Roll-N-Lock BT223A

Roll-N-Lock A-Series Retractable Truck Bed Tonneau Cover

MODEL: BT223A

Brand: Roll-N-Lock

INTRODUCTION

This manual provides detailed instructions for the installation, operation, and maintenance of your Roll-N-Lock A-Series Retractable Truck Bed Tonneau Cover, model BT223A. The A-Series cover is designed to offer a secure and convenient solution for your truck bed, featuring a low-profile, retractable aluminum design. Please read these instructions thoroughly before proceeding with installation or operation to ensure proper function and longevity of your product.

PRODUCT OVERVIEW

The Roll-N-Lock A-Series is a retractable tonneau cover engineered for durability and ease of use. Its design focuses on maximizing cargo space while providing robust protection for your truck bed contents.

- **Unmatched Protection:** Features a powder-coated, all-aluminum construction for scratch and UV resistance. A contoured hinge design ensures frictionless rotation and secure operation.
- **Maximized Storage:** Designed with the most compact canister housing among retractable covers, measuring only 7 ¼" deep. This preserves valuable truck bed cargo space.
- **Effortless Operation:** Equipped with a torsion spring enclosed in a 3" aluminum casing and a patented contoured hinge design for smooth, secure movement.
- **Enhanced Security:** Incorporates patented hinge technology for an impenetrable seam and a four-point locking system that secures the cover instantly and simultaneously with the tailgate.

COMPATIBILITY

This Roll-N-Lock A-Series Retractable Truck Bed Tonneau Cover (Model BT223A) is specifically designed to fit:

- **Vehicle Models:** 2019 - 2025 Chevy/GMC Silverado/Sierra
- **Tailgate Compatibility:** Works with MultiPro/Flex tailgate (excluding Carbon Pro Bed models)
- **Bed Size:** 5' 10" Bed (69.9")

WHAT'S IN THE BOX

Upon unpacking, please verify that all components listed below are present:

- Bed Cover Assembly
- Hardware Kit
- Instruction Manual (this document)

SETUP AND INSTALLATION

The A-Series truck bed cover features a patented clamp-on track design for straightforward installation. While specific step-by-step instructions are provided in the included hardware kit, the general process involves:

1. Positioning the canister assembly at the front of the truck bed.
2. Attaching the side rails to the truck bed using the provided clamps, ensuring proper alignment.
3. Securing the cover to the rails and making any necessary adjustments for smooth operation.
4. Installing the drainage tubes to direct water away from the truck bed.

For visual guidance, it is recommended to consult the detailed installation instructions provided with the hardware kit. Professional installation is also an option for those who prefer it.

ULTIMATE SECURITY AND CONVENIENCE

A-SERIES

OPERATION

Operating the Roll-N-Lock A-Series cover is designed for simplicity and security:

1. **Unlocking:** Use the key to unlock the cover at the tailgate. The patented four-point locking system secures the cover and tailgate simultaneously.
2. **Opening:** With the cover unlocked, turn the lever and gently pull the cover back. The torsion spring mechanism assists in smoothly retracting the cover into its compact housing. A built-in pull strap can be used for easier retraction.
3. **Locking in Position:** The cover features a patented, ratchet-style latching mechanism, allowing it to lock in place at four different open positions along the rails. This provides flexibility for cargo access.
4. **Closing:** Pull the cover forward from the canister until it fully extends to the tailgate. Ensure it latches securely.

MAINTENANCE

To ensure the longevity and optimal performance of your Roll-N-Lock A-Series Tonneau Cover, regular maintenance is recommended:

- **Cleaning:** Clean the cover surface regularly with mild soap and water. Avoid abrasive cleaners or harsh chemicals that could damage the powder-coated aluminum finish.
- **Track Maintenance:** Keep the tracks clear of debris (dirt, leaves, etc.) to ensure smooth operation. Periodically wipe down the tracks with a damp cloth.
- **Lubrication:** The internal torsion spring is protected within a 3" aluminum casing and generally requires no user lubrication. If operation becomes stiff, consult the manufacturer's specific recommendations or contact customer support.
- **UV Protection:** While the cover is UV-resistant, using a UV protectant spray designed for automotive plastics and vinyls can further extend its life and maintain its appearance.

TROUBLESHOOTING

Should you encounter any issues with your tonneau cover, consider the following general troubleshooting steps:

- **Cover not retracting/extending smoothly:** Check the tracks for any obstructions (dirt, debris, ice). Ensure the cover is properly aligned within the rails.
- **Cover not locking:** Verify that the cover is fully extended to the tailgate and properly seated. Check the

locking mechanism for any visible damage or obstructions. Ensure the tailgate is closed and latched correctly.

- **Water leakage:** Inspect the drainage tubes to ensure they are clear and properly routed. Check the seals along the rails and canister for any damage or improper seating.

If problems persist after attempting these steps, please refer to the warranty and support section for contact information.

SPECIFICATIONS

Brand	Roll-N-Lock
Model	A-Series
Item Model Number	BT223A
Style	Manual Retractable
Exterior Finish	Aluminum
Material	Aluminum
Lock Type	Tailgate
Item Weight	106 pounds
Product Dimensions	74 x 13 x 15 inches
UPC	725478199949

WARRANTY AND SUPPORT
