Igloo ICEB26SS

Igloo ICEB26SS Automatic Portable Electric Countertop Ice Maker Machine User Manual

Model: ICEB26SS | Brand: Igloo

PRODUCT OVERVIEW

The Igloo ICEB26SS Automatic Portable Electric Countertop Ice Maker Machine is designed for convenience, offering quick ice production for various needs. This compact appliance can produce up to 26 pounds of ice per day, with the first batch ready in as little as 7 minutes. It features a viewing window, a 2-pound ice basket, and an LED-lighted control panel for easy operation and monitoring of water levels and ice basket capacity. The unit allows selection between small or large ice cube sizes and includes a removable ice basket and scoop for simple serving.

WHAT'S INCLUDED

- Ice Maker Unit
- Ice Basket
- Ice Scoop

INITIAL SETUP

1. **Unpack the Unit:** Carefully remove the ice maker from its packaging. Ensure all packing materials are removed.
2. **Placement:** Place the ice maker on a flat, stable surface away from direct sunlight and heat sources. Ensure there is adequate ventilation around the unit.
3. **Initial Cleaning:** Before first use, clean the interior of the ice maker, including the water reservoir, ice basket, and ice scoop, with a mild detergent and warm water. Rinse thoroughly and wipe dry.
4. **Add Water:** Open the lid and fill the water reservoir with potable water up to the MAX fill line. Do not overfill.

The Igloo ICEB26SS Ice Maker, ready for use on a countertop.

ICE COLD BEVERAGES

SMOOTHIES & SLUSHIES

KEEP FOOD COLD

USE IN YOUR FAVORITE IGLOO COOLER

The ice maker is versatile for various applications, including chilling beverages and preserving food.

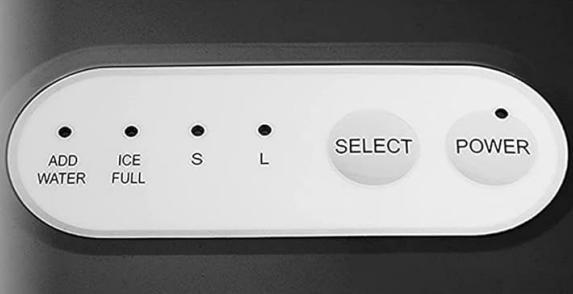

OPERATING YOUR ICE MAKER

- Power On:** Plug the unit into a grounded electrical outlet. Press the POWER button on the control panel to turn on the ice maker.
- Select Ice Size:** Press the SELECT button to choose between small (S) or large (L) ice cube sizes. The corresponding LED indicator will illuminate.
- Ice Production:** The unit will begin the ice-making cycle. Ice cubes will be ready in approximately 7 minutes, depending on the selected size and ambient temperature.
- Ice Full Indicator:** When the ice basket is full, the ICE FULL indicator light will illuminate, and the ice maker will automatically stop production. Remove ice from the basket to resume operation.
- Add Water Indicator:** If the water reservoir is low, the ADD WATER indicator light will illuminate. Add more water to the reservoir to continue ice production.

ADD WATER

SELECT ICE SIZE

**MAKE ICE IN
MINUTES**

ENJOY!

Simple steps to operate the ice maker: add water, select size, and enjoy fresh ice.

ICE BASKET CAPACITY 2 LBS

ICE SCOOP & REMOVABLE ICE BASKET

The ice basket holds up to 2 pounds of ice and is easily removable for serving with the included scoop.

CARE AND MAINTENANCE

Regular cleaning and maintenance will ensure the longevity and optimal performance of your ice maker.

- 1. Draining Water:** When not in use for an extended period, or for cleaning, drain the water from the unit. The drain plug is located at the bottom of the unit. Place the ice maker over a sink or use a container to collect the water.
- 2. Cleaning Interior:** Clean the interior components, including the water reservoir and ice basket, regularly with a solution of water and vinegar or a mild, food-safe cleaner. Rinse thoroughly to remove any residue.
- 3. Exterior Cleaning:** Wipe the exterior of the unit with a soft, damp cloth. Do not use abrasive cleaners or solvents.
- 4. Air Drying:** After cleaning, leave the lid open to allow the interior to air dry completely before storing.

TROUBLESHOOTING GUIDE

Problem	Possible Cause	Solution
---------	----------------	----------

Problem	Possible Cause	Solution
Ice maker not producing ice.	No water in reservoir; unit not powered on; ambient temperature too high.	Fill water reservoir; ensure unit is plugged in and POWER button is pressed; operate in a cooler environment.
"ADD WATER" light is on, but reservoir is full.	Water sensor issue; unit needs reset.	Unplug the unit for a few minutes, then plug it back in to reset. Ensure water level is correct.
"ICE FULL" light is on, but basket is not full.	Ice sensor obstructed or malfunctioning.	Check for ice blocking the sensor. If clear, try power cycling the unit.
Ice melts quickly after production.	Ice maker is not a freezer; ice is soft.	Transfer ice to a freezer or insulated container immediately after production for longer storage.
Unusual noise during operation.	Normal operational sounds (water pump, ice dropping); unit not level.	Ensure the unit is on a stable, level surface. If noise persists and is abnormal, contact customer support.

PRODUCT SPECIFICATIONS

Feature	Specification
Brand	Igloo
Model Name	Automatic Portable Electric Countertop
Product Dimensions	14.69"D x 9.61"W x 12.4"H
Capacity	26 Pounds (ice production per 24 hours)
Voltage	120 Volts
Refrigerant	R600a
Material	Plastic (with Stainless Steel finish)
Item Weight	20.5 pounds
