The DHP Tommy Full Metal Loft Bed is designed to maximize space in any room, offering a modern industrial aesthetic. Its sturdy metal frame provides a durable and secure sleeping solution, with ample under-bed clearance for various uses.

SAFETY INFORMATION

WARNING: Failure to follow these safety guidelines may result in serious injury.

- Always follow assembly instructions carefully to prevent instability.
- Do not load more than 300 pounds on the upper bunk.
- Use caution when climbing the ladder.
- Keep the area around the bed clear to prevent falls.
- Ensure all connections are securely tightened before use and periodically thereafter.
- The top bunk is not suitable for children under 6 years of age.
- Use only mattresses that are 74-75 inches long and 53-54 inches wide, with a maximum thickness of 6 inches.
- Always use the guardrails provided.

Child Friendly

FULL-LENGTH GUARDRAILS

PACKAGE CONTENTS

Please verify that all components are present before beginning assembly. If any parts are missing or damaged, please contact DHP Customer Support.

- Metal Frame Components (various beams, posts, and rails)
- Ladder
- Guardrails
- Metal Slats
- Hardware Pack (screws, bolts, Allen wrench)
- Instruction Manual

SETUP AND ASSEMBLY

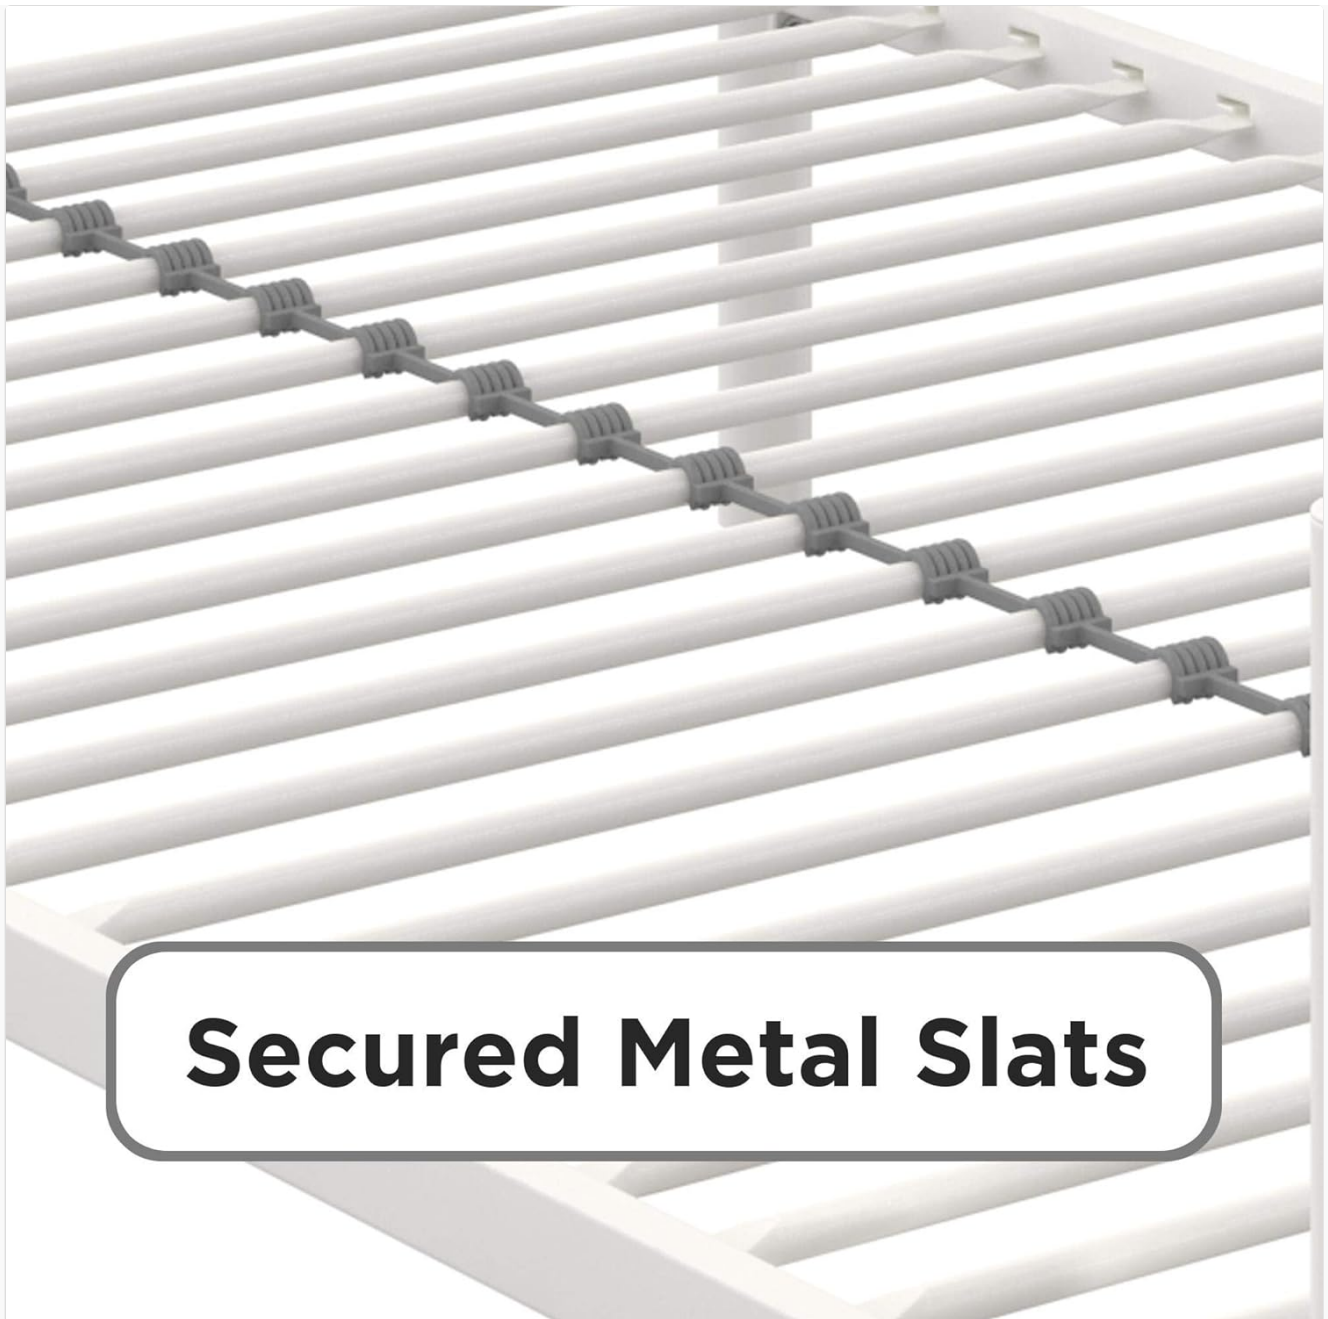

Assembly is required for this product. It is recommended to have two adults for assembly. Please follow the step-by-

step instructions provided in the separate assembly guide included in your package. Ensure all bolts and screws are fully tightened to ensure stability.

1. Unpack all components and lay them out on a clean, soft surface to prevent scratches.
2. Identify all parts using the provided parts list in your assembly guide.
3. Begin by assembling the main frame according to the diagrams.
4. Attach the ladder and guardrails securely.
5. Install the metal slats onto the bed frame. Ensure they are properly secured to provide adequate mattress support.
6. Double-check all connections to ensure they are tight and secure.

Secured Metal Slats

Image: A detailed view of the secured metal slats, demonstrating the mattress support system.

OPERATING INSTRUCTIONS

- **Mattress Placement:** Place a full-size mattress (sold separately) on the secured metal slats. Ensure the mattress fits snugly within the frame and does not exceed the maximum recommended thickness of 6 inches to maintain guardrail effectiveness.
- **Ladder Use:** Always use the integrated ladder for safe access to and from the upper bunk. Face the ladder when climbing up or down.
- **Under-Bed Space:** The loft bed provides approximately 59 inches of clearance underneath, which can be utilized for a desk, storage, or a play area.

MAINTENANCE

- **Cleaning:** Wipe the metal frame with a soft, damp cloth. Avoid abrasive cleaners or harsh chemicals that could damage the finish.
- **Periodic Checks:** Regularly inspect all bolts, screws, and connections to ensure they remain tight. Re-tighten

as necessary to maintain the bed's stability and safety.

- **Weight Limit:** Adhere strictly to the 300 lb. weight limit for the upper bunk.

TROUBLESHOOTING

If you encounter any issues with your DHP Tommy Full Metal Loft Bed, please refer to the following common solutions:

- **Wobbling or Instability:**

This is often caused by loose connections. Carefully re-tighten all bolts and screws throughout the entire frame. Ensure the bed is placed on a level surface. If the issue persists, disassemble and reassemble, paying close attention to each connection point.

- **Squeaking Noises:**

Squeaking can also be due to loose hardware. Systematically tighten all bolts and screws. Applying a small amount of lubricant (e.g., silicone spray) to metal-on-metal contact points during assembly or re-tightening can help reduce noise.

- **Parts Not Aligning or Screws Not Going All the Way In:**

Ensure you are using the correct hardware for each step as indicated in the assembly guide. Sometimes, slight adjustments to the frame's position are needed to align holes. Do not force screws; if a part seems misaligned or defective, contact customer support for assistance.

- **Missing or Damaged Parts:**

Before assembly, verify all parts against the included list. If any parts are missing or damaged upon arrival, do not proceed with assembly. Contact DHP Customer Support immediately for replacement parts.

SPECIFICATIONS

Feature	Detail
Brand	DHP
Model Number	5472396
Size	Full
Product Dimensions	78"L x 56.5"W x 72.5"H
