

HOT TOOLS HTIR1577

Hot Tools Pro Signature 1.5 Inch Curling Iron Instruction Manual

Model: HTIR1577 | Brand: HOT TOOLS

INTRODUCTION

This manual provides detailed instructions for the safe and effective use of your Hot Tools Pro Signature 1.5 Inch Curling Iron. Designed for creating long-lasting, defined curls, this tool features consistent temperature control and a comfortable grip. Please read this manual thoroughly before first use and retain it for future reference.

SAFETY INFORMATION

WARNING: To reduce the risk of burns, electrocution, fire, or injury to persons, observe the following precautions:

- Always unplug the appliance immediately after using.
- Do not use while bathing or in a shower.
- Do not place or store appliance where it can fall or be pulled into a tub or sink.
- Do not place in or drop into water or other liquid.
- If an appliance falls into water, unplug it immediately. Do not reach into the water.
- This appliance should never be left unattended when plugged in.
- Close supervision is necessary when this appliance is used by, on, or near children or individuals with certain disabilities.
- Use this appliance only for its intended use as described in this manual. Do not use attachments not recommended by the manufacturer.
- Never operate this appliance if it has a damaged cord or plug, if it is not working properly, or if it has been dropped, damaged, or dropped into water.
- Keep the cord away from heated surfaces. Do not wrap the cord around the appliance.
- Never use while sleeping.
- Never drop or insert any object into any opening.
- Do not use outdoors or operate where aerosol (spray) products are being used or where oxygen is being administered.
- Do not use an extension cord with this appliance.
- This appliance is hot when in use. Do not let eyes or bare skin touch heated surfaces.
- Do not place the heated appliance directly on any surface while it is hot or plugged in.
- Always store the appliance in a location free from moisture. Do not store it at temperatures exceeding 140°F (60°C).

Refer to the product manual included with the product for all safety warnings.

PRODUCT FEATURES

- **1.5 Inch Gold Barrel:** Designed for fast styling and long-lasting results, creating loose, bouncy curls.
- **Consistent Heat:** Maintains even temperature up to 430°F for uniform curls.
- **Temperature Control:** Adjustable heat settings suitable for all hair types, from thin to coarse.
- **Soft-Touch Comfort Grip:** Provides full styling control and ease of use.
- **Extra-Long Cool Tip:** Allows for safe handling during styling, protecting fingers from heat.
- **Foldaway Safety Stand:** Convenient for safe placement during and after use.
- **6ft Tangle-Free Swivel Cord:** Offers flexibility and ease of movement during styling.

SETUP

1. **Unpack:** Carefully remove the curling iron from its packaging.
2. **Inspect:** Check the appliance for any signs of damage. Do not use if damaged.
3. **Placement:** Place the curling iron on a heat-resistant surface, ensuring the foldaway safety stand is deployed to prevent the hot barrel from touching surfaces.
4. **Plug In:** Insert the plug into a standard 110V electrical outlet.
5. **Power On:** Turn the temperature control dial to your desired heat setting. The indicator light will illuminate.
6. **Heat Up:** Allow the curling iron to heat up for a few minutes until it reaches the selected temperature.

OPERATING INSTRUCTIONS

For best results, ensure hair is clean, dry, and detangled before styling. Always use a heat protectant spray.

1. **Select Temperature:** Choose a heat setting appropriate for your hair type. Start with a lower setting (e.g., 280°F) for fine or damaged hair and gradually increase if needed (up to 430°F for coarse hair).
2. **Section Hair:** Divide your hair into manageable sections, typically 1-2 inches wide, using clips.
3. **Position Iron:** Open the clamp and place the end of a hair section under the clamp.
4. **Wrap Hair:** Close the clamp and wrap the hair around the barrel, winding away from your face for a classic curl, or towards your face for a different effect. Ensure the hair is evenly distributed around the barrel. Alternatively, for a wand-like effect, you can wrap hair around the barrel without using the clamp.
5. **Hold:** Hold the curling iron in place for 5-10 seconds, depending on your hair type and desired curl intensity. Use the cool tip for stability.
6. **Release:** Open the clamp and gently release the curl. For a wand-like wrap, simply unwind the hair.
7. **Repeat:** Continue with the remaining sections of hair.
8. **Cool and Style:** Allow curls to cool completely before brushing or styling to help them set and last longer.

MAINTENANCE

Proper maintenance ensures the longevity and performance of your curling iron.

1. **Unplug and Cool:** Always unplug the appliance and allow it to cool completely before cleaning or storing.
2. **Cleaning:** Wipe the barrel and handle with a soft, damp cloth. Do not use abrasive cleaners or immerse the appliance in water.
3. **Storage:** Store the curling iron in a dry, safe place where it will not be damaged. Do not wrap the cord around the appliance, as this can damage the cord.

TROUBLESHOOTING

Problem	Possible Cause	Solution
---------	----------------	----------

Problem	Possible Cause	Solution
Appliance does not turn on.	Not plugged in or power outlet issue.	Ensure the appliance is securely plugged into a working electrical outlet. Check the circuit breaker.
Curling iron not heating up.	Temperature dial set too low or internal malfunction.	Verify the temperature dial is set to a desired heat level. If still not heating, discontinue use and contact customer support.
Curls do not hold.	Insufficient heat, hair not clean/dry, or curls not allowed to cool.	Increase temperature slightly. Ensure hair is completely dry. Allow curls to cool before styling. Use a styling product for hold.
Hair snags or pulls.	Hair not detangled, or improper technique.	Ensure hair is thoroughly detangled before use. Use smaller sections and wrap hair smoothly around the barrel.
