1. **Unpack and Identify Parts:** Carefully remove all components from the packaging. Lay them out on a soft, clean surface to prevent damage. Identify each part by comparing it with the parts list in the included assembly manual (if a separate one is provided).
2. **Assemble the Frame:** Begin by connecting the X-shaped metal frame components. Ensure all pre-drilled holes align. Use the provided screws and an appropriate screwdriver (not included) to secure the frame. Do not overtighten initially.
