WOWOTO M5

WOWOTO Mini Projector M5 User Manual

Model: M5

1. INTRODUCTION

This manual provides comprehensive instructions for the safe and efficient operation of your WOWOTO Mini Projector M5. Please read this manual thoroughly before use and retain it for future reference.

Image 1.1: The WOWOTO Mini Projector M5. This compact device is designed for portable entertainment and presentations.

2. SAFETY INFORMATION

To ensure safe operation and prevent damage, please observe the following precautions:

- Do not block ventilation openings.
- Do not expose the projector to rain or moisture.
- Use only attachments/accessories specified by the manufacturer.
- Refer all servicing to qualified service personnel.
- Avoid direct eye exposure to the projector lens when the lamp is on.
- Keep the projector away from heat sources.

3. PACKAGE CONTENTS

Verify that all items are present in the package:

- 1 x WOWOTO Smart Projector M5
- 1 x Power adapter
- 1 x Remote control
- 1 x HDMI cable
- 1 x User Manual

4. PRODUCT OVERVIEW

The WOWOTO Mini Projector M5 features a compact design with various input/output ports and controls.

4.1. Top Panel Controls

- **Touch Screen Control:** Navigate menus and control the projector without the remote.

4.2. Rear Panel Ports

- **HDMI:** Connect to HDMI-compatible devices (e.g., laptops, gaming consoles).
- **AV:** Connect to analog video/audio sources.
- **USB 2.0 & USB 3.0:** Connect USB storage devices for media playback.
- **Micro SD:** Insert a Micro SD card for media playback.
- **3.5mm Headphone Socket:** Connect external audio devices or headphones.
- **RJ45:** Ethernet port for wired network connection.
- **Power Input:** Connect the power adapter.

4.3. Side Panel Controls

- **Focus Adjustment:** Manually adjust the image focus.

5. SETUP

5.1. Power Connection

1. Connect the power adapter to the projector's power input port.
2. Plug the power adapter into a suitable electrical outlet.
3. The projector can also operate on its built-in 7800mAh Li-ion battery for portable use.

5.2. Placement and Screen Size

Position the projector on a stable, flat surface. The projection size can range from 20 to 300 inches, depending on the distance from the projection surface.

5.3. Focus and Keystone Adjustment

- **Electric Focus:** Use the remote control to adjust the image focus for clarity.
- **Keystone Correction:** The projector features manual keystone correction of $\pm 40^\circ$ to square the image if the projector is not perfectly aligned with the screen. This can be adjusted manually or automatically.

5.4. Connecting Devices

Connect your desired input source using the appropriate port:

- **HDMI:** For high-definition video and audio from devices like laptops, Blu-ray players, or gaming consoles (PS2, PS3, Xbox).
- **USB/Micro SD:** For playing media files directly from storage devices.
- **Wi-Fi:** Connect to a wireless network for internet access and streaming. Supports 2.4G & 5G Wi-Fi.
- **Bluetooth:** Connect to external Bluetooth speakers or other compatible accessories.

6. OPERATING INSTRUCTIONS

6.1. Powering On/Off

- Press the power button on the projector or the remote control to turn the unit on or off.

6.2. Navigating the Android System

The projector runs on Android 4.4. Use the remote control or the integrated touch screen to navigate the interface.

- **Remote Control:** Use the directional buttons and OK button to select options.
- **Touch Screen:** Swipe and tap on the top panel for direct control.

6.3. Using Applications

Access pre-installed applications or download new ones from the app store. Stream video content via Miracast, YouTube, Airplay, Netflix, and other streaming apps.

6.4. Wireless Screen Sharing

The projector supports wireless screen sharing from iOS/Android devices, allowing you to stream games, photos, and videos.

6.5. 3D Functionality

The projector supports Blu-ray 3D. Active shutter 3D glasses (not included) are required to experience 3D content.

Your browser does not support the video tag.

7. MAINTENANCE

7.1. Cleaning

- Use a soft, dry cloth to clean the projector's exterior.
- For the lens, use a lens cleaning cloth and specialized lens cleaning solution.
- Ensure ventilation openings are free from dust and debris.

7.2. Lamp Life

The projector lamp has a life cycle of over 20,000 hours, ensuring more than 5 years of regular use without bulb maintenance or replacement.

8. TROUBLESHOOTING

Problem	Solution
No image displayed.	<p>Ensure the power adapter is securely connected and the projector is powered on.</p> <p>Verify the input source is correctly selected (e.g., HDMI, USB).</p> <p>Check the connection cable between the projector and the source device.</p>
Image is blurry.	<p>Adjust the focus using the electric focus function via the remote control or the manual focus wheel.</p> <p>Ensure the projection surface is flat and the projector is at an appropriate distance.</p>
Image is trapezoidal.	<p>Use the keystone correction feature to adjust the image geometry.</p>
No sound.	<p>Check the volume settings on both the projector and the source device.</p> <p>Ensure external speakers (if connected) are powered on and properly paired via Bluetooth or cable.</p>
