5. Troubleshooting

5.1 Game Not Starting or Freezing

- **Check Game Card:** Ensure the game card is fully inserted into the Nintendo Switch console. Remove and reinsert it.
- **Restart Console:** Power off your Nintendo Switch completely (hold the POWER Button for three seconds, then select "Power Options" > "Restart") and then power it back on.
- **Check for Updates:** Ensure both your Nintendo Switch system software and the game software are up to date.
- **Clean Game Card:** If the game card appears dirty, gently wipe the gold contacts with a soft, dry cloth.

5.2 Performance Issues (Lag, Frame Rate Drops)

- **Close Other Software:** Ensure no other applications are running in the background on your Nintendo Switch.
- **Restart Console:** A full restart can often resolve temporary performance issues.
- **Check Storage Space:** While less common for performance, ensure your console has adequate free storage.

5.3 Save Data Corruption

If you encounter issues with corrupted save data, try the following:

- **Check Cloud Saves:** If you use Nintendo Switch Online, attempt to download a previous cloud save.
- **Re-download Software (Digital Version):** If this were a digital title, re-downloading the game might help, but for a physical cartridge, this is not applicable to the core game data.
