# nanoblock Black Cat Building Kit (NBC-281) Instruction Manual

Model: NBC-281

## 1. PRODUCT OVERVIEW

---

This manual provides instructions for assembling the nanoblock Black Cat Building Kit, part of the Mini Collection series. This kit allows you to construct a detailed 3D black cat model using micro-sized building blocks. The completed model stands approximately 2.36 inches tall and consists of 110 pieces.

Image 1.1: nanoblock Black Cat Building Kit packaging. The image displays the product in its clear plastic packaging, highlighting the assembled black cat model and key details like '110 PCS' and 'NBC-281'.

## 2. SETUP AND ASSEMBLY

---

The nanoblock Black Cat Building Kit is designed for individuals aged 12 and up, with a skill level rated as 3 out of 5. Due to the extremely small size of the blocks (the smallest being 4x4x5mm), careful attention and dexterity are required during assembly. The kit includes detailed step-by-step instructions to guide you through the building process.

### 2.1 Unpacking the Kit

Carefully open the packaging and ensure all pieces are present. It is recommended to work on a clean, flat surface to prevent loss of the small blocks.

## 2.2 Assembly Process

1. Refer to the included instruction sheet for a visual, step-by-step guide.
2. Identify the different block types and colors.
3. Begin assembling the model according to the diagrams. Pay close attention to the placement and orientation of each micro block.
4. For very small or intricate connections, using a pair of fine-tipped tweezers may assist in block placement.

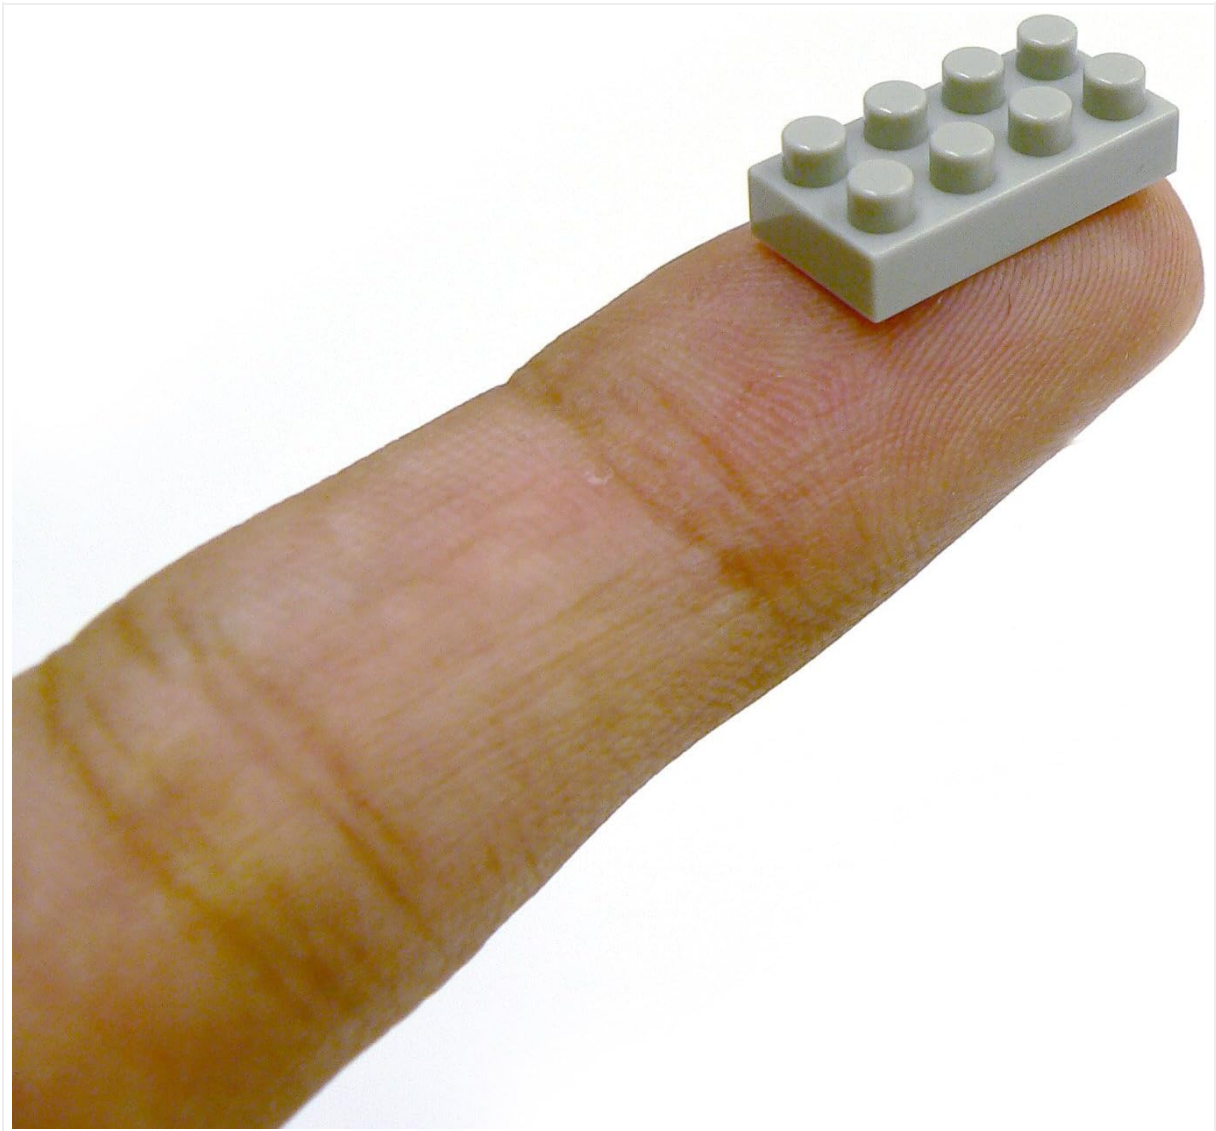

Image 2.2: A single nanoblock piece shown resting on a fingertip, emphasizing the miniature scale of the building blocks used in the kit.

## 2.3 Difficulty Levels

nanoblock kits are categorized by difficulty levels from 1 to 5. This Black Cat model is rated at Level 3, indicating a moderate challenge suitable for experienced builders. The difficulty level is typically indicated on the product packaging.

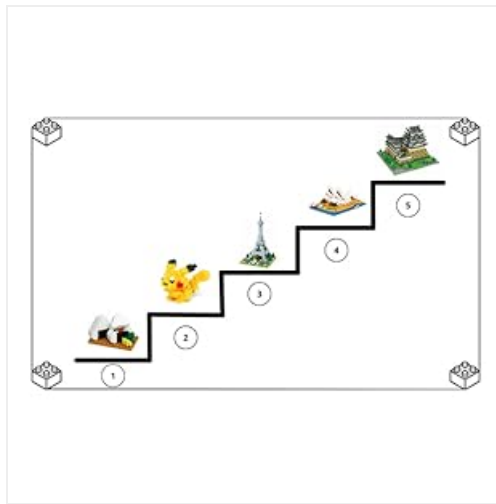

Image 2.3: An illustrative diagram explaining the nanoblock difficulty scale, ranging from Level 1 (easiest) to Level 5 (most advanced), with various models representing each level.

### 3. OPERATING AND DISPLAY

---

Once assembled, your nanoblock Black Cat model is ready for display. These models are designed to be collected and showcased as miniature 3D art pieces.

#### 3.1 Displaying Your Model

Place your finished black cat model on a stable surface. Its compact size allows it to fit in small spaces, such as desks, shelves, or display cabinets.

Image 3.1: A nanoblock model, similar in scale to the Black Cat, being held in a person's hand, illustrating the compact and palm-sized nature of the finished product.

#### 3.2 Handling

While nanoblock models are generally stable, excessive handling or dropping may cause pieces to detach. Handle the model gently, especially when moving it.

### 4. MAINTENANCE

---

To keep your nanoblock model in optimal condition, follow these simple maintenance guidelines:

- **Cleaning:** Use a soft, dry brush or a can of compressed air to remove dust from the model. Avoid using water or chemical cleaners, as these may damage the plastic or affect the block connections.

- **Storage:** If disassembling or storing the model, keep all blocks in a secure container to prevent loss, as they are very small.

## 5. TROUBLESHOOTING

---

If you encounter any issues during assembly or with the finished model, consider the following:

- **Loose Connections:** Some connections, particularly in areas like the legs or tail, might feel slightly loose. If the model is frequently moved and stability is a concern, a small amount of plastic-safe adhesive can be applied to critical joints for a more permanent bond.
- **Unclear Instructions:** If a step in the instructions appears unclear, re-examine the diagrams carefully. nanoblock instructions are primarily visual; sometimes rotating the diagram or comparing it to previous steps can clarify the assembly.
- **Missing Pieces:** While rare, if you believe a piece is missing, double-check your work area thoroughly due to the blocks' small size. If a piece is genuinely missing, contact nanoblock customer support for assistance.

## 6. SPECIFICATIONS

---

Feature	Detail
Brand	nanoblock
Model Name	Cat Breed (Black Cat)
Model Number	NBC-281
Number of Pieces	110
Material Type	Plastic
Item Dimensions (L x W x H)	1.57 x 1.85 x 2.36 inches
Item Weight	0.03 Kilograms
Recommended Age	12+ years
Skill Level	3 (of 5)

## 7. SAFETY INFORMATION

---

**WARNING: CHOKING HAZARD - Small Parts.**

This product contains very small parts and is not suitable for children under 3 years of age. Keep all blocks and packaging materials away from infants and young children to prevent accidental ingestion or choking.

## 8. WARRANTY AND SUPPORT

---

Specific warranty information for this nanoblock product is not provided in this manual. For details regarding product warranty, replacement parts, or further support, please refer to the official nanoblock website or contact their customer service directly. Contact information can typically be found on the product packaging or the manufacturer's official website.
