Bose Soundbar 700

Bose Smart Soundbar 700 Instruction Manual

Model: Soundbar 700 | Brand: Bose

INTRODUCTION

The Bose Smart Soundbar 700 delivers sophisticated design and exceptional sound. Featuring a stylish design with a metal grille and high-quality glass top finish, it offers immersive, detailed, and clear sound, from dramatic dialogue to deep bass in music. Enjoy superior audio quality for all your entertainment.

This soundbar includes Bose's exclusive ADAPTiQ audio room calibration, which optimizes sound based on your room's characteristics, such as wall materials, to provide the best acoustic environment. With built-in Amazon Alexa, you can enjoy music streaming services, check news, and weather forecasts simply by speaking to Alexa. The eight-microphone array inside the grille ensures excellent voice pickup, even when music is playing loudly.

It supports Bluetooth and Wi-Fi connectivity, allowing you to play your favorite music from various devices anywhere. HDMI™ ARC compatibility ensures compatibility with the latest technology. You can control your entertainment with the included Bose Soundbar Universal Remote or manage music through the Bose Music app. Future software updates will provide support for the latest features. For even more powerful bass and full surround sound, you can combine it with optional Bose Bass Module 700 and Bose Surround Speakers. The Soundbar 700 can also link with other new Bose smart speakers and soundbars, allowing you to enjoy music throughout your home.

WHAT'S IN THE BOX

- Bose Smart Soundbar 700
- Bose Soundbar Universal Remote
- ADAPTiQ Headset
- HDMI Cable
- Optical Cable
- Power Cable
- AAA Batteries (4)
- Cleaning Cloth

SETUP INSTRUCTIONS

Initial Connection

1. **Connect to TV:** Connect the soundbar to your TV using the provided HDMI cable (HDMI ARC port recommended) or optical cable.
2. **Power On:** Connect the power cable to the soundbar and then to a power outlet.
3. **Download Bose Music App:** Download the Bose Music app on your mobile device from your app store.

4. **Follow In-App Setup:** Open the Bose Music app and follow the on-screen instructions to connect the soundbar to your Wi-Fi network and complete the initial setup.

ADAPTiQ Audio Room Calibration

ADAPTiQ is performed as part of the setup process using the Bose Music app. If you skipped it during initial setup or significantly changed your room layout, you can re-run it:

1. Open the Bose Music app.
2. Follow the app's prompts to perform ADAPTiQ calibration. Use the included ADAPTiQ headset for this process.

OPERATING INSTRUCTIONS

Using Amazon Alexa

The soundbar has Amazon Alexa built-in. Simply speak to Alexa to control music, get news, weather, and manage smart home devices. The eight-microphone array ensures your voice is heard clearly even during loud playback.

Bluetooth Connectivity

To connect a Bluetooth device:

1. Press and hold the Bluetooth button on the remote control for a few seconds until the light bar on the soundbar blinks.

2. Ensure your mobile device is in pairing mode.
3. Select "Bose Smart Soundbar 700" from the list of available devices on your mobile device.
4. Alternatively, you can pair your mobile device and soundbar using the Bose Music app.

Wi-Fi and Streaming

The soundbar supports Wi-Fi for streaming music services like Spotify and Amazon Music. Manage these services and playback through the Bose Music app.

Bose Music App Control

The Bose Music app allows you to customize settings, switch between music streaming services, and access your favorite music with one-touch presets.

Universal Remote Control

The included Bose Soundbar Universal Remote can control other devices connected to your entertainment system. Its preset buttons allow one-touch access to your favorite music.

Maintenance

Keep your soundbar clean by gently wiping it with the provided cleaning cloth. Avoid using liquid cleaners or solvents. Ensure proper ventilation around the device.

Troubleshooting

If you get stuck during setup:

Try resetting the soundbar. All settings such as sound source, volume, Wi-Fi network, and ADAPTiQ automatic sound field correction will be erased from the soundbar, returning it to its factory default state.

1. Press and hold the "Power button" and "Track Forward button" on the included remote control simultaneously for 5 seconds until the light bar blinks white twice and then gradually turns off. When the reset is complete, the light bar will illuminate orange.
2. To restore the soundbar's network and audio settings, follow these steps:
 - Launch the Bose Music app on your mobile device and add the soundbar to your network.
 - Perform ADAPTiQ automatic sound field correction using the Bose Music app.

Frequently Asked Questions (FAQ)

• Can I wall-mount the Bose Smart Soundbar 700?

Yes. You can wall-mount the soundbar using the optional Bose Soundbar Wall Bracket.

• How do I run the ADAPTiQ automatic sound field correction system on the Bose Smart Soundbar 700?

ADAPTiQ is performed as part of the setup process using the Bose Music app. When you download the Bose Music app and begin the setup process, you will be prompted to run ADAPTiQ. If you skipped ADAPTiQ during the initial setup or significantly changed your room layout after completing ADAPTiQ, open the app and run ADAPTiQ again. Follow the app's messages to start ADAPTiQ.

- **How do I connect a Bluetooth® device to the Bose Smart Soundbar 700?**

Press and hold the Bluetooth button on the remote control for a few seconds (the light on the Bose Smart Soundbar 700 remote will flash). Ensure your mobile device is in pairing mode and select "Bose Smart Soundbar 700" from the list. You can also pair your mobile device and soundbar using the Bose Music app.
