Karat C-KDL142-PET

Karat C-KDL142-PET Dome Lids Instruction Manual

Model: C-KDL142-PET

1. PRODUCT OVERVIEW

The Karat C-KDL142-PET dome lids are designed for use with Karat 24-32 oz PET food containers. These lids are constructed from clear Polyethylene Terephthalate (PET) and feature a dome shape without an opening, making them suitable for containing various food items, including those with toppings like frozen yogurt and ice cream.

Image 1: Karat C-KDL142-PET Dome Lids. These clear, dome-shaped lids are designed to fit specific Karat food containers, providing a secure seal for various food items.

2. INTENDED USE

These dome lids are intended for covering 24-32 oz Karat PET food containers to secure contents during transport or storage. They are ideal for items such as frozen desserts, salads, and other food products that benefit from a clear, domed cover without an opening.

3. SETUP AND PLACEMENT

1. **Container Compatibility:** Ensure you are using Karat 24-32 oz PET food containers. These lids are specifically designed for a secure fit with these containers.
2. **Lid Placement:** Align the lid over the rim of the container. Apply gentle, even pressure around the edge of the lid until it snaps securely into place.
3. **Verification:** After placement, gently lift the container by the lid to ensure a tight seal. If the lid detaches easily, re-apply pressure to secure it.

4. CARE AND MAINTENANCE

- **Cleaning:** These lids are designed for easy cleaning. Wash them by hand using mild soap and water.
- **Dishwasher Use:** These lids are **not** dishwasher safe. Washing in a dishwasher may cause warping or damage.
- **Microwave Use:** These lids are **not** microwave safe. Do not use them in a microwave oven.
- **Storage:** Store lids in a cool, dry place away from direct sunlight to maintain their structural integrity and prevent yellowing over time.

5. TROUBLESHOOTING

- **Lid Cracking:** Applying excessive pressure during placement or removal can cause the plastic to crack. Always use gentle, even pressure. Avoid dropping or subjecting the lids to impact.
- **Poor Seal:** If the lid does not seal properly, ensure it is correctly aligned with the container rim and that the container itself is not damaged or deformed.

6. SPECIFICATIONS

Feature	Detail
Model Number	C-KDL142-PET
Material	PET (Polyethylene Terephthalate)
Color	Clear
Shape	Round
Diameter	142mm
Compatibility	Karat 24-32 oz PET Food Containers
Pieces per Sleeve	50
Case Quantity	600 (12 sleeves)
