# Kinto Day Off Tumbler Instruction Manual

MODEL: 21091.0

## Product Overview

---

The Kinto Day Off Tumbler is designed for individuals seeking relaxation and an active lifestyle. Its vacuum double-walled construction ensures your beverages maintain their temperature and flavor for extended periods. The tumbler features an easy-grip rounded handle, making it convenient for carrying during walks or long trips.

## Setup and Initial Use

---

1. **Unpacking:** Carefully remove all components from the packaging. Ensure all parts are present: tumbler body, lid, and silicone gaskets.
2. **Initial Cleaning:** Before first use, wash all parts thoroughly with warm water and mild dish soap. Rinse completely and allow to air dry.
3. **Gasket Installation:** Ensure the silicone gaskets are correctly installed. The larger gasket fits around the drinking spout, and the smaller gasket fits inside the top lid. The side with the slit should face towards the container. This is crucial for preventing leaks.

## 商品について

シリコンパッキンを正しい向きに装着することで飲み物の漏れを防ぐことができます。

大きいパッキンが飲み口のもの、小さいパッキンが上蓋のものとなります。どちらのパッキンも、「切れ込みのある面」が容器側に来るように装着してください。

### Operating Instructions

- Filling:** Fill the tumbler with your desired beverage. Do not overfill; leave a small space from the top to allow for the lid.
- Securing the Lid:** Screw the lid on tightly. Ensure it is aligned properly to prevent leaks. The design allows for comfortable drinking from any angle (360 degrees) without protrusions.
- Temperature Retention:** The vacuum double-walled construction provides excellent insulation. For best results with hot beverages, pre-heat the tumbler with hot water for a few minutes before filling. For cold beverages, pre-chill with cold water.

## 持ち運びしやすい

握りやすく柔らかな形状のハンドルが心地よく手にフィットして、持ち運びがしやすい。  
散歩や遠出に、いつでも持ち歩きたくなります。

## Maintenance and Care

---

- **Daily Cleaning:** After each use, disassemble the lid and gaskets. Wash all parts with warm water and mild dish soap. Use a soft brush for thorough cleaning if necessary.
- **Drying:** Ensure all parts are completely dry before reassembling and storing to prevent odors or mold.
- **Avoid Harsh Cleaners:** Do not use abrasive cleaners, bleach, or chlorine-based products, as these can damage the stainless steel and coating.
- **Dishwasher Safety:** The tumbler is not suitable for microwave, oven, or dishwasher use. Hand washing is recommended to preserve the finish and integrity of the materials.
- **Storage:** Store the tumbler with the lid slightly ajar to allow air circulation and prevent odors.

## やさしい口当たり

飲み口はネジなどの突起がなく、やさしい口当たり。  
360度どこからでも飲めるよう設計されています。  
グラスやマグのような、自然な飲み心地です。

## Troubleshooting

---

- **Leakage:**

If the tumbler leaks, ensure the lid is screwed on tightly and correctly aligned. Check that both silicone gaskets are properly seated in their respective grooves and are not twisted or damaged. Refer to the "Setup and Initial Use" section for correct gasket installation.

- **Poor Temperature Retention:**

If beverages do not stay hot or cold for the expected duration, ensure the lid is securely closed. Verify that the gaskets are intact and properly installed, as a compromised seal can affect insulation. Pre-heating or pre-chilling the tumbler before filling can also improve performance.

- **Unpleasant Odor:**

If an odor develops, thoroughly clean all parts, especially the gaskets, with warm soapy water. A solution of baking soda and water can help neutralize persistent odors. Ensure all parts are completely dry before storage.

## Specifications

---

<b>Model Number</b>	21091.0
<b>Capacity</b>	16.9 fl oz (500 ml)
<b>Dimensions</b>	φ2.9 x H8.9 inches (74 x 226 mm)
<b>Material</b>	Stainless Steel (powder coated), Polypropylene, Silicone
<b>Heat Retention</b>	Over 148°F (69°C) for 6 hours
<b>Cold Retention</b>	Less than 15.4°F (7°C) for 6 hours
<b>Country of Origin</b>	China
