1. **Battery Installation:** Open the battery box and insert 3 new AA batteries (not included), ensuring correct polarity (+/-). Close the battery box securely.
2. **Remote Control Activation:** Before first use, remove the clear plastic insulation tab from the remote control's battery compartment.
3. **Placement:** Unwind the copper wire string lights carefully. The flexible wire allows for easy shaping and wrapping around objects.

OPERATING INSTRUCTIONS

The Suddus String Lights can be operated using the included remote control or the button on the battery box.

Remote Control Functions:

- **ON/OFF:** Press the green 'ON' button to turn the lights on, and the red 'OFF' button to turn them off.

- **MODE (1-8):** Select from 8 different lighting modes by pressing the corresponding number button (1-8). The modes include Combination, In Wave, Sequential, Slo Glo, Chasing/Flash, Slow Fade, Twinkle/Flash, and Steady On.
- **DIM (+/-):** Adjust the brightness level using the '+' and '-' buttons. There are 10 adjustable brightness levels.
- **TIMER:** Activate the timer function by pressing the 'TIMER' button. The lights will automatically turn on for 6 hours and then off for 18 hours, repeating the cycle.

Battery Box Button:

A button on the battery box allows you to cycle through the 8 lighting modes manually if the remote is not available.

MAINTENANCE

- **Battery Care:** Always use new AA batteries of the same brand and type. Remove batteries when the lights are not in use for extended periods to prevent leakage.
- **Untangling:** To prevent tangling, always start unwinding from the battery box. When storing, wrap the lights around a winding card or cardboard.
- **Cleaning:** Gently wipe the lights with a soft, dry cloth. Avoid using harsh chemicals or abrasive materials.
- **Safety:** Keep the lights away from children to prevent tangling hazards.

Image: Guidance on preventing tangles, suggesting to start from the battery box and use a winding card for storage.

TROUBLESHOOTING

- **Lights Not Turning On:**
 - Ensure batteries are inserted correctly with the right polarity.
 - Replace old batteries with new ones.
 - Check if the remote control's insulation tab has been removed.
- **Remote Control Not Working:**
 - Ensure the remote is pointed directly at the battery box.
 - Replace the CR2025 battery in the remote control.
- **Lights Flickering or Dim:**
 - Batteries may be low; replace them.
 - Ensure there are no loose connections or damage to the wire.
