## MAINTENANCE

To maintain the brushed gold finish and optimal performance of your Moen Voss faucet, regular cleaning is recommended. Use a soft, damp cloth and mild soap. Avoid abrasive cleaners, harsh chemicals, or scouring pads, as these can damage the finish. For hard water spots, a solution of equal parts white vinegar and water can be applied with a soft cloth, then rinsed thoroughly and dried. The LifeShine® finish is designed to resist tarnishing, corroding, or flaking, ensuring lasting beauty.
