# brotect Matte Screen Protector for SilverCrest Monsieur Cuisine Connect - Instruction Manual

Brand: brotect | Model: 1933452

## PRODUCT OVERVIEW

---

The brotect Matte Screen Protector is designed to provide optimal protection and enhanced usability for your SilverCrest Monsieur Cuisine Connect device. This 2-pack includes anti-glare screen protectors that minimize reflections, protect against scratches, and resist fingerprints, ensuring a clear and clean display.

## INSTALLATION GUIDE

---

Follow these steps carefully for a bubble-free installation of your brotect Matte Screen Protector. It is recommended to perform the installation in a dust-free environment, such as a bathroom after a hot shower.

1. **Step 1: Clean the Screen.** Use a microfiber cloth to thoroughly clean the device screen, removing all dust, dirt, and fingerprints. Ensure the screen is completely dry before proceeding.
2. **Step 2: Partially Peel.** Carefully peel off about half of the protective film from the screen protector's adhesive side. Avoid touching the adhesive surface.
3. **Step 3: Align and Apply.** Align the exposed adhesive part of the screen protector with the top edge of your device's screen. Once aligned, slowly lower the protector onto the screen, using a credit card or a similar flat object to smooth it down and push out any air bubbles as you go. Gradually peel off the rest of the protective film while continuing to smooth.
4. **Step 4: Remove Remaining Bubbles.** Use the credit card to gently push any remaining air bubbles towards the edges of the screen until they are gone. Small bubbles may disappear on their own within 24-48 hours.

# BROTECT

Screen Protector

Instructions in various languages can be found inside.

Anbringungsanleitung

Instructions

1.

Nutze zur Montage einen staubarmen Ort (z.B. Badezimmer) und reinige das Display gründlich von Staub und Verschmutzungen.

Before assembling, locate a dust free area (e.g. bathroom) and carefully remove any dust or dirt from the display.

2.

Löse das Trägermaterial zur Hälfte von der Displayschutzfolie ab und setze die Displayschutzfolie an einer Seite auf dem Display an. Die Displayschutzfolie sollte in aufgezogenem Zustand mittig auf dem Display ausgerichtet sein.

Remove half of the thin cover film of the screen protector and align the screen protector on one side with your screen. Make sure that the screen protector will be centered on the middle of your screen.

3.

Streiche die Displayschutzfolie leicht mittels einer mit einem weichen Tuch umwickelten Kreditkarte von einer Seite zur anderen auf das Display. Ziehe dabei gleichzeitig den Rest des Trägermaterials ab.

Cover a credit card with a soft cloth and carefully slide over the screen protector from one side to the other on your screen, enabling you to remove the rest of the thin cover film.

4.

Eventuell vorhandene Luftbläschen herausstreichen - fertig!

Smooth out any remaining air bubbles with your credit card. It's that easy!

## **OPERATING AND USAGE**

The protect Matte Screen Protector is designed to enhance your device's screen visibility and protection

without compromising functionality.

- **Anti-Glare Functionality:** The matte finish significantly reduces reflections from light sources, including sunlight and indoor lighting, making your screen easier to view in various conditions.
- **Touch Sensitivity:** The protector is engineered to maintain the original touch sensitivity of your SilverCrest Monsieur Cuisine Connect's screen, ensuring smooth and accurate interactions.
- **Anti-Fingerprint Coating:** An oleophobic coating resists fingerprints and smudges, keeping your screen cleaner and requiring less frequent wiping.

## MAINTENANCE AND CARE

---

To ensure the longevity and clarity of your brotect Matte Screen Protector, follow these simple maintenance guidelines:

- **Cleaning:** Use a soft, lint-free microfiber cloth to gently wipe the screen protector. For stubborn smudges, slightly dampen the cloth with water or a screen-safe cleaning solution. Avoid using harsh chemicals, abrasive materials, or paper towels, as these can damage the coating or scratch the protector.
- **Avoid Sharp Objects:** While the protector offers scratch resistance, avoid direct contact with sharp objects like keys or knives to prevent damage.

## TROUBLESHOOTING

---

Here are solutions to common issues you might encounter:

- **Air Bubbles After Installation:**

Small bubbles often disappear within 24-48 hours as the adhesive fully settles. For larger bubbles, gently lift the nearest edge of the protector and re-apply, using a credit card to push the air out as you smooth it down. Ensure no dust particles are trapped underneath.

- **Dust Particles Trapped Underneath:**

If dust is causing bubbles, carefully lift the protector near the dust particle. Use a piece of adhesive tape to gently dab the dust off the adhesive side of the protector and the device screen. Then, re-apply the protector as per the installation steps.

- **Fingerprints or Smudges:**

Despite the anti-fingerprint coating, some smudges may occur. Clean the screen protector regularly with a soft, lint-free microfiber cloth. For persistent marks, a slightly damp cloth (with water) can be used.
