Philips Hue Smart Play Light Bar Extension User Manual

Brand: Philips Hue | Model: Hue Play (7820330U7)

INTRODUCTION

The Philips Hue Smart Play Light Bar Extension is designed to expand your existing Philips Hue smart lighting setup, offering dynamic color and white ambiance lighting. This extension pack provides a single light bar and necessary mounting hardware, requiring a Philips Hue Play light bar base kit with a power supply (sold separately) for operation. It allows for the creation of immersive lighting experiences, perfect for enhancing home entertainment, gaming, and general room ambiance.

WHAT'S IN THE BOX

Figure 1: Included components for the Philips Hue Play Light Bar Extension.

- 1x Philips Hue White & Color Ambiance Play bar (black)
- Mounting hardware (clips and double-sided tape)

Note: A Philips Hue Play light bar base kit with power supply is required and sold separately.

SETUP AND INSTALLATION

To set up your Philips Hue Smart Play Light Bar Extension, you will need an existing Philips Hue Bridge and a Play light bar base kit with a power supply. The light bar can be positioned horizontally, vertically, or mounted to surfaces like the back of a TV.

Initial Connection

1. Ensure your Philips Hue Bridge is set up and connected to your home network.
2. Connect the Play light bar extension to the power supply unit from your existing Play base kit. Ensure sufficient room for other devices if connecting multiple light bars.
3. Download the Philips Hue app from the App Store or Google Play if you haven't already.
4. Open the Philips Hue app and follow the on-screen instructions to discover and add your new Play light bar.

Upgrade with the Hue Bridge

to unlock reliable, full home control

Instant response times and ultra-stable connection.
Easy effortless control -- even when your Wi-Fi is down.
Advanced control and automation options.

Placement Options

The versatile design of the Play light bar allows for various placements to suit your lighting needs:

- **Horizontal Placement:** Lay the light bar flat on a surface, such as a cabinet or shelf, to create ambient light.
- **Vertical Placement:** Stand the light bar upright using the included stand to project light upwards or against a wall.
- **TV Backlight:** Mount the light bar to the back of your TV using the provided clips and double-sided tape for an immersive home theater experience.

Compact and versatile, perfect TV backlight

OPERATING THE PHILIPS HUE PLAY LIGHT BAR

Once connected to your Philips Hue Bridge, the Play light bar can be controlled through various methods:

Philips Hue App Control

The Philips Hue app provides comprehensive control over your light bar:

- **Color and Brightness Adjustment:** Choose from 16 million colors and adjust brightness to set the perfect mood.
- **Preset Scenes:** Select from a variety of pre-defined scenes with dynamic effects or create your own custom scenes.
- **Automations and Routines:** Set schedules, timers, and automations for your lights to turn on/off or change settings automatically.
- **Multi-room Control:** Control lights in different rooms or zones within your home.

Pre-defined scenes for unique movie night experiences

Voice Control

Integrate your Philips Hue system with voice assistants for convenient control:

- Set up voice control in the Hue app to use simple commands with Alexa or Google Assistant.

Immersive Lighting Experiences (Hue Sync)

For an enhanced entertainment experience, connect your Play light bar to a Hue Sync box (sold separately) or use the Hue Sync desktop app:

- **TV/Movie Sync:** Lights can sync in real-time to the content on your TV screen, extending the visual experience beyond the display.
- **Gaming Sync:** Achieve total gaming immersion by syncing lights with your video games. Philips Hue lights can also sync with Razer Chroma LED accessories and Corsair iCUE products.
- **Music Sync:** Sync your Hue lights with music when paired with your Spotify account or by using Samsung

SmartThings in the Galaxy smartphone app.

Connectivity Protocol	Wi-Fi (via Hue Bridge)
Control Method	App, Voice Assistant
Indoor/Outdoor Usage	Indoor
Special Feature	Color Changing

MAINTENANCE

The Philips Hue Play Light Bar requires minimal maintenance to ensure optimal performance and longevity.

- **Cleaning:** Gently wipe the light bar with a soft, dry cloth. Do not use abrasive cleaners or solvents, as these may damage the finish.
- **Software Updates:** Ensure your Philips Hue Bridge and app are regularly updated to the latest software versions. This provides access to new features, performance improvements, and security enhancements.
- **Placement:** Avoid placing the light bar in direct sunlight or near heat sources, as this can affect its performance and lifespan. Ensure it is not exposed to water or excessive humidity, as it is not water resistant.

TROUBLESHOOTING

If you encounter issues with your Philips Hue Play Light Bar, try the following solutions:

- **Light Bar Not Responding:**
 - Check if the light bar is properly connected to the power supply unit.
 - Ensure the power supply unit is plugged into a working electrical outlet.
 - Verify that the Philips Hue Bridge is powered on and connected to your network.

- Restart the Philips Hue app.
- Try restarting the Hue Bridge by unplugging it for 10 seconds and plugging it back in.

- **Cannot Discover Light Bar in App:**

- Make sure the light bar is powered on and within range of the Hue Bridge.
- Ensure your smartphone or tablet is connected to the same Wi-Fi network as the Hue Bridge.
- If the light bar was previously paired, try resetting it (refer to the full user manual for specific reset procedures if needed).

- **Lights Not Syncing with Media:**

- Verify that your Hue Sync box (if used) or Hue Sync desktop app is correctly configured and running.
- Check the connection between your media source and the Sync box/app.
- Ensure the light bar is assigned to the correct entertainment area in the Hue app.
