Souper Cubes FT-4X1-AQ-LD-2

Souper Cubes 1 Cup Silicone Soup Freezer Molds with Lids

Brand: Souper Cubes | **Model:** FT-4X1-AQ-LD-2

1. INTRODUCTION

Thank you for choosing Souper Cubes 1 Cup Silicone Soup Freezer Molds. This manual provides essential information for the safe and effective use, care, and maintenance of your new product. Designed for convenient meal preparation and food storage, these molds allow you to freeze individual portions of soups, broths, sauces, and more.

2. PRODUCT OVERVIEW

The Souper Cubes 1 Cup Silicone Freezer Molds are crafted from 100% pure platinum food-grade silicone, ensuring flexibility and durability. Each mold features a steel-reinforced rim for stability and includes a clear lid for secure storage. The individual compartments are designed to hold 1 cup (250 mL) portions, with convenient fill lines for 1/2 cup (125 mL) as well.

3. SAFETY INFORMATION

- **Food-Grade Material:** These molds are made from 100% pure platinum food-grade silicone, free from BPA, Lead, Phthalates, and PVC.
- **Temperature Limits:** The silicone molds are oven-safe up to 415°F (213°C). **Always remove the lid before placing the mold in an oven.** The lids are not oven-safe.
- **Freezer Safe:** Designed for freezing, the molds can withstand very low temperatures.
- **Microwave Safe:** The silicone molds are microwave safe. Remove the lid before microwaving.
- **Handling Hot Contents:** Exercise caution when filling molds with hot liquids or when handling molds immediately after removal from the oven or microwave. Use oven mitts if necessary.

Become a meal prepping pro.

4. SETUP

1. **Unpacking:** Carefully remove the Souper Cubes from their packaging.
2. **Initial Cleaning:** Before first use, wash the silicone molds and lids thoroughly with warm, soapy water or place them in the dishwasher. Rinse completely and allow to air dry.
3. **Inspection:** Inspect the molds for any damage. Do not use if damaged.

5. OPERATING INSTRUCTIONS

5.1. Filling the Molds

1. Place the Souper Cubes mold on a flat, stable surface, such as a baking sheet, for easy transport to the freezer.
2. Pour or spoon your desired food item (soup, broth, sauce, stew, etc.) into the individual compartments.
3. Utilize the internal fill lines for precise portioning: 1/2 cup (125 mL) or 1 cup (250 mL).
4. Avoid overfilling to prevent spillage and ensure the lid fits properly.

A lifesaver for home cooks & busy families

Always Perfect Portions!

Figure 4: Filling the Souper Cubes for perfect portions.

5.2. Freezing

1. Once filled, place the clear lid securely onto the silicone mold. The lid helps prevent freezer burn and spills.
2. Carefully transfer the mold (preferably on a baking sheet for stability) to your freezer.
3. Allow the contents to freeze completely. Freezing time will vary depending on the food item and freezer temperature.

5.3. Removing Frozen Portions

Once frozen solid, the flexible silicone allows for easy removal of individual portions.

1. Remove the mold from the freezer and take off the lid.
2. Gently push up from the bottom of each compartment to release the frozen cube. The steel-reinforced rim provides stability during this process.
3. For easier removal, you may let the mold sit at room temperature for a few minutes, or run the bottom under warm water briefly.
4. Once removed, you can store the frozen cubes in freezer bags or containers to save space and reuse the Souper Cubes mold.

5.4. Reheating

Frozen portions can be reheated using various methods:

- **Microwave:** Place a frozen cube in a microwave-safe dish and heat until warmed through.
- **Stovetop:** Place a frozen cube directly into a saucepan over low to medium heat, stirring occasionally until thawed and heated.
- **Oven:** For items like casseroles or baked goods, the silicone mold itself can be used as a baking pan (without the lid) up to 415°F (213°C). Alternatively, transfer frozen cubes to an oven-safe dish.

Ready to eat?

Oven safe
Use it as a baking pan!

Reheat how you want.

Pop it in the microwave, in a pot on the stove, or in the oven. Your call!

Figure 5: Removing frozen portions and oven-safe use.

6. MAINTENANCE AND CLEANING

- **Dishwasher Safe:** Both the silicone molds and lids are dishwasher safe. Place them on the top rack for best results.
- **Hand Washing:** Wash with warm, soapy water using a soft sponge or cloth. Rinse thoroughly and air dry.
- **Stain Removal:** While the silicone is designed to resist staining, strong pigments (e.g., tomato sauce) may leave a faint discoloration over time. This does not affect performance or safety.
- **Storage:** Store clean, dry molds and lids in a cupboard or drawer. The flexible nature of silicone allows for compact storage.

7. TROUBLESHOOTING

- **Difficulty Removing Frozen Food:** If a cube is difficult to remove, allow the mold to sit at room temperature for 5-10 minutes, or briefly run the bottom of the mold under warm water. The slight temperature change will help release the food.
- **Lid Not Sealing Properly:** Ensure the mold is not overfilled and that the rim of the mold and the lid are clean and free of food debris.
- **Ice Crystals Forming:** Ensure the lid is securely placed on the mold before freezing to minimize air exposure and prevent freezer burn or ice crystal formation.

8. SPECIFICATIONS

Feature	Detail
Brand	Souper Cubes
Model Number	FT-4X1-AQ-LD-2
ASIN	B07GSSR5V2
Color	Aqua
Material	100% Pure Platinum Food Grade Silicone
Material Type Free	BPA Free, Lead Free, Phthalate Free, PVC Free
Item Dimensions (L x W x H)	11.75 x 5.75 x 2.5 inches
Capacity per Compartment	1 cup (250 mL) with 1/2 cup (125 mL) fill line
Oven Safe Temperature	Up to 415°F (213°C) (without lid)
Dishwasher Safe	Yes
