Howard Miller 625659

Howard Miller SEVEN SEAS Mantel Clock, Special Reserve (Model 625659)

Instruction Manual

PRODUCT OVERVIEW

The Howard Miller SEVEN SEAS Mantel Clock, Special Reserve, Model 625659, is an industrial-style timepiece designed for placement on a mantel, shelf, or desk. It features a distressed metal finish, wrought iron Roman numerals, and bar hour markers suspended in front of a machined steel background. The contrasting aged silver-finished hour and minute hands complete its distinctive look. This clock is designed for reliable timekeeping and serves as a unique decorative element in any indoor setting.

SETUP

1. Battery Installation

The clock operates on one AA-sized battery (not included). To install the battery:

1. Locate the battery compartment on the back of the clock.
2. Open the battery compartment cover.
3. Insert one fresh AA battery, ensuring correct polarity (+/-) as indicated inside the compartment.
4. Close the battery compartment cover securely. The clock will begin to operate.

2. Placement

For optimal performance and stability, place the clock on a flat, stable, and level surface such as a mantel, shelf, or desk. Ensure the surface can support the clock's weight of 6.7 pounds.

OPERATION

Setting the Time

To set the correct time on your clock:

1. Locate the time-setting knob on the back of the clock's movement mechanism.
2. Gently turn the knob clockwise or counter-clockwise until the hour and minute hands indicate the

desired time.

3. Avoid forcing the hands directly, always use the setting knob.

MAINTENANCE

Cleaning

To maintain the appearance of your clock:

- Use a soft, dry, lint-free cloth to gently wipe the clock's surface.
- Avoid using abrasive cleaners, chemical sprays, or solvents, as these can damage the distressed metal finish.
- Dust regularly to prevent buildup.

Battery Replacement

Replace the AA battery annually or when the clock begins to lose time or stop functioning to ensure accurate and continuous operation. Follow the battery installation steps outlined in the Setup section.

TROUBLESHOOTING

- **Clock not running:**
 - Ensure the battery is inserted correctly with the positive (+) and negative (-) terminals aligned as indicated.
 - Verify that the battery is fresh. Replace with a new AA battery if necessary.
 - Check if the time-setting knob or clock hands are obstructed or stuck.
- **Incorrect time:**
 - Reset the time using the time-setting knob on the back of the clock.
 - If the clock consistently loses or gains time, replace the battery with a new one.
- **Clock is unstable:**
 - Ensure the clock is placed on a flat, level, and stable surface.
 - The clock includes felt pads on its base to protect surfaces. Ensure these pads are intact and providing proper cushioning.
