DC Cargo Mall ETTH

DC Cargo Mall E Track Tool Holder Instruction Manual

Model: ETTH

Brand: DC Cargo Mall

Introduction

The DC Cargo Mall E Track Tool Holder (Model ETTH) is designed to provide a secure and organized storage solution for various long-handled tools and equipment within trailers, box trucks, cargo vans, warehouses, and garages. This manual provides essential information for the proper setup, operation, and maintenance of your tool holders.

Product Overview

The E Track Tool Holders are constructed from heavy-duty steel with a PVC coating, ensuring durability and protection for your tools. They feature a spring-loaded E-Track fitting for quick and tool-free installation into any E-Track rail system.

Key Features:

- **Secure Storage:** Designed to hold long-handled tools such as rakes, shovels, brooms, and shoring beams.
- **E-Track Compatibility:** Features a no-install, no-special-tools E-Track fitting for easy attachment and repositioning.
- **Durable Construction:** Made of PVC-covered steel for strength and longevity.
- **Space Optimization:** Helps free up floor space by organizing tools vertically on E-Track rails.

Dimensions:

- **Opening Width:** 7/8 inches (flexible up to 1.5 inches diameter for insertion from the top).
- **Height:** 3 inches (3-1/4 inches with E-Track spring fitting).
- **Width:** 2-1/2 inches.
- **Front to Back:** 3-1/4 inches.

Setup and Installation

The E Track Tool Holders are designed for quick and easy installation into any standard E-Track rail system without the need for additional tools.

Installation Steps:

1. Locate an available slot on your E-Track rail.
2. Insert the spring-loaded fitting of the tool holder into the E-Track slot.
3. Push down on the lever to secure the fitting firmly into the track. Ensure it clicks into place.
4. Verify that the tool holder is securely attached by gently pulling on it.

Operating Instructions

Once installed, the E Track Tool Holders provide a convenient way to store your tools.

Inserting Tools:

- For tools with handles up to 7/8 inches in diameter, simply push the handle into the opening of the tool holder. The flexible PVC will grip the handle securely.
- For tools with handles between 7/8 inches and 1.5 inches in diameter, insert the handle from the top of the tool holder and slide it down into the grip.

Removing Tools:

- To remove a tool, simply pull it upwards or outwards from the holder. The flexible design allows for easy retrieval.

Maintenance

To ensure the longevity and optimal performance of your E Track Tool Holders, follow these simple maintenance guidelines:

- **Regular Cleaning:** Wipe down the tool holders periodically with a damp cloth to remove dirt, dust, and debris. Avoid harsh chemicals that may damage the PVC coating.
- **Inspect for Wear:** Regularly check the tool holders and the E-Track fittings for any signs of wear, damage, or corrosion. Ensure the spring mechanism operates smoothly.
- **Proper Storage:** When not in use, store the tool holders in a dry environment to prevent rust or material degradation.

Troubleshooting

If you encounter any issues with your E Track Tool Holders, consider the following:

- **Holder Not Securing Tool:** Ensure the tool handle diameter is within the specified range (up to 1.5 inches). For larger handles, ensure they are inserted from the top. Check for any debris obstructing the grip.
- **Holder Not Attaching to E-Track:** Verify that the E-Track rail is clean and free of obstructions. Ensure the spring-loaded fitting is fully engaged and clicked into place.
- **Difficulty Removing Tool:** Ensure you are pulling the tool straight out or upwards. The grip is designed to be firm but should release with a steady pull.

If problems persist, please contact DC Cargo Mall customer support for assistance.

Specifications

Attribute	Detail
Model Number	ETTH
Material	PVC-covered Steel
Item Weight (2-pack)	1.4 pounds
