MAINTENANCE

Cleaning Your iMac

Software Updates

Regularly check for and install macOS updates to ensure your system has the latest features, security patches, and performance improvements. You can find updates in System Settings (or System Preferences) > General > Software Update.

Data Backup

It is highly recommended to regularly back up your data to an external drive using Apple's built-in Time Machine feature or another reliable backup solution. This protects your important files in case of unforeseen issues.

TROUBLESHOOTING
