Philips Hue 3435011U7

Philips Hue White Ambiance Adore Smart Flushmount Light + Dimmer Switch User Manual

Model: 3435011U7

INTRODUCTION

The Philips Hue White Ambiance Adore Smart Flushmount Light is designed to provide versatile lighting for your daily routines, from energizing mornings to relaxing evenings. This fixture, suitable for damp locations like bathrooms, integrates seamlessly into your Philips Hue smart lighting system. It comes with a wireless dimmer switch for immediate control and can be connected to a Philips Hue Bridge (sold separately) for advanced smart features, including voice control via Amazon Alexa, Apple HomeKit, and Google Assistant.

SAFETY INFORMATION

Please read all instructions carefully before installation and use. Failure to follow these instructions may result in electric shock, fire, or other hazards.

- **Electrical Safety:** Installation should be performed by a qualified electrician or a person with adequate knowledge of electrical wiring. Always turn off power at the circuit breaker before installation, maintenance, or removal.
- **Damp Rated:** This fixture is DAMP rated, making it suitable for use in bathrooms and other damp indoor locations. Do not expose to direct water spray or submersion.
- **Voltage:** Ensure the supply voltage matches the fixture's requirements (24 Volts).
- **Compatibility:** Use only with Philips Hue compatible devices and the Philips Hue Bridge for full smart functionality.
- **Cleaning:** Disconnect power before cleaning. Use a soft, dry cloth. Do not use abrasive cleaners or solvents.

PACKAGE CONTENTS

Verify that all components are present before beginning installation:

- Philips Hue White Ambiance Adore Flushmount Light Fixture
- Philips Hue Wireless Dimmer Switch
- Installation Hardware (screws, wire nuts)
- User Manual (this document)

SETUP AND INSTALLATION

The installation process involves mounting the light fixture and then connecting it to your Philips Hue system. A Philips Hue Bridge is required for the full smart experience.

Step 1: Install Your Lighting Fixture

1. **Turn off Power:** Locate the circuit breaker controlling the light fixture's location and turn off the power. Verify power is off using a voltage tester.
2. **Prepare Wiring:** Carefully remove the existing light fixture. Ensure the electrical box is clean and free of debris.
3. **Mount the Fixture:** Follow the specific instructions provided with the physical product for mounting the flushmount fixture to the ceiling electrical box. Connect the electrical wires (live, neutral, ground) according to local electrical codes.
4. **Secure Fixture:** Secure the fixture firmly to the ceiling.

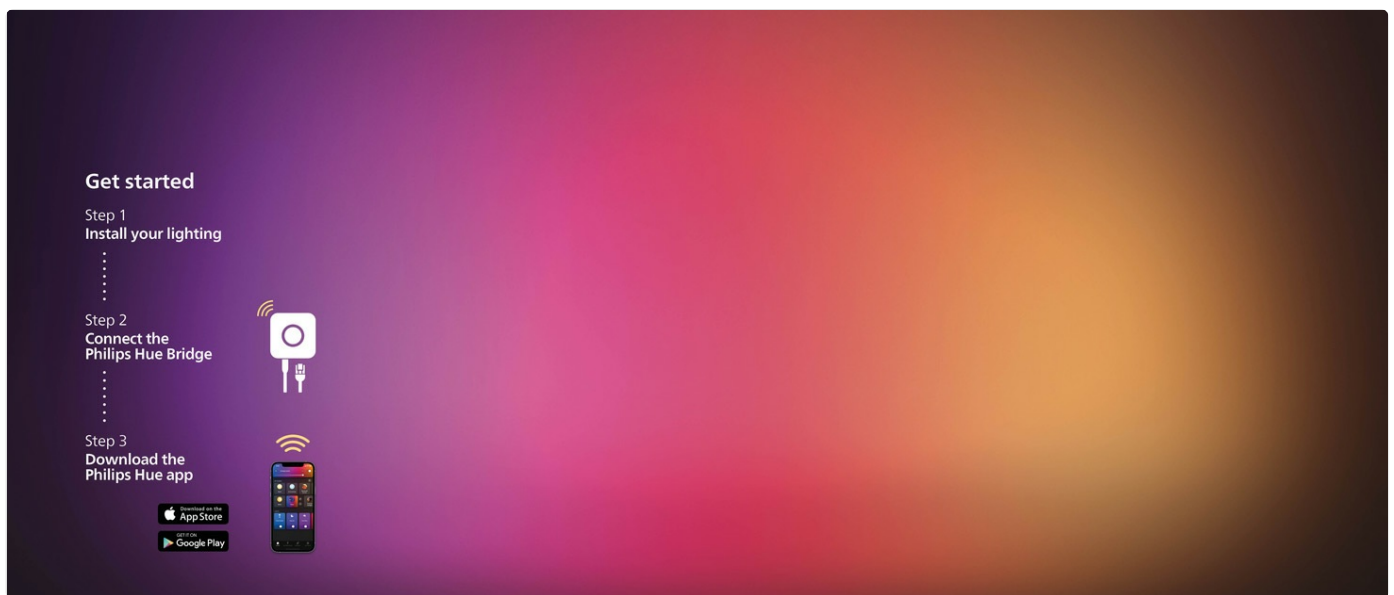

Image: Overview of the three main steps for getting started with Philips Hue: installing the light, connecting the Hue Bridge, and downloading the app.

Step 2: Connect the Philips Hue Bridge (if not already set up)

The Philips Hue Bridge acts as the central hub for your smart lighting system. If you already have a Bridge, proceed to Step 3.

1. **Power On:** Connect the Philips Hue Bridge to a power outlet using the provided power adapter.
2. **Connect to Router:** Connect the Bridge to your home router using the supplied Ethernet cable.
3. **Wait for Lights:** Wait for all three indicator lights on the Bridge to illuminate, indicating it's ready.

Step 3: Download the Philips Hue App and Pair Your Light

1. **Download App:** Download the official Philips Hue app from the Apple App Store or Google Play Store.
2. **Launch App:** Open the app and follow the on-screen instructions to connect to your Philips Hue Bridge.
3. **Add Light:** Once connected to the Bridge, the app will guide you through adding new lights. Ensure your Adore

flushmount light is powered on. The app will search for and discover the new light.

4. **Assign Room/Zone:** Assign the light to a specific room or zone within the app for easier control.

OPERATING INSTRUCTIONS

Control your Philips Hue Adore light using the included dimmer switch, the Philips Hue app, or voice commands.

Using the Wireless Dimmer Switch

The included dimmer switch provides convenient control without needing your phone.

- **On/Off Button:** Press the 'On' button to turn the light on, and the 'Off' button to turn it off.
- **Dimming Buttons:** Use the '+' button to increase brightness and the '-' button to decrease brightness.
- **Scene Cycle Button:** The button with the Philips Hue icon cycles through pre-set light recipes (e.g., Energize, Concentrate, Read, Relax).

Using the Philips Hue App

The Philips Hue app offers comprehensive control and customization options.

- **Brightness Control:** Adjust the brightness of your light using the slider in the app.
- **Light Recipes:** Select from various pre-set light recipes like "Energize," "Concentrate," "Read," and "Relax" to suit your activity.
- **Custom Scenes:** Create and save your own custom light scenes with specific brightness and color temperature settings.
- **Scheduling:** Set schedules for your light to turn on/off or change scenes automatically.
- **Away From Home Control:** Control your lights remotely when connected to the Hue Bridge and enabled in the app.

Voice Control Integration

Once connected to the Philips Hue Bridge, your Adore light can be controlled using voice commands through compatible smart assistants.

- **Amazon Alexa:** Enable the Philips Hue skill in the Alexa app and discover your devices. Then, use commands like "Alexa, turn on bathroom light" or "Alexa, set bathroom light to relax."
- **Apple HomeKit:** Add your Philips Hue Bridge to the Home app. Use Siri commands such as "Hey Siri, dim the bathroom light" or "Hey Siri, set the bathroom light to energize."
- **Google Assistant:** Link your Philips Hue account in the Google Home app. Use commands like "Hey Google, brighten the bathroom light" or "Hey Google, turn off the bathroom light."

MAINTENANCE

Regular maintenance ensures optimal performance and longevity of your Philips Hue Adore light fixture.

- **Cleaning:** Before cleaning, ensure the power to the fixture is turned off at the circuit breaker. Use a soft, dry, or slightly damp cloth to wipe the surface. Avoid using harsh chemicals, abrasive cleaners, or solvents, as these can damage the finish or electrical components.
- **Bulb Replacement:** This fixture uses integrated LED lighting and does not require bulb replacement.
- **Software Updates:** Keep your Philips Hue app and Bridge firmware updated to ensure compatibility and access to the latest features and security enhancements. Updates are managed through the Philips Hue app.

TROUBLESHOOTING

If you encounter issues with your Philips Hue Adore light, refer to the following common solutions:

Problem	Possible Cause	Solution
Light does not turn on.	No power, loose wiring, fixture not properly installed.	Check circuit breaker. Ensure all wiring connections are secure. Verify fixture is correctly installed according to instructions.
Light not responding to dimmer switch.	Dimmer switch battery low, switch not paired, light out of range.	Replace dimmer switch battery. Re-pair the dimmer switch with the light. Ensure the light and switch are within range.
Light not found by Hue app/Bridge.	Light not powered on, Bridge not connected, light too far from Bridge, serial number issue.	Ensure light is powered on. Check Bridge power and Ethernet connection. Move light closer to Bridge or add a Hue smart plug as a range extender. If prompted for serial number, ensure it is correctly entered (note: some users report difficulty accessing serial number after installation, try to note it before final mounting).
Light is not as bright as expected.	Brightness setting too low, perception.	Increase brightness via app or dimmer. Note that perceived brightness can vary based on room size and existing lighting. The fixture provides 2400 lumens.
Difficulty with physical installation.	Mounting plate clearance, screw length.	Ensure adequate clearance for wiring. If screws are too short, longer ones may be required (consult a professional). Consider having assistance for overhead installation.

SPECIFICATIONS

Feature	Detail
Brand	Philips Hue
Model Name	Adore
Model Number	3435011U7
Color	Chrome
