Seville Classics UHD20152B

Seville Classics UltraHD 11-Drawer Rolling Cabinet Workbench Table (Red)

Model: UHD20152B | Brand: Seville Classics

INTRODUCTION

The Seville Classics UltraHD Rolling Workbench is constructed from durable steel, featuring ULTRAGUARD fingerprint-resistant stainless-steel cabinet doors and drawer fronts. This versatile workbench is designed to enhance organization and functionality in various environments, including garages, basements, storage rooms, or hobby rooms. Its robust design and mobility make it a practical solution for diverse storage and workspace needs.

KEY FEATURES

- **Assembled Dimensions:** 77 inches W x 20 inches D x 37.5 inches H.
- **Overall Dimensions with Push Bars:** 77 inches W x 20 inches D x 37.5 inches H (72 inches W without push bars).
- **Solid Wood Top:** Features a 1.5-inch thick polyurethane-coated wood top, providing a durable and attractive work surface.
- **All-Steel Construction:** Ensures industrial-strength storage and long-lasting durability.
- **Heavy-Duty Wheels:** Equipped with four 5-inch heavy-duty wheels, two of which are locking, for easy mobility and secure positioning.
- **Fingerprint-Resistant Finish:** ULTRAGUARD stainless-steel cabinet doors and drawer fronts resist fingerprints, maintaining a clean appearance.
- **Locking System:** Includes a master lock for all drawers and individual locks for cabinet doors, enhancing security for stored items.
- **Spacious Drawers:** Multiple drawer sizes, including deeper options, provide ample storage for various tools and supplies.

SETUP AND ASSEMBLY

Assembly is required for this workbench. While it can be completed by one person, having a second person can significantly ease the process, particularly when handling larger components. The estimated assembly time is between 30 minutes to 4 hours, depending on experience and assistance.

Assembly Tips:

- **Preparation:** Unpack and separate all components. Review the entire instruction manual before beginning assembly to familiarize yourself with the steps and parts.
- **Tools:** A magnetic screwdriver is included. Using sockets for bolts and a battery-powered screw gun for screws can expedite the process. A right-angle magnetic screw gun adapter is recommended for hard-to-reach screws.
- **Tightening:** Do not fully tighten bolts until all six bolts and four sides are in place for the top section. This ensures proper alignment. Similarly, keep all screws for a particular panel slightly loose until all are set, then tighten them together. Avoid over-tightening, especially with power tools, to prevent stripping screws.
- **Casters:** Tighten the bottom plastic/rubber bumpers by hand to prevent over-tightening.
- **Drawer Alignment:** Drawers and doors can be aligned after installation to achieve a precise fit.

OPERATING INSTRUCTIONS

Drawers:

- The drawers operate on a ball-bearing system, ensuring smooth and quiet opening and closing.
- Drawers may require a slight tug to open and a firm push to close, which helps keep them securely shut, especially useful in households with children.
- Various drawer sizes are available, including deeper options for larger tools and supplies.

Locking Mechanism:

- A master lock is provided to secure all drawers simultaneously.
- Individual cabinet doors also feature locks for enhanced security of valuable items.

Mobility:

- The workbench is equipped with four heavy-duty wheels, two of which are locking, allowing for easy repositioning and stable placement.

MAINTENANCE

Cleaning:

- The stainless-steel surfaces are fingerprint-resistant and very easy to clean. Use a soft cloth with a mild cleaner for best results.
- For the polyurethane-coated wood top, wipe spills promptly and use wood-safe cleaners to maintain its finish.

General Care:

- Regularly check all bolts and screws to ensure they remain tight.
- Inspect drawer slides and wheels periodically for smooth operation and lubricate if necessary.

TROUBLESHOOTING

Drawer Issues:

- If drawers are stiff or not sliding smoothly, check for obstructions in the tracks. Ensure the workbench is on a level surface.
- If drawers are misaligned, they can be adjusted after installation. Refer to the assembly instructions for specific

adjustment procedures.

Stability Concerns:

- Ensure all four wheels are properly engaged and locked when the workbench is in a stationary position.
- Verify that the workbench is placed on a flat, stable surface.

SPECIFICATIONS

Attribute	Detail
Material	Stainless Steel, Wood (Alloy Steel Frame)
Brand	Seville Classics
Product Dimensions	20"D x 77"W x 37.5"H
Color	Red
Item Weight	250 Pounds
Finish Type	Powder Coated
Base Type	Casters
Load Capacity	800 Pounds
Assembly Required	Yes
UPC	017641201529
Minimum Height	37.5 Inches
Item Model Number	UHD20152B
