ANMEATE SM24

ANMEATE Video Baby Monitor Instruction Manual

Model: SM24

Introduction

The ANMEATE SM24 Video Baby Monitor provides parents with a reliable and secure way to monitor their baby. Utilizing digital 2.4Ghz wireless technology, it offers a clear video and audio connection, ensuring peace of mind. This manual provides essential information for setting up, operating, maintaining, and troubleshooting your baby monitor.

Product Overview

The ANMEATE SM24 monitor system consists of a parent unit (monitor) and a baby unit (camera), designed for ease of use and comprehensive monitoring.

Key Features:

- **High Quality Color Screen:** Features a 2.4-inch high-resolution display with 2x digital zoom for detailed viewing.
- **High Definition Night Vision:** Equipped with 8 infrared LED lights for clear monitoring in low-light conditions.
- **Temperature Monitoring:** Built-in sensor to monitor the room temperature.
- **Two-Way Talk:** Allows for two-way communication to comfort your baby remotely.
- **Long Transmission Range:** Covers a transmission range of up to 960 feet in open areas.
- **High Capacity Battery:** The parent unit's 950mAh Li-ion battery provides up to 8 hours of use in Eco Mode.
- **Multi-Camera Expandability:** Supports up to four cameras for monitoring multiple rooms or children.
- **Additional Features:** Includes Eco Mode Voice Activation, Sound Activated LED Indicators, Alarm/Timer Setting, Lullabies, Manual Pan (360 degrees) & Tilt (60 degrees), Auto Scan View, and flexible mounting options.

This image illustrates the main features of the ANMEATE baby monitor, including lullaby playing, alarm setting, crystal clear sound, two-way talk, smart ECO mode, zoom in/out, private signal, night vision, temperature monitoring, and a 960ft transmission range.

What's in the Box

The standard package includes:

- 1 x Parent Unit (Monitor)
- 1 x Baby Unit (Camera)
- 2 x Power Adapters
- 1 x User Manual

Setup

Follow these steps for initial setup:

1. **Power the Baby Unit (Camera):** Connect the small end of one power adapter to the DC-IN port on the back of the baby unit. Plug the other end into a standard electrical outlet. The baby unit will power on automatically.
2. **Power the Parent Unit (Monitor):** Connect the small end of the second power adapter to the DC-IN port on the side of the parent unit. Plug the other end into a standard electrical outlet. The parent unit will power on automatically.
3. **Position the Baby Unit:** Place the baby unit in a location that provides a clear view of your baby's crib or play area. Ensure it is out of reach of your baby and at least 3 feet (1 meter) away from the crib to prevent entanglement hazards.
4. **Pairing (Pre-paired):** The baby unit and parent unit are pre-paired at the factory. If for any reason they lose connection, refer to the troubleshooting section for re-pairing instructions.

Operating Instructions

Familiarize yourself with the parent unit's controls for optimal use:

- **Power On/Off:** Press and hold the power button on the side of the parent unit to turn it on or off.
- **Volume Control:** Use the volume buttons (**+** / **–**) to adjust the listening volume from the baby unit.
- **Brightness Control:** Use the brightness buttons (☀**+** / ☀**–**) to adjust the screen brightness of the parent unit.
- **Two-Way Talk:** Press and hold the microphone button on the parent unit to speak to your baby through the baby unit's speaker. Release the button to hear your baby.

This image demonstrates the two-way talk feature, allowing you to communicate with your baby through the monitor.

- **Digital Zoom:** Press the zoom button (magnifying glass icon) to zoom in 2x on the video feed. Press again to zoom out.

This image illustrates the 2x digital zoom capability of the monitor, allowing for closer inspection of your baby.

- **Night Vision:** The baby unit automatically activates its infrared night vision in low-light conditions, providing a clear black-and-white image.

This image shows the automatic infrared night vision feature, providing clear visibility even in complete darkness.

- **Temperature Monitoring:** The current room temperature is displayed on the parent unit's screen.
- **Lullabies:** Access the menu to select and play from 4 soothing lullaby songs to help your baby sleep.

This image highlights the lullaby playing and temperature display features of the baby unit.

- **Multi-Camera View:** If you have multiple cameras (up to four), you can switch between them using the menu options or enable the auto-scan view to cycle through all connected cameras.

Maintenance

To ensure the longevity and optimal performance of your ANMEATE baby monitor, follow these maintenance guidelines:

- **Cleaning:** Use a soft, dry cloth to clean the surfaces of the parent and baby units. Do not use abrasive cleaners or solvents.
- **Battery Care:** The parent unit uses a 950mAh Li-ion battery. For best battery life, avoid fully discharging the battery frequently. Charge the unit when the low battery indicator appears.
- **Storage:** If storing the monitor for an extended period, ensure both units are fully charged, then power them off. Store in a cool, dry place.

Troubleshooting

If you encounter issues with your ANMEATE baby monitor, try the following solutions:

- **No Connection/Signal Loss:**
  - Ensure both units are powered on and within range (up to 960 feet in open areas).
  - Move the parent unit closer to the baby unit.
  - Avoid placing units near large metal objects or other electronic devices that may cause interference.
  - If connection issues persist, try re-pairing the units. (Refer to the full user manual for detailed re-pairing steps).
- **Poor Video/Audio Quality:**
  - Check for obstructions between the camera and monitor.
  - Adjust the brightness settings on the parent unit.
  - Ensure the camera lens is clean.
- **Battery Drains Quickly:**
  - Ensure the parent unit is fully charged before use.
  - Use Eco Mode to conserve battery life.
  - Battery performance may degrade over time with prolonged use.
- **Multi-Camera Compatibility:**
  - Newer versions of the monitor may have software updates that make them incompatible with older camera models. Contact customer support if you experience compatibility issues when adding cameras.

Specifications

Feature	Detail
Model Number	SM24
Screen Size	2.4 Inches
Video Capture Resolution	720p
Connectivity Technology	Wireless (FHSS)
Transmission Range	Up to 960 feet
