SETUP AND INSTALLATION

The VIGO Ileana faucet is designed for effortless installation with a single-hole mounting design. It includes standard US 3/8-inch plumbing connections and freeze-resistant metal-braided PEX lines. A standard 1-3/8-inch hole opening is required for installation.

VIGO

Effortless Installation

Single-hole installation and standard US plumbing 3/8" connections. The hot/cold lines are metal braided PEX - a high pressure resistant, freeze resistant and thermostable pipe. Standard 1 3/8" diameter opening is required for this faucet.

Durable Construction

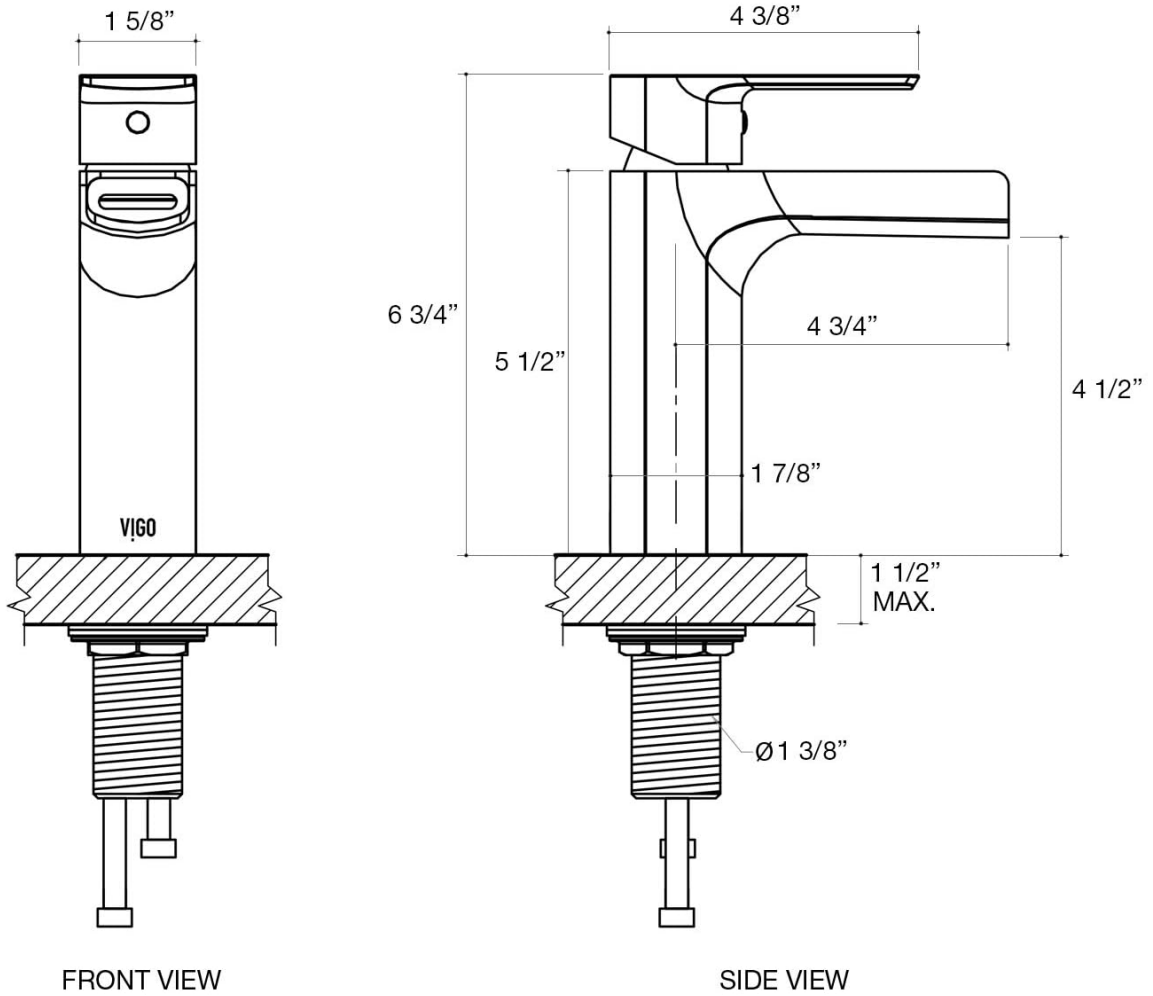

Solid brass construction with brushed nickel, chrome or matte black finish. VIGO finishes resist corrosion and tarnishing, exceeding industry durability standards.

OPERATING INSTRUCTIONS

The single lever handle allows for easy adjustment of both water temperature and flow. Move the handle left for hot water, right for cold water, and up to increase flow. The faucet delivers a sustainable and powerful water flow at 1.2 Gallons Per Minute (GPM), meeting ECO WaterSense standards while maintaining strong water pressure.

MAINTENANCE

The faucet's surface is designed to resist fingerprints and water spots, ensuring a spotless appearance with minimal effort. To clean, use a soft cloth and mild soap. Avoid abrasive cleaners, harsh chemicals, or scouring pads, as these can damage the chrome finish.

The Sedal ceramic disc valve, tested for over 500,000 uses, ensures reliable, leak-free performance. Regular inspection of connections for any signs of wear or leaks is recommended.

TROUBLESHOOTING

- **Low Water Flow:** If water flow is lower than expected, check for any debris in the aerator or supply lines. Ensure the shut-off valves under the sink are fully open. Some faucets may have flow restrictors that can be checked by a qualified plumber if flow remains consistently low.
- **Leaks:** If the faucet leaks from the handle or spout, ensure all connections are tight. The ceramic disc valve is designed for long-term, leak-free operation, but if leaks persist, professional assistance may be required to inspect or replace the cartridge.
- **Water Spots/Stains:** While the finish resists spots, hard water can leave mineral deposits. Clean regularly with a soft cloth and a solution of equal parts white vinegar and water to prevent buildup.

SPECIFICATIONS

Feature	Detail
Brand	VIGO
Model Name	Ileana
Model Number	VG01042CH
Mounting Type	Deck Mount, Single Hole
Finish Type	Chrome
Material	Brass
Number of Handles	1 (Lever)
Flow Rate	1.2 Gallons Per Minute (GPM)
Valve Type	Ceramic Disc Valve
Spout Height	5 Inches
Spout Reach	5 Inches
Item Weight	4 Pounds
Certifications	CUPC, NSF-61, AB1953, ADA Compliant
