

ScentLok 82919

ScentLok 82919 OZ Power Bank User Manual

Model: 82919 | Brand: ScentLok

1. INTRODUCTION

The ScentLok 82919 OZ Power Bank is a versatile 2-in-1 device designed to extend the operational time of compatible OZRadial ozone generators and to charge various smart devices via a USB connection. This manual provides essential information for the safe and effective setup, operation, and maintenance of your OZ Power Bank.

2. SAFETY INFORMATION

It is critical to adhere to all safety guidelines to prevent injury or damage. Always read and understand all instructions before operating the device.

Important Safety Warning: OZ products, including this power bank when used with an OZRadial ozone generator, are only intended for use in unoccupied spaces. Do not operate in areas with humans or animals present.

- Do not expose the power bank to extreme temperatures, direct sunlight, or moisture.
- Do not disassemble, puncture, or modify the device.
- Use only the provided 21V DC power supply for charging the power bank.
- Keep out of reach of children.

3. PACKAGE CONTENTS

Verify that all items are present in your package:

- ScentLok 82919 OZ Power Bank
- 21V DC Power Supply

4. PRODUCT OVERVIEW

The ScentLok 82919 OZ Power Bank is a compact, cylindrical device, typically black or dark gray. It features a USB-A output port on its front face, clearly labeled 'OUT 5V / 2AMP' for charging external devices. The power bank also includes an input port for charging its internal battery, typically located on the side or rear, which connects to the provided 21V DC power supply.

5. SETUP

Before initial use, fully charge the ScentLok 82919 OZ Power Bank.

1. Connect the included 21V DC power supply to the power bank's charging input port.
2. Plug the power supply into a standard electrical outlet.
3. Allow the power bank to charge until the charging indicator (if present) signals a full charge. Refer to the device's indicator

lights for charging status.

6. OPERATING INSTRUCTIONS

The OZ Power Bank serves two primary functions: powering compatible OZRadial ozone generators and charging USB-powered smart devices.

6.1. Charging the Power Bank

To recharge the internal battery of the ScentLok 82919 OZ Power Bank, follow the steps outlined in the 'Setup' section (Section 5).

6.2. Using as a Power Source for OZRadial Ozone Generators

1. Ensure the OZ Power Bank is adequately charged.
2. Connect the OZ Power Bank to a compatible OZRadial 400B or Radial EZ Ozone Generator using the appropriate cable (typically included with the ozone generator).
3. The power bank will provide up to 6 extra hours of battery life for extended odor destruction cycles.

6.3. Using as a Power Source for Smart Devices

1. Ensure the OZ Power Bank is adequately charged.
2. Connect your smart device's USB charging cable to the USB-A output port (labeled 'OUT 5V / 2AMP') on the ScentLok OZ Power Bank.
3. Connect the other end of the cable to your smart device.
4. The power bank will begin charging your device.

7. MAINTENANCE

Proper maintenance ensures the longevity and optimal performance of your power bank.

- **Cleaning:** Keep the power bank clean and dry. Wipe the exterior with a soft, slightly damp cloth. Do not use harsh chemicals, abrasive cleaners, or immerse the device in water.
- **Storage:** Store the device in a cool, dry place away from direct sunlight and extreme temperatures when not in use.
- **Battery Care:** If storing for extended periods, periodically charge the power bank (e.g., every 3-6 months) to maintain battery health and prevent deep discharge.

8. TROUBLESHOOTING

Refer to the table below for common issues and their potential solutions.

Problem	Possible Cause	Solution
Power bank not charging	Power supply not connected properly; faulty electrical outlet; damaged power supply	Ensure power supply is securely connected to both the power bank and the outlet. Try a different electrical outlet. Inspect the power supply for any visible damage.
Smart device not charging from power bank	Power bank battery depleted; faulty USB cable; incompatible device	Recharge the power bank fully. Try a different, known-good USB cable. Ensure your device is compatible with 5V/2A USB charging.

Problem	Possible Cause	Solution
OZRadial ozone generator not powering on	Power bank battery depleted; incorrect connection cable; issue with the OZRadial unit itself	Recharge the power bank. Ensure the correct cable is used and securely connected between the power bank and the OZRadial. Refer to the OZRadial manual for specific troubleshooting steps.

9. SPECIFICATIONS

Technical details for the ScentLok 82919 OZ Power Bank:

Feature	Detail
Model	82919
Input Voltage	21 Volts DC (via included power supply)
USB Output	5V / 2A
Item Weight	1.01 pounds (approx. 0.46 kg)
Product Dimensions	4.65 x 4.09 x 4.06 inches (approx. 11.8 x 10.4 x 10.3 cm)
Compatible Devices	OZRadial 400B, Radial EZ Ozone Generators, USB-chargeable smart devices

10. WARRANTY INFORMATION

For information regarding the product warranty, please refer to the documentation included with your purchase or contact ScentLok customer support directly. Warranty terms and conditions may vary based on region and purchase date.

11. SUPPORT

If you require further assistance or have questions not covered in this manual, please contact ScentLok customer support. Visit the official ScentLok website for contact details and additional resources.

ASK A QUESTION ABOUT THIS MANUAL
