# smarTrike 6 in 1 smarTfold 300+ Baby Tricycle Instruction Manual

Model: 5021700

## 1. INTRODUCTION

---

Thank you for choosing the smarTrike 6 in 1 smarTfold 300+ Baby Tricycle. This versatile tricycle is designed to grow with your child, offering six different stages of use from 10 months up to 36 months. It features an intuitive touch steering system, a unique folding mechanism for easy storage and transport, and multiple safety features to ensure a secure and enjoyable ride for both child and parent.

This manual provides essential information for the safe and proper assembly, operation, maintenance, and troubleshooting of your smarTfold 300+ tricycle. Please read it thoroughly before first use and retain it for future reference.

## 2. SAFETY INFORMATION

---

**WARNING:** Adult assembly required. Keep small parts away from children before assembly. Always supervise children when using the tricycle.

- Ensure all locking mechanisms are engaged before each use.
- Always use the 3-point Y harness to secure your child.
- Do not use the tricycle on public roads, near motor vehicles, or on steep inclines.
- Ensure the child's feet are clear of moving parts, especially during folding or unfolding.
- The maximum weight capacity for the child is 17 kg (37 lbs).
- Regularly inspect the tricycle for loose parts, damage, or wear. Do not use if damaged.

### 3. ASSEMBLY AND INITIAL SETUP

---

The smarTfold 300+ features a patented folding mechanism, allowing for quick setup without complex assembly. The tricycle arrives largely pre-assembled.

#### 3.1 Unfolding the Tricycle

1. Place the folded tricycle on a flat, stable surface.
2. Locate the release buttons or levers (refer to visual guides on the product itself).
3. Carefully extend the frame until it locks into place. Ensure all components, such as the parent handle and seat, are securely unfolded and clicked into their operational positions.
4. Attach the canopy if not already installed, ensuring it clicks firmly into its mounts.

#### 3.2 Folding for Storage/Transport

To fold the tricycle for compact storage or transport, reverse the unfolding steps. Ensure the seat, canopy, and parent handle are in their most compact positions before initiating the main fold. The unique mechanism allows it to fold without dismantling, making it convenient for car trunks or small spaces.

## **4. OPERATING THE SMARTFOLD 300+**

---

### **4.1 Touch Steering Technology**

The smarTfold 300+ features intuitive Touch Steering. Simply touch the parent handle and gently guide it in the desired direction. The tricycle will respond effortlessly, making steering smooth and easy.

#### **4.2 Parent/Child Control Switch**

To switch control between the parent and the child, locate the red button on the front wheel mudguard. Press this button and twist the wheel 180 degrees. This mechanism allows you to easily transition from parent-controlled steering to child-controlled pedaling.

#### **4.3 Telescopic Parent Handle**

The parent handle is telescopic, allowing you to adjust its height for comfortable pushing. Pull the handle up to extend it and secure it at your preferred height. This ensures ergonomic steering while your child enjoys the ride.

#### **4.4 Safety Harness and Bar**

Always secure your child using the 3-point Y harness. Ensure it is snug but comfortable. The tricycle also includes a safety bar that provides additional security and can be opened for easy access.

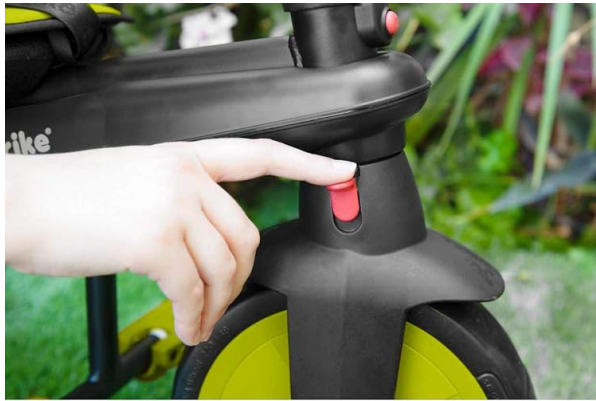

#### **4.5 Removable Pedals and Foldable Footrest**

For younger children who cannot yet pedal, the tricycle features a foldable footrest where they can rest

their feet. As your child grows and is ready to pedal independently, snap in the non-slip pedals. These pedals can be removed when not needed.

#### 4.6 Extendable Canopy and Storage Bag

The extendable canopy provides shade and protection from the sun. Adjust its position as needed. A large storage bag is included to carry essential items while on the go.

#### Child/Parent control

Decide in an instant. Press the red button on the front wheel mudguard & twist it 180° to switch control.

#### Removable pedals

Snap in the non-slip pedals to turn your baby push trike into a toddler tricycle ready to ride and explore.

#### Foldable Footrest

Not big enough to pedal? No problem, your toddler can rest their feet on this foldable footrest

### Safety Belt

Secure 3-point Y harness to ensure your baby stays securely seated in the tricycle while you are on the move.

### Telescopic parent handle

Pull the handle up, secure the height with the red levers, steer the trike while your toddler enjoys the ride!

### Storage bag

Keep this large storage bag filled with all the baby essentials you need while out and about.

## 4.7 Stages of Use

The smarTfold 300+ adapts through six stages to accommodate your child's development:

- **Stage 1 (Folding):** Compact and portable for easy storage and transport.
- **Stage 2 (10M+):** Parent-controlled tricycle with full support (canopy, safety bar, footrest, harness).
- **Stage 3 (18M+):** Child begins to sit more upright, still parent-controlled, with safety bar removed.
- **Stage 4 (24M+):** Child can begin to pedal, parent still steers. Footrest folded, pedals engaged.
- **Stage 5 (30M+):** Parent handle removed, child steers and pedals independently.
- **Stage 6 (32-36M):** Fully independent tricycle, ideal for confident riders.

## 5. MAINTENANCE AND CARE

---

- **Cleaning:** Wipe down plastic and metal parts with a damp cloth and mild soap. Do not use abrasive cleaners. The fabric seat and canopy can be spot cleaned.
- **Lubrication:** Periodically check wheels and moving parts for smooth operation. Apply a small amount of silicone-based lubricant if necessary.
- **Storage:** Store the tricycle in a dry, cool place away from direct sunlight and extreme temperatures to prevent material degradation. Utilize its folding feature for compact storage.
- **Inspection:** Regularly check all screws, bolts, and fasteners to ensure they are tight. Inspect the wheels, tires, and frame for any signs of wear or damage.

## 6. TROUBLESHOOTING

---

- **Tricycle not steering smoothly:** Check if the parent/child control switch is correctly engaged. Ensure no debris is obstructing the wheels.
- **Folding mechanism is stiff:** Ensure all components are correctly aligned before attempting to fold.

Do not force the mechanism. Check for any obstructions.

- **Pedals not engaging:** Verify that the pedals are correctly snapped into place and that the child/parent control is set to child control if applicable.
- **Wobbly wheels:** Check if the wheel axles are securely fastened. If the issue persists, contact customer support.

## 7. SPECIFICATIONS

---

Feature	Detail
Product Dimensions	98.3 x 43.43 x 100.58 cm
Item Weight	9.34 kg
Manufacturer Recommended Age	10 months and up
Item Model Number	5021700
Assembly Required	No (minimal setup)
Material Type(s)	Polyethylene, Polypropylene
Color	Green

## 8. WARRANTY AND SUPPORT

---

For warranty information, product registration, or technical support, please refer to the warranty card included with your purchase or visit the official smarTrike website. Keep your proof of purchase for any warranty claims.

If you encounter any issues not covered in this manual, please contact smarTrike customer service for assistance.
