RealTruck RC223E

RealTruck Roll-N-Lock E-Series Retractable Truck Bed Tonneau Cover User Manual

Model: RC223E | Brand: RealTruck

INTRODUCTION

The RealTruck Roll-N-Lock E-Series Retractable Truck Bed Tonneau Cover is an electric-powered, retractable bed cover designed for convenience and security. It features a motor operated by a remote key fob, allowing for instantaneous response and automatic stopping if objects are detected. Constructed from powder-coated, all-aluminum, it offers durability and protection. The patented hinge technology and four-point locking system enhance security against theft. This cover retracts into a compact aluminum housing, preserving valuable cargo space. This manual provides essential information for the proper setup, operation, and maintenance of your E-Series Tonneau Cover.

PRODUCT OVERVIEW

The E-Series Tonneau Cover fully closed, providing a sleek and secure appearance for your truck bed.

E-SERIES

Illustrates the E-Series cover in both its closed and fully retracted positions, showcasing cargo access.

The E-Series Tonneau Cover integrated seamlessly with a truck, ready for any adventure.

SETUP AND INSTALLATION

The E-Series Tonneau Cover is designed for vehicle-specific fitment, compatible with 2019 - 2025 Chevy/GMC Silverado/Sierra models, including those with MultiPro/Flex tailgates (excluding Carbon Pro Beds) and 5' 10" (69.9") beds. Installation requires

Careful attention to detail to ensure proper function and security.

What's in the Box:

- E-Series Retractable Bed Cover Assembly
- Mounting Hardware Kit
- Detailed Installation Instructions (refer to the separate printed manual for step-by-step guidance)

General Installation Notes:

1. **Preparation:** Ensure the truck bed rails are clean and free of debris.
2. **Rail Installation:** Secure the side rails to the truck bed using the provided clamps and hardware. Ensure they are level and properly aligned.
3. **Canister Placement:** Position the cover canister at the bulkhead of the truck bed.
4. **Cover Assembly:** Carefully slide the cover into the rails and connect it to the canister mechanism.
5. **Electrical Connection:** Connect the cover's motor to your truck's battery following the specific wiring instructions in the detailed manual.
6. **Testing:** After installation, test the cover's retraction and locking functions using the remote key fob.

Important: Always refer to the comprehensive printed installation manual included with your product for detailed, step-by-step instructions and safety warnings specific to your vehicle model. Professional installation is recommended.

OPERATING INSTRUCTIONS

The E-Series Tonneau Cover is designed for effortless operation via a remote key fob, offering convenience and security at your fingertips.

Using the Remote Key Fob:

- **To Open/Retract:** Press and hold the "Open" button on your remote key fob. The cover will smoothly retract into its canister. Release the button to stop the cover at any desired position.
- **To Close/Extend:** Press and hold the "Close" button on your remote key fob. The cover will extend across the truck bed. Release the button to stop the cover at any desired position.
- **Automatic Stop Feature:** The E-Series cover is equipped with an intuitive sensor that automatically stops the cover's movement if it detects an obstruction. This enhances safety and prevents damage.
- **Multiple Locking Positions:** The cover can be securely locked in place at five different positions along the truck bed rails, providing flexible cargo management.

MULTIPLE
LOCKING POSITIONS

The cover partially open, demonstrating access to cargo while maintaining security.

Key features: Easy Electric Operation, Smart Protection, and Multiple Locking Positions.

MAINTENANCE AND CARE

Proper maintenance ensures the longevity and optimal performance of your E-Series Tonneau Cover. The powder-coated, all-aluminum construction is designed for durability in harsh environments, but regular care is still recommended.

- **Cleaning:** Wash the cover surface regularly with mild soap and water. Avoid abrasive cleaners or harsh chemicals that could damage the powder coat finish. Rinse thoroughly and dry with a soft cloth.
- **Rail Maintenance:** Periodically inspect the side rails for any debris or obstructions that might hinder the cover's movement. Clean the tracks as needed.
- **Lubrication:** Consult your detailed installation manual for specific lubrication recommendations for the moving parts and hinges.
- **Battery Connection:** Ensure the electrical connection to your truck's battery remains secure and free of corrosion.
- **Inspection:** Regularly check all mounting hardware for tightness and ensure the cover operates smoothly.

Note: For specific cleaning products or maintenance procedures, refer to the full product manual or contact customer support.

TROUBLESHOOTING

If you encounter any issues with your E-Series Tonneau Cover, please review the following common troubleshooting tips. For more complex problems, contact customer support.

- **Cover Not Moving:**
 - Check the remote key fob battery.
 - Verify the electrical connection to the truck's battery is secure.
 - Inspect the tracks for any obstructions (debris, ice, etc.).

• **Cover Stops Mid-Movement:**

- This may be due to the automatic stop feature detecting an obstruction. Clear the path and try again.
- Ensure the truck bed is clear of items that could interfere with the cover's movement.

• **Unusual Noises:**

- Inspect the rails and canister for any loose components or debris.
- Ensure the cover is properly aligned within the tracks.

If these steps do not resolve the issue, please contact RealTruck customer support for further assistance.
