Ceenwes Dog Clippers Low Noise Pet Clippers Rechargeable Trimmer Cordless Grooming Tool

Model: 1 | Brand: Ceenwes

INTRODUCTION

Welcome to the Ceenwes Pet Clipper user manual. This guide provides comprehensive instructions for the safe and effective use, maintenance, and troubleshooting of your new pet grooming tool. Designed for both professional and home use, these clippers offer a quiet and efficient grooming experience for your beloved pets.

PACKAGE CONTENTS

Your Ceenwes Pet Clipper kit includes the following items:

- 1 × Pet Clipper (with included Battery)
- 1 × AC Power Adapter
- 1 × Cleaning Brush
- 4 × Comb Attachments (3-6-9-12mm)
- 1 × Stainless Steel Scissor
- 1 × Stainless Steel Comb
- 1 × Nail Clipper
- 1 × Nail File
- 1 × User Manual

Figure 1: Complete Ceenwes Pet Clipper Kit Contents.

The Ceenwes Pet Clipper kit comes complete with all necessary tools for comprehensive pet grooming. This includes the main pet clipper unit, an AC power adapter for charging, a small cleaning brush for maintenance, four comb attachments (3mm, 6mm, 9mm, 12mm) for varying hair lengths, a stainless steel scissor, a stainless steel comb, a nail clipper, a nail file, and a user manual.

PRODUCT FEATURES

Super Quiet Operation

The Ceenwes pet clippers feature a precision motor with low vibration and an ultra-quiet design, operating at only about 60 dB. This significantly reduces grooming stress for pets, making haircuts a more comfortable experience. The powerful motor ensures efficient clipping without snagging or hurting pet hair.

Figure 2: Low Noise and Low Vibration Design.

The Ceenwes pet clippers are engineered with a precision motor for low vibration and ultra-quiet operation, producing only about 60 dB of noise. This design helps to keep pets calm and comfortable during grooming sessions, reducing anxiety often associated with noisy clippers.

Cordless & Rechargeable Design

Enjoy the freedom of cordless grooming with a lightweight design for easy handling. The pet grooming kit includes a charger, allowing for 70-80 minutes of continuous use after a 50-minute charge. The clippers can also be used while corded, providing flexibility.

Your Pet's Friends

Fits for All Kinds of Pets

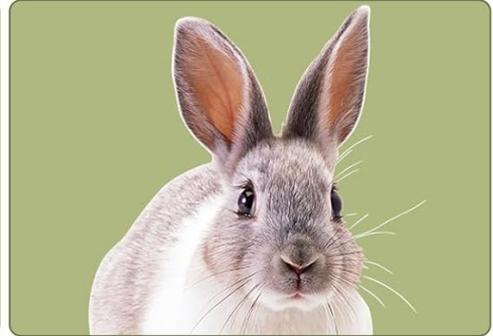

Figure 3: Cordless Operation for Convenience.

The lightweight and cordless design of the Ceenwes pet clippers allows for easy maneuverability and use anywhere. Equipped with a rechargeable battery, a 50-minute charge provides 70-80 minutes of continuous use, offering freedom from tangled cords or the need for constant battery replacement.

Sharp & Adjustable Blade

Equipped with a titanium acute-angle blade combined with a ceramic movable blade, these clippers ensure smooth and efficient cutting. The fine-tuning knob provides five levels of length adjustment (0.8-2mm), and four attachment guide combs (3mm/6mm/9mm/12mm) offer precise and skin-friendly grooming options.

FLEXIBLE USE FOR YOU NEED

5-Speed Adjustable Blade & 4 Guide Combs

Figure 4: Adjustable Blade and Comb Guides.

Featuring a fine-tuning knob, the clipper offers five levels of blade adjustment from 0.8mm to 2.0mm for precise hair length control. Additionally, four attachment guide combs (3mm, 6mm, 9mm, 12mm) are included, providing versatile options for different grooming styles and ensuring a skin-friendly, comfortable experience.

SETUP GUIDE

- Initial Charge:** Before first use, fully charge the clipper for approximately 4-5 hours. The indicator light will show charging status.
- Attach Comb Guide:** Select the desired comb attachment (3mm, 6mm, 9mm, or 12mm) based on the desired hair length. Align the comb with the clipper blade and snap it firmly into place.
- Adjust Blade Length:** For finer adjustments, rotate the fine-tuning knob on the clipper body to select a blade length between 0.8mm and 2.0mm.
- Power On:** Slide the power switch to the "ON" position to start the clipper.

OPERATING INSTRUCTIONS

Pre-Grooming Preparation

1. **Bathe and Dry Pet:** Ensure your pet's coat is clean and completely dry before grooming. This prevents clogging of the blades and ensures a smooth cut.
2. **Comb Hair:** Use the provided stainless steel comb to remove any tangles or mats from your pet's fur. This prepares the coat for even clipping.
3. **Trim Knots:** For stubborn knots, use the stainless steel scissors to carefully trim them out before using the clippers.

Grooming Technique

1. **Start Slowly:** Begin grooming in an area where your pet is comfortable. Allow your pet to get accustomed to the sound and vibration of the clippers.
2. **Clip in Direction of Hair Growth:** Always move the clippers in the direction of hair growth for a smooth and even cut.
3. **Maintain Blade Temperature:** Periodically check the blade temperature. If it becomes too warm, turn off the clipper and allow it to cool down to prevent discomfort to your pet.
4. **Use Comb Guides:** Utilize the comb attachments for consistent hair length. For areas requiring shorter cuts, adjust the blade length directly.

- ✓ Ceenwes Professional Pet Grooming Kit
- ✓ Charging time: 4-5 hours
- ✓ Input: 110V-240V 50/60Hz
- ✓ Output: AC 3V-1000mAh

Figure 5: Step-by-Step Pet Grooming Process.

For optimal grooming results, follow these steps: 1. Bathe your pet and ensure their hair is clean and dry. 2. Use the stainless steel comb to detangle and tidy the fur. 3. Trim any knotted hair with the provided scissors. 4. Proceed with shaving using the Ceenwes grooming clipper, moving smoothly along the pet's coat.

MAINTENANCE

Cleaning the Blade

1. **Remove Hair:** After each use, turn off the clipper and use the cleaning brush to remove any trapped hair from the blades.
2. **Disassemble Blade:** To thoroughly clean, adjust the blade gear to 2.0, then gently push the blade down to detach it from the clipper body.
3. **Clean Thoroughly:** Use the cleaning brush to remove all hair and debris from both the detached blade and the clipper head.
4. **Reassemble Blade:** Align the blade with the slot on the clipper body and push it in the direction of the arrow until it clicks securely into place.

Oiling the Blade

Regular oiling ensures optimal performance and extends the life of your blades.

1. **Apply Oil:** With the blade attached and the clipper turned off, apply 1-2 drops of the provided lubricating oil to the top of the blades.
2. **Run Clipper:** Turn on the clipper for a few seconds to allow the oil to distribute evenly across the blades.
3. **Wipe Excess:** Wipe off any excess oil with a soft cloth.

Figure 6: Blade Disassembly and Assembly for Cleaning.

To maintain your clippers, regularly clean the blade. To disassemble, adjust the gear to 2.0, then push the blade down. It is easy to remove. To assemble, align the blade with the slot, push it in the direction of the arrow until it clicks, and then attach the guide comb.

TROUBLESHOOTING

Problem	Possible Cause	Solution
---------	----------------	----------

Problem	Possible Cause	Solution
Clipper not turning on.	Low battery or not charged.	Charge the clipper fully using the provided AC adapter.
Clipper not cutting effectively.	Blades are dull, dirty, or not oiled. Hair is tangled.	Clean and oil the blades. Ensure pet's hair is clean, dry, and free of tangles before grooming. Consider replacing blades if dull.
Clipper is making unusual noise.	Blades are not properly aligned or need oiling.	Check blade assembly and reattach if necessary. Apply lubricating oil to the blades.
Clipper gets hot quickly.	Prolonged use or dirty/unoiled blades.	Allow the clipper to cool down. Clean and oil the blades regularly. Avoid continuous long grooming sessions.
