaches.

Slow-Close Function:

To close the lid or the adult seat, gently push it downwards. The slow-close hinges will engage, allowing the seat and lid to descend quietly and smoothly without slamming.

MAINTENANCE

To keep your WSSROGY toilet seat clean and in optimal condition, simply wipe its smooth surface with a soft towel. Avoid using abrasive cleaners or harsh chemicals, as these may damage the plastic material and affect its finish.

TROUBLESHOOTING & FAQs

Q: How do I buy the right size?

A: Use a ruler to measure the distance from the center of the installation hole to the front of the toilet. 16.5 inches is suitable for round toilet seats, while 18.5 inches is suitable for elongated toilet seats. This product is designed for elongated toilets.

Q: What material is the toilet seat made of? Is it prone to breakage?

A: The toilet seat is made of high-quality white plastic (PP material) that is designed not to fade, peel, or break. It offers high strength and toughness, making it more durable than ordinary plastics.

Q: What is a slow close toilet seat?

A: A slow close toilet seat means that the toilet lid and seat will automatically close slowly with a gentle push. This feature prevents loud slamming noises and protects fingers from being pinched, ensuring a quiet and safe bathroom experience.
