4. Setup and Installation

Installation of the Auffel Crystal Flush Mount Ceiling Light is designed to be straightforward. Please follow the detailed instructions provided in the included installation manual. Ensure all power is turned off at the circuit breaker before beginning any electrical work.

General Installation Steps:

1. **Safety First:** Turn off power at the main circuit breaker.
2. **Prepare Mounting Surface:** Ensure the ceiling junction box is securely mounted and capable of supporting the fixture's weight.
3. **Connect Wiring:** Connect the fixture's wires to the household wires according to the provided wiring diagram (typically black to black, white to white, and ground to ground). Secure connections with wire nuts.
4. **Mount Fixture:** Secure the fixture to the junction box using the provided mounting hardware.
5. **Install Crystals/Shade:** Carefully attach the K9 crystals and glass shade as per the manual.

6. **Restore Power:** Turn power back on at the circuit breaker and test the light.

If you are unsure about any step, it is recommended to consult a qualified electrician.

5. Operating Instructions

This Auffel ceiling light features an efficient LED light source providing 4000K neutral white light, ideal for creating a comfortable and warm atmosphere. The fixture is dimmable, allowing you to adjust the brightness to your preference.

Dimmable Functionality:

To utilize the dimmable feature, ensure you have a compatible dimmer switch installed. The light can be controlled via a standard wall switch for on/off functionality, or a dimmer switch for brightness adjustment.

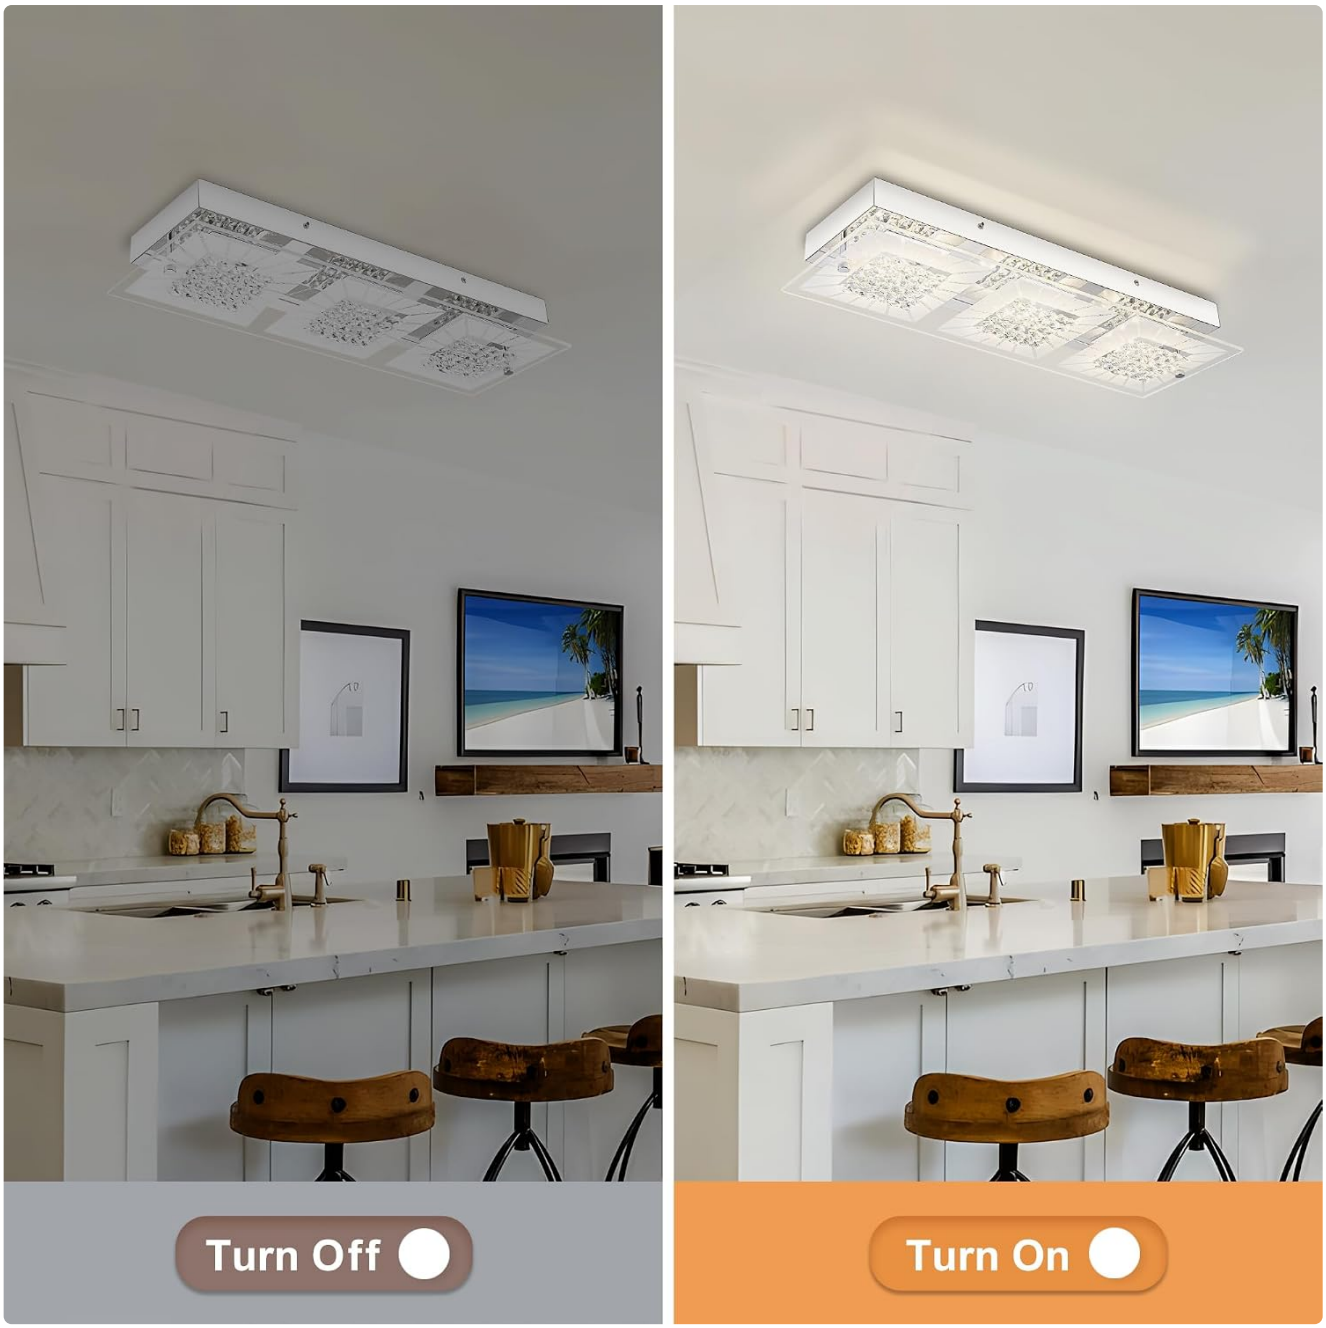

Image: A visual comparison demonstrating the ceiling light in both off and on states, highlighting the bright and even illumination it provides when active.

6. Maintenance

To ensure the longevity and continued aesthetic appeal of your Auffel Crystal Flush Mount Ceiling Light, regular maintenance is recommended.

Cleaning:

- Always turn off the power to the fixture before cleaning.
- Wipe the metal and glass surfaces with a soft, dry cloth.
- For the K9 crystals, a slightly damp cloth can be used, followed by a dry cloth to prevent water spots.
- Avoid using abrasive cleaners, solvents, or polishes as they may damage the finish or crystals.

No user-serviceable parts are inside the LED module. Do not attempt to disassemble the LED light source.

7. Troubleshooting

If you encounter any issues with your Auffel Crystal Flush Mount Ceiling Light, please refer to the following common troubleshooting steps:

Problem	Possible Cause	Solution
Light does not turn on	No power to the fixture. Loose wiring connection. Faulty wall switch or dimmer.	Check circuit breaker and wall switch. Verify all wire connections are secure (ensure power is off first). Test the switch or replace if necessary.
Light flickers or dims inconsistently	Incompatible dimmer switch. Loose wiring.	Ensure dimmer switch is LED compatible. Check wiring connections (with power off).
Fixture feels hot to the touch (overheating)	Improper ventilation. Incorrect voltage supply. Internal component issue.	Ensure proper airflow around the fixture. Verify voltage matches product specifications (110V). Discontinue use and contact customer support.

For issues not listed here or if problems persist, please contact Auffel customer support.

8. Warranty and Support

Auffel is committed to providing high-quality lighting products. For information regarding product warranty, returns, or technical support, please visit the official Auffel store or contact their customer service directly.
