Whirlpool C00505636

Whirlpool Dishwasher Power Module PLP2 DEA701EU - C00505636 User Manual

Brand: Whirlpool | Model: C00505636

1. Product Overview

This document provides essential information for the Whirlpool PLP2 DEA701EU Power Module, part number C00505636. This electronic module is a critical component for various dishwashers, designed to ensure proper functionality of your appliance.

Please ensure this part is compatible with your appliance model before proceeding with installation. Our customer service is available to assist you with compatibility verification.

2. Compatibility

This power module is compatible with appliances from the following brands:

- Whirlpool
- Hotpoint
- Ariston
- Laden
- Ikea
- Ignis
- Bauknecht

To confirm compatibility, it is highly recommended to contact our customer service before ordering. They can validate the correspondence with your specific appliance model.

3. Setup and Programming

This module is supplied as a blank unit and requires programming to function correctly with your appliance. SEMBOUTIQUE offers free programming of this module when you place an order.

Important: Before ordering, please contact our customer service to validate the compatibility with your appliance. This step is crucial to ensure you receive a correctly programmed module.

To facilitate programming for Whirlpool, Laden, Ikea, Ignis, and Bauknecht brands, please provide the following information:

1. The 85xxxxxxxxx service code.
2. The serial number that follows (found on the barcode label or where only these numbers appear).

Enter this information in the "comments" field available just after selecting your delivery option and before choosing your payment method during the order process. Our customer service will handle the rest, ensuring you receive a module ready for immediate use, configured for your specific appliance.

Alternatively, you can provide a photo of your appliance's rating plate. To do this, open a form under "Need help, contact us" and select "Inquiry regarding an order."

Figure 1: Whirlpool PLP2 DEA701EU Power Module (C00505636). This image shows the top view of the beige-colored electronic control board, featuring various connectors, a barcode label with product information, and ventilation slots. The model number "DEA701EU" is visible on the casing.

4. Operation

The PLP2 DEA701EU Power Module is an internal electronic component that manages various functions of your

dishwasher. Once correctly installed and programmed, it operates automatically as part of the appliance's control system. Its primary function is to process signals and control power distribution to different dishwasher components, ensuring cycles run as intended.

No user interaction is required for the module's operation after installation. Its functionality is integrated into the dishwasher's overall system.

5. Maintenance

This electronic power module is designed to be maintenance-free. It does not require regular cleaning, lubrication, or user-performed adjustments. Any internal issues should be addressed by qualified technicians.

Ensure the module is kept dry and free from excessive heat or moisture, as these can damage electronic components.

6. Troubleshooting

As an internal electronic component, direct troubleshooting of the power module by the end-user is not recommended. If your dishwasher is experiencing issues that you suspect are related to the power module (e.g., appliance not powering on, erratic behavior, specific error codes), it is best to:

- Consult your dishwasher's main user manual for general troubleshooting steps.
- Contact a qualified appliance repair technician.
- Contact our customer service for guidance, especially if the issue arises shortly after module installation.

Do not attempt to open or repair the module yourself, as this may void the warranty and pose safety risks.

7. Specifications

Attribute	Value
Brand	Whirlpool
Manufacturer Reference	C00505636
Reference	C00505636
Batteries Required	No
Spare Parts Availability	Information unavailable on spare parts

First Available on Amazon.fr	February 9, 2018

8. Warranty and Support

Due to the specific nature of this product (Electronic, Electrical Material), it cannot be refunded or exchanged if it has been opened or mounted. The warranty is limited to a standard exchange for the exact same product.

An exchange will only be processed if the delivered item presents a defect and after expert assessment by our services.

In accordance with Article L.221-28 3° of the Consumer Code, the right of withdrawal cannot be exercised for contracts for the supply of goods manufactured according to consumer specifications, or clearly personalized. This means that the Customer will not have a right of withdrawal when purchasing Products customized at the customer's request. For example, electronic cards that have been programmed by the Seller's technical service will not be covered by the right of withdrawal.

For any support inquiries, please contact our customer service. You can initiate a request by opening a form under "Need help, contact us" and selecting "Inquiry regarding an order."
