2. WHAT'S IN THE BOX

Your Jaybird Tarah Wireless Sport Headphones package includes:

- Jaybird Tarah Wireless Sport Headphones
- MicroUSB charging cord
- Quickstart guide
- Combo Secure-Fit Eargels (Sizes 1, 2, 3)
- Speed Cinch
- Shirt Clip

3. SETUP

3.1. Initial Power On & Pairing

1. **Power On:** Press and hold the middle button on the inline control pod until the LED indicator lights up.
2. **Pairing:** Go to your phone's Bluetooth menu and select "Jaybird TARA" from the list of available devices.
3. **App Download:** Download the Jaybird App from the App Store (iOS) or Google Play Store (Android) for guided fit and custom EQ settings.

3.2. Customizing Sound with the Jaybird App

The Jaybird App allows you to personalize your sound experience with custom equalizer (EQ) settings.

After pairing your headphones, open the app to access various presets or create your own custom sound profile. An app update may be required upon first connection, which can significantly improve sound quality.

4. OPERATING YOUR HEADPHONES

4.1. Controls

The inline control pod features buttons for power, volume adjustment, and managing music playback and calls. The central button typically handles power on/off, play/pause, and call management, while the plus and minus buttons control volume and track skipping.

4.2. Sport Fit

The Jaybird Tarah headphones come with ultra-soft and flexible silicone ear gels in multiple sizes to ensure a secure and comfortable fit during any activity. The ear gels are designed to provide stability without causing discomfort.

5. CHARGING

The Jaybird Tarah headphones feature a rechargeable battery providing up to 6 hours of playtime on a single charge. A quick 10-minute charge delivers a full hour of playtime.

Image: A woman running outdoors, with an overlay indicating "6 HOURS PLAYTIME" for the headphones.

5.1. Charging Procedure

To charge your Jaybird Tarah headphones, use the provided proprietary charging clip. Align the charging contacts on the clip with the contacts on the headphone's control pod. The LED indicator on the control pod will illuminate to show charging status and turn off when fully charged. Ensure the charging clip is securely attached.

Note: The charging cable is a short, proprietary design. Keep it in a safe place to avoid misplacement, as standard micro-USB or USB-C cables are not compatible.

6. MAINTENANCE

6.1. Sweat & Waterproof Protection

The Jaybird Tarah headphones are IPX7 sweatproof and waterproof, making them suitable for gym and fitness workouts, as well as running in various weather conditions. This rating means they can withstand immersion in water up to 1 meter for 30 minutes.

After exposure to sweat or water, it is recommended to gently wipe the headphones dry with a soft cloth

before charging or storing them to ensure longevity and optimal performance.

6.2. Cleaning Ear Gels

The silicone ear gels can be removed and cleaned with mild soap and water. Ensure they are completely dry before reattaching them to the earbuds.

7. TROUBLESHOOTING

7.1. Poor Sound Quality

If you experience tinny or unsatisfactory sound quality, ensure you have downloaded and updated the Jaybird App. The app provides various EQ presets (e.g., "Warmth," "Bring the Bass," "Signature," "Flat") that can significantly enhance the audio experience. Experiment with different presets to find the one that best suits your listening preferences. An app update may also contain firmware improvements for sound.

7.2. Connectivity Issues

If the headphones are not connecting to your device:

- Ensure your headphones are charged and powered on.
- Make sure Bluetooth is enabled on your device.
- If you have a new pair of buds or are experiencing persistent issues, try pairing them again through your phone's Bluetooth menu.
- Stop any music playback on your phone when attempting to connect.

8. SPECIFICATIONS

Brand	Jaybird
Model Number	985-000704
Model Name	Jaybird TARA H
Color	Black/Flash
Ear Placement	Over Ear
Form Factor	In Ear
Noise Control	None
Connectivity Technology	Bluetooth
Bluetooth Version	5.0
Bluetooth Range	10 Meters
Battery Average Life	6 Hours
