FTVOGUE Code Security Touch Digital Keypad Electronic Deadbolt Lock User Manual

Model: FTVOGUE7uf35b9np4-01

Brand: FTVOGUE

1. Introduction

This manual provides detailed instructions for the installation, operation, and maintenance of your FTVOGUE Code Security Touch Digital Keypad Electronic Deadbolt Lock. Please read this manual thoroughly before installation and use to ensure proper function and security.

2. Product Overview

2.1 Key Features

- **Customizable Security:** Set a personal password with 1 to 15 digits. A 4-6 digit code is recommended for optimal security.
- **Keyless Access:** Eliminates the need for physical keys, providing convenient access.
- **Durable Construction:** Crafted from high-quality Acrylonitrile Butadiene Styrene (ABS) material for longevity.
- **Compact and Stylish Design:** Integrates seamlessly into various environments.
- **Easy Management:** Features a default management password and clear indicators for lock status.
- **Audible Alerts:** Provides an audible alert for incorrect password entries.

2.2 Package Contents

Verify that all components are present before beginning installation:

- Digital Keypad Lock Unit
- Mounting Panel

- Mounting Nut
- Mounting Screws
- Instruction Manual (this document)

3. Installation

Follow these steps to install your FTVOGUE Digital Keypad Lock:

1. **Prepare the Mounting Surface:** Ensure the cabinet or furniture door has a suitable opening for the lock mechanism. Refer to the dimensional diagram for precise measurements.
2. **Insert the Lock Unit:** Place the main lock unit through the prepared hole from the exterior side of the cabinet.
3. **Secure the Mounting Panel:** From the interior side, attach the mounting panel over the lock mechanism.
4. **Fasten with Nut and Screws:** Secure the lock in place using the provided mounting nut and screws. Ensure the lock is firmly attached and does not wobble.
5. **Install Batteries:** The lock requires batteries for operation (not included). Open the battery compartment, insert the correct type and number of batteries, and close the compartment securely.

4. Operation

4.1 Initial Setup and Default Password

Upon first use or after a factory reset, the management password is set to **1234**. The lock operates in default home mode. When unlocked, a green indicator will illuminate.

Image: The lock unit with an overlay indicating the factory default management password is '1234' and it is in home mode.

4.2 Setting a New Password

To change the default management password or set a new user password:

1. Enter the current password (default is 1234) and press the 'OK' button.
2. While the lock is unlocked, press and hold the 'OK' button until the indicator light changes.
3. Enter your new password (1-15 digits, 4-6 recommended) and press 'OK'.
4. Re-enter your new password to confirm and press 'OK'.
5. The indicator light will confirm the password change.

4.3 Locking and Unlocking

- **To Unlock:** Enter your set password and press 'OK'. The lock will disengage, and the green indicator will light up.
- **To Lock:** Rotate the knob to the 'LOCK' position. The lock will engage.

4.4 Public Mode and Temporary Passwords

The lock supports public mode and the creation of temporary passwords. Refer to the detailed instructions in the included manual for specific programming steps for these advanced features.

5. Maintenance

5.1 Battery Replacement

The lock requires batteries for operation. When the battery power is low, the lock may exhibit signs such as delayed response or failure to operate. Replace batteries promptly to ensure continuous functionality.

1. Locate the battery compartment on the interior side of the lock unit.
2. Open the compartment cover.
3. Remove the old batteries and insert new ones, ensuring correct polarity.
4. Close the battery compartment cover securely.

Note: *Always use fresh, high-quality batteries of the specified type. Do not mix old and new batteries.*

5.2 Cleaning

To clean the keypad and lock exterior, use a soft, dry cloth. Avoid abrasive cleaners, solvents, or excessive

moisture, as these can damage the electronic components or finish.

6. Troubleshooting

6.1 Incorrect Password Alert

If an incorrect password is entered, the lock will emit an audible alert, typically three "Di Di Di" sounds, and will not unlock.

Image: The lock unit with an overlay indicating that an incorrect password entry will result in three 'Di Di Di' sounds.

6.2 Lock Not Responding or Opening

- **Check Batteries:** The most common cause is low or dead batteries. Replace them as described in the Maintenance section.
- **Verify Password:** Ensure you are entering the correct password. Double-check the sequence and press 'OK' after entry.
- **Mechanical Obstruction:** Inspect the lock mechanism for any physical obstructions preventing it from engaging or disengaging.

6.3 Resetting the Lock

If you encounter persistent issues or forget your password, a factory reset may be necessary. Refer to the specific instructions in the full product manual for the reset procedure, as this typically involves accessing internal components.

7. Specifications

Brand	FTVOGUE
Model Name	FTVOGUE7uf35b9np4-01
Lock Type	Keypad
Material	Acrylonitrile Butadiene Styrene (ABS)
Item Dimensions (L x W x H)	3.74 x 1.38 x 0.59 inches
Item Weight	3.52 ounces (0.1 Kilograms)

Control Method	Touch
Voltage	1 Volts
Batteries Required?	No (Batteries not included, but required for operation)
