## 6. TROUBLESHOOTING

- **Rack feels unstable or wobbly:** Ensure all assembly connections are fully secured. Double-check that poles are firmly inserted into their slots and any locking mechanisms are engaged. Distribute clothes evenly to balance the load.
- **Parts detach easily:** During assembly, ensure each component is pushed firmly into place. If parts repeatedly detach, verify that they are correctly aligned and not damaged.
- **Difficulty folding/unfolding wings:** Check for any obstructions or misalignments. Ensure the mechanisms are clean and free from debris. Do not force the parts.
- **Limited drying space:** Ensure all six foldable wings are fully extended. Utilize the top hanger arms for additional capacity.
