Zadro LVAN

Zadro LVAN LED Lighted Makeup Mirror

Model: LVAN

INTRODUCTION

This manual provides instructions for the safe and effective use of your Zadro LVAN LED Lighted Makeup Mirror. Please read these instructions thoroughly before operating the device and retain them for future reference.

The Zadro LVAN mirror features dual-sided optical quality glass, offering both 8X and 1X magnification, complemented by bright LED lighting. Its cordless design and 360-degree rotation provide convenience for various grooming and makeup applications.

PRODUCT FEATURES

- **Dual-Sided Magnification:** One side provides 8X magnification for detailed tasks, while the other offers 1X magnification for a full view.
- **LED Lighting:** Bright, soft white (6400K) LED illumination surrounds the mirror, providing consistent and clear lighting.
- **Cordless Operation:** Powered by 4 AAA batteries (not included), allowing for flexible placement without power cords.
- **360-Degree Rotation:** The mirror head can rotate fully, enabling easy switching between magnification levels and optimal viewing angles.
- **Durable Construction:** Features a metal frame and base for stability and longevity.

SETUP

Battery Installation

The Zadro LVAN mirror requires 4 AAA batteries for its LED lighting function. Follow these steps to install the batteries:

1. Lay the mirror flat on a stable surface with the 8X magnification side facing upward.
2. Locate the battery compartment cover on the back of the 8X mirror frame.
3. To open the battery compartment, gently press down on the cover and rotate it approximately 1/2 inch counter-clockwise. The cover should then lift off easily. **Note:** Some instructions may state a 1/4 turn, but a smaller rotation (approx. 1/2 inch) is typically sufficient to unlock the cover. Avoid excessive force.
4. Insert 4 fresh AAA batteries, ensuring the positive (+) and negative (-) terminals align correctly with the indicators inside the compartment.
5. Replace the battery compartment cover by aligning it and rotating it clockwise until it locks securely into place.

Once batteries are installed, the mirror is ready for use.

OPERATING INSTRUCTIONS

Turning the LED Light On/Off

To activate the LED light, locate the power button, typically found on the edge of the mirror frame. Press the button once to turn the light on. Press it again to turn the light off.

Switching Magnification

The mirror features dual sides: 8X magnification and 1X magnification. To switch between them, simply rotate the mirror head 360 degrees on its swivel axis until the desired magnification is facing you.

MAINTENANCE

Cleaning the Mirror

To clean the mirror surfaces, use a soft, lint-free cloth. For smudges or fingerprints, lightly dampen the cloth with water or a mild glass cleaner. Avoid abrasive cleaners or harsh chemicals, as these can damage the mirror's finish or coating.

Battery Replacement

When the LED light begins to dim or flicker, it is an indication that the batteries need to be replaced. Follow the battery installation steps outlined in the "Setup" section to replace the 4 AAA batteries.

TROUBLESHOOTING

Problem	Possible Cause	Solution
---------	----------------	----------

Problem	Possible Cause	Solution
LED light does not turn on.	Batteries are not installed. Batteries are installed incorrectly. Batteries are depleted.	Install 4 fresh AAA batteries. Check battery polarity (+/-). Replace with new AAA batteries.
LED light flickers or is dim.	Batteries are low or nearing depletion.	Replace all 4 AAA batteries with new ones.
Mirror head does not rotate smoothly.	Accumulation of dust or debris in the swivel mechanism.	Gently clean around the swivel points with a soft, dry cloth. Avoid lubricants.

SPECIFICATIONS

- **Model:** LVAN
- **Magnification:** 8X / 1X
- **Light Source:** LED (6400K Soft White)
- **Power Source:** 4 x AAA Batteries (not included)
- **Product Dimensions:** Approximately 12.5" (Height) x 7.75" (Mirror Head Width) x 4.5" (Base Diameter)
- **Reflective Surface Diameter:** Approximately 5.25"
- **Material:** Metal frame and base
- **Color:** Chrome (as per current model)
- **Item Weight:** 1.83 pounds
