Maintenance

To ensure the longevity and continued performance of your ZINUS Patricia bed frame, follow these simple maintenance guidelines:

- **Cleaning:** Wipe the metal frame with a soft, damp cloth. Avoid using harsh chemicals or abrasive cleaners, as these can damage the finish.
- **Periodic Checks:** Periodically check all bolts and screws to ensure they remain tight. Re-tighten if necessary to maintain stability and prevent squeaking.
- **Weight Distribution:** Distribute weight evenly across the bed frame to prevent undue stress on any single point. The maximum recommended load is 700 pounds.

Troubleshooting

If you encounter any issues with your ZINUS Patricia bed frame, consider the following common solutions:

- **Squeaking Noises:** Squeaking often indicates loose connections. Re-tighten all bolts and screws on the frame and slats. Ensure the mattress is properly seated on the slats.
- **Instability/Wobbling:** Check that all frame components are correctly assembled and securely fastened. Ensure the bed frame is on a level surface.
- **Missing Parts:** If you find any parts missing upon unboxing, please contact ZINUS customer support immediately.
