5. OPERATING INSTRUCTIONS

The fragrance intensity can be adjusted to your preference:

- For a stronger scent, use more reeds.
- For a lighter scent, use fewer reeds.
- To refresh the scent, periodically flip the reeds upside down.

The fragrance oil is designed to be long-lasting, typically providing aroma for over 2 months.

6. MAINTENANCE

No specific maintenance is required beyond adjusting the reeds as described in the operating instructions. Ensure the diffuser is placed on a stable surface to prevent spills. If spills occur, clean the surface immediately to avoid damage.

7. TROUBLESHOOTING

If you experience issues with the fragrance diffusion, consider the following:

- **Weak Scent:** Try flipping the reeds. If the scent remains weak, add more reeds to the bottle. Ensure the diffuser is not placed in an area with strong drafts, which can dissipate the scent too quickly.
- **Overpowering Scent:** Remove some reeds from the bottle to reduce the intensity.
