Anderic RRU401.5

Anderic RRU401 4-in-1 Universal Remote Control

Model: RRU401.5

PRODUCT OVERVIEW

The Anderic RRU401.5 is a versatile 4-device universal remote control designed to consolidate up to four remotes into one for your home entertainment system. It is compatible with a wide range of devices including TVs, DVD/Blu-ray players, cable boxes, satellite boxes, set-top boxes, audio equipment, Roku, and more. This remote simplifies your control experience by offering advanced features and an intuitive layout.

SETUP GUIDE

1. Battery Installation

The Anderic RRU401.5 remote requires two (2) AAA batteries for operation. To install the batteries:

1. Locate the battery compartment cover on the back of the remote control.
2. Slide the cover downwards to open the compartment.
3. Insert two AAA batteries, ensuring the positive (+) and negative (-) terminals align with the indicators inside the compartment.
4. Slide the cover back into place until it clicks securely.

2. Programming the Remote

The RRU401.5 can be programmed to control up to four devices using various methods, including direct code entry, auto code search, and one-button search. Refer to the detailed instructions provided in the remote's packaging for specific programming codes and steps for your devices.

For an easy code lookup, you can use the manufacturer's online tool or the provided code list.

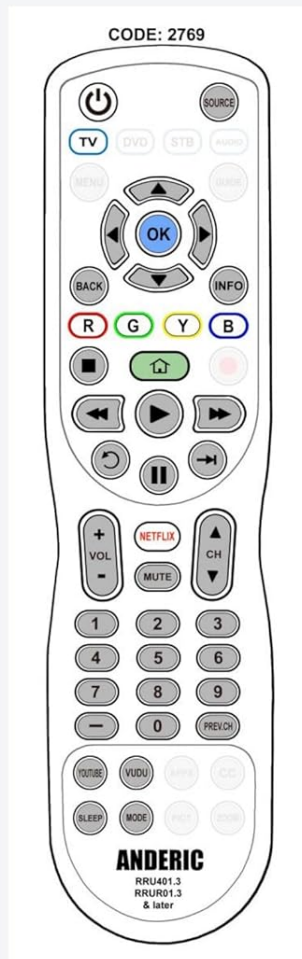

Figure 5: Example of an easy code lookup tool for programming the remote.

The remote also supports *learning* functions, allowing it to replicate commands from your original remote controls. This is particularly useful for unique functions not covered by pre-programmed codes.

OPERATING INSTRUCTIONS

Once programmed, the Anderic RRU401.5 remote provides intuitive control over your entertainment devices.

Device Mode Selection

Use the dedicated device mode buttons (TV, DVD, STB, AUDIO) located at the top of the remote to select the device you wish to control. The selected mode will typically illuminate or be indicated by a light.

Basic Functions

- **POWER:** Turns the selected device on or off. Can be programmed for multi-device power control.
- **VOLUME +/-:** Adjusts the volume of the audio device.
- **CHANNEL +/-:** Changes channels on the TV or set-top box.
- **NUMBER PAD (0-9):** Direct channel entry or input selection.
- **NAVIGATION (Up, Down, Left, Right, OK):** Used for menu navigation and selection.

Smart and Special Keys

- **NETFLIX:** Direct access to the Netflix application (if supported by your device).
- **APPS:** Direct access to the applications menu (if supported by your device).
- **HOME:** Returns to the home screen of your streaming device or smart TV.
- **CC (Closed Captioning):** Toggles closed captions on/off.
- **SLEEP:** Activates the sleep timer function on your TV.
- **MENU:** Accesses the menu of the selected device.

Backlighting

The remote features full key backlighting for improved visibility in dark environments. The backlight activates automatically when a button is pressed and remains on for a short period.

Learning and Macro Functions

The learning feature allows you to transfer specific commands from your original remote to the RRU401.5. Macros enable you to program a sequence of commands to be executed with a single button press. Consult the full instruction manual for detailed steps on utilizing these advanced features.

MAINTENANCE

- **Cleaning:** Wipe the remote with a soft, dry cloth. Do not use liquid cleaners or abrasive materials.
- **Battery Replacement:** Replace batteries when the remote's performance degrades or the backlight dims significantly. Always replace both batteries at the same time with new AAA alkaline batteries.
- **Storage:** Store the remote in a cool, dry place away from direct sunlight and extreme temperatures.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Remote not responding.	Dead or incorrectly installed batteries.	Replace batteries, ensuring correct polarity.

Problem	Possible Cause	Solution
Remote not controlling a device.	Incorrect device mode selected or remote not programmed correctly.	Ensure correct device mode is selected. Reprogram the remote for the specific device.
Some buttons not working.	Button not programmed or not supported by the device.	Use the learning feature to program the specific button. Verify device compatibility.
Backlight not working.	Low batteries.	Replace batteries.
