

IKEA HEKTAR

IKEA HEKTAR Wall/Clamp Spotlight Instruction Manual

Model: HEKTAR

1. INTRODUCTION

Thank you for choosing the IKEA HEKTAR Wall/Clamp Spotlight. This manual provides essential information for the safe and efficient installation, operation, and maintenance of your new lighting fixture. Please read these instructions carefully before use and retain them for future reference.

The IKEA HEKTAR spotlight is designed for versatile lighting, offering both wall-mounted and clamp-on installation options. Its adjustable head allows for precise light direction, making it suitable for various applications such as reading, accent lighting, or general illumination.

2. SAFETY INFORMATION

WARNING: Always disconnect power before installation, maintenance, or changing the light bulb.

- This product is for indoor use only.
- Ensure the power supply voltage matches the requirements specified on the product label.
- Do not use the product if the cord or plug is damaged.
- Keep the lamp away from water and moisture.
- Do not cover the lamp with flammable materials.
- Only use the recommended light bulb type and wattage.
- Installation should be performed by a qualified electrician if you are unsure.
- Ensure the mounting surface is stable and can support the weight of the fixture.

3. PACKAGE CONTENTS

Verify that all components are present before beginning installation:

- IKEA HEKTAR Wall/Clamp Spotlight unit(s) (as per pack size)

- Mounting hardware (screws, wall plugs for wall mounting)
- Instruction manual

Note: Light bulb is sold separately. IKEA recommends LED reflector bulb E17.

4. SETUP

The IKEA HEKTAR spotlight offers two installation methods: as a clamp spotlight or as a wall lamp.

4.1. Clamp Mounting

1. Identify a suitable surface for clamping, such as a shelf, desk edge, or headboard. The clamping range is $\frac{1}{3}$ - $1\frac{1}{4}$ inches (approximately 1.5 cm - 4.5 cm).
2. Open the clamp by unscrewing the knob on the side of the clamp mechanism.
3. Position the clamp securely onto the desired surface.
4. Tighten the knob firmly to secure the spotlight in place. Do not overtighten.

4.2. Wall Mounting

1. Choose a desired location on the wall. Ensure there are no hidden electrical wires or pipes behind the mounting area.
2. Use the mounting bracket as a template to mark the positions for drilling holes.
3. Drill holes of appropriate size for the included wall plugs.
4. Insert the wall plugs into the drilled holes.
5. Align the mounting bracket with the wall plugs and secure it to the wall using the provided screws.
6. Attach the spotlight unit to the secured wall bracket.

4.3. Installing the Light Bulb

1. Ensure the spotlight is unplugged from the power outlet.
2. Carefully screw the E17 LED reflector bulb (sold separately) into the lamp holder. Do not overtighten.
3. Plug the spotlight into a suitable power outlet.

5. OPERATING INSTRUCTIONS

The IKEA HEKTAR spotlight features a push-button controller for simple operation.

- **Turning On/Off:** Locate the push button on the power cord or near the lamp base. Press the button once to turn the light on, and press it again to turn it off.
- **Adjusting Light Direction:** The lamp head is adjustable. Gently pivot or tilt the lamp head to direct the light beam to your desired area.

6. MAINTENANCE

Regular maintenance ensures the longevity and optimal performance of your spotlight.

- **Cleaning:** Disconnect the power before cleaning. Wipe the lamp with a soft, dry cloth. Do not use abrasive cleaners or solvents, as they may damage the finish.
- **Bulb Replacement:** Ensure the lamp is unplugged and the bulb has cooled down before attempting

to replace it. Unscrew the old bulb and screw in a new E17 LED reflector bulb.

- **Inspection:** Periodically check the power cord and plug for any signs of damage. If damage is found, discontinue use and contact a qualified technician.

7. TROUBLESHOOTING

If you encounter issues with your IKEA HEKTAR spotlight, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Light does not turn on.	• No power to the outlet. • Light bulb is faulty or not properly installed. • Power cord or plug is damaged.	• Check if the outlet is working by plugging in another device. • Ensure the bulb is screwed in tightly. Replace the bulb if necessary. • Inspect the cord and plug for damage. If damaged, do not use.
Light flickers.	• Loose light bulb. • Incompatible or faulty light bulb. • Unstable power supply.	• Tighten the light bulb. • Try a different E17 LED reflector bulb. • Consult an electrician if power supply issues persist.
Lamp is unstable after mounting.	• Clamp not tightened sufficiently. • Wall mounting screws are loose or wall plugs are not secure. • Mounting surface is not suitable.	• Retighten the clamp knob. • Check and tighten wall mounting screws. Ensure wall plugs are properly seated. • Relocate to a more stable surface if necessary.

8. SPECIFICATIONS
