YunYiYi 105x85mm

YunYiYi Replacement Earpads User Manual

Model: 105x85mm

PRODUCT OVERVIEW

These YunYiYi replacement earpads are designed to refresh your Koss QZ Pro 3AA, UR40, or UR29 headphones. Crafted from high-quality leather and soft foam, they provide a comfortable fit and are an ideal replacement for worn or lost earpads.

PACKAGE CONTENTS

- 1 Pair of YunYiYi Replacement Earpads
- (Headphones are not included)

SPECIFICATIONS

Feature	Detail
Brand	YunYiYi
Model	105x85mm
Material	High-quality leather and soft foam
Color	Black
Compatibility	Koss QZ Pro 3AA, UR40, UR29 Headphones
UPC	680613250469

SETUP AND INSTALLATION

Replacing your headphone earpads is a straightforward process. Follow these steps carefully to ensure a proper fit and extend the life of your headphones.

- Remove Old Earpads:** Gently peel off the old earpads from your headphones. They might be held in place by an elastic band or a thin rim. Take care not to damage the headphone's speaker unit or any internal wiring.
- Prepare New Earpads:** Take one new YunYiYi replacement earpad. Locate the seam or the elastic edge on the back of the earpad.
- Align and Stretch:** Align the elastic edge of the new earpad with the rim of the headphone's ear cup. Start by hooking a small section of the earpad's edge onto the rim.
- Work Around the Rim:** Gradually work your way around the ear cup, gently stretching the earpad's elastic edge over the rim. Apply even pressure to ensure the earpad is seated securely and smoothly all the way around.
- Adjust for Fit:** Once the earpad is fully installed, gently adjust it to ensure it sits flush and evenly on the ear cup. There should be no gaps or loose sections.
- Repeat for Second Earpad:** Follow the same steps for the second earpad.

OPERATING INSTRUCTIONS

These earpads are passive components designed to enhance the comfort and sound isolation of your headphones. Once installed, no further operational steps are required. Simply use your headphones as normal.

MAINTENANCE AND CARE

Proper care will prolong the life of your YunYiYi replacement earpads.

- **Cleaning:** Wipe the earpads periodically with a soft, slightly damp cloth. For stubborn dirt, a mild soap solution can be used, but ensure the cloth is only damp, not wet. Avoid harsh chemicals or abrasive cleaners.
- **Drying:** Allow the earpads to air dry completely before using your headphones again. Do not expose them to direct sunlight or high heat.
- **Storage:** When not in use, store your headphones in a clean, dry place away from extreme temperatures and direct sunlight.
- **Avoid Punctures:** Be careful not to puncture or tear the leather-like material, as this can compromise comfort and durability.

TROUBLESHOOTING

If you encounter any issues with your replacement earpads, consider the following:

- **Earpad doesn't fit:** Ensure you have the correct model of headphones (Koss QZ Pro 3AA, UR40, or UR29). Re-attempt installation, ensuring the elastic band is evenly stretched around the headphone's rim. It may require gentle but firm stretching.
- **Earpad feels loose:** Check if the entire elastic edge is securely tucked under the headphone's rim. Press firmly around the circumference to ensure a snug fit.
- **Discomfort after installation:** Allow a short period for the foam to conform to your ears. If discomfort persists, re-check the installation to ensure no part of the earpad is creased or improperly seated.

WARRANTY AND SUPPORT

For information regarding warranty, returns, or further support, please refer to the seller's policy on the platform where the product was purchased.

For general inquiries about YunYiYi products, you may visit the brand's official presence or contact their customer service through the retailer.

ASK A QUESTION ABOUT THIS MANUAL

Ask about setup, troubleshooting, compatibility, parts, safety, or missing instructions. Manuals+ will review the question and use this page's manual context to help answer it.
