3. SETUP INSTRUCTIONS

3.1 Connecting to PC (Separate Audio/Mic Jacks)

1. Connect the 3.5mm audio cable from the headset to the PC splitter cable.

2. Plug the green connector of the PC splitter cable into your PC's headphone jack (usually green).
3. Plug the pink connector of the PC splitter cable into your PC's microphone jack (usually pink).
4. Ensure your PC's audio settings are configured to use the headset as the default playback and recording device.

3.2 Connecting to PC (Single Combined Jack), Xbox One, PS4, Nintendo Switch, Mobile Devices

1. Connect the 3.5mm audio cable directly from the headset to the single 3.5mm jack on your device (e.g., controller, laptop, mobile phone).
2. For Xbox One, ensure your controller has a 3.5mm headset jack. An Xbox One Headset Adapter (sold separately) may be required for older controllers.

4. OPERATING INSTRUCTIONS

4.1 Volume Control

Adjust the master volume using the volume dial located on the in-line audio controller. Rotate the dial upwards to increase volume and downwards to decrease volume.

4.2 Microphone Mute

The TruSpeak microphone can be muted using the switch on the in-line audio controller. Flip the switch to mute or unmute the microphone. Ensure the microphone is fully inserted into the headset jack for proper function.

4.3 Comfort Adjustment

- **Headband Adjustment:** Slide the earcups up or down along the metal headband to find a comfortable fit.
- **Aerofit Ear Cushions:** The magnetic memory foam ear cushions with athletic fabric and synthetic leather are designed for extended comfort and noise isolation. They can be removed for cleaning or replacement.
- **ProSpecs Glasses Relief System:** For glasses wearers, the ear cushions feature a small channel to alleviate pressure. Gently pull the ear cushion to expose the channel and adjust for comfort.

5. MAINTENANCE

- **Cleaning:** Use a soft, dry cloth to wipe down the headset. For ear cushions, gently wipe with a damp cloth and allow to air dry completely before reattaching. Do not use harsh chemicals or abrasive cleaners.
- **Storage:** Store the headset in a cool, dry place away from direct sunlight and extreme temperatures. Avoid placing heavy objects on the headset to prevent damage.
- **Cable Care:** Avoid sharp bends or kinks in the audio cables. Always grasp the plug, not the cable, when connecting or disconnecting.

6. TROUBLESHOOTING

6.1 No Audio / Low Volume

- Ensure the 3.5mm audio cable is fully inserted into both the headset and the device.
- Check the volume dial on the in-line controller and ensure it is turned up.
- Verify the audio output settings on your PC or console. Set the headset as the default playback device.
- Test the headset with another device to rule out a device-specific issue.

6.2 Microphone Not Working

- Confirm the microphone mute switch on the in-line controller is in the "unmute" position.
- Ensure the removable TruSpeak microphone is securely inserted into its port on the headset.
- Check the microphone input settings on your PC or console. Set the headset as the default recording device.
- Test the microphone with another application or device.

6.3 Discomfort During Use

- Adjust the headband for a looser or tighter fit.
- Utilize the ProSpecs Glasses Relief System by gently pulling the ear cushions to create more space for glasses.
- Take short breaks during long gaming sessions to relieve pressure.
