

auna Areal 653

auna Areal Surround 5.1 Home Cinema System

Model: Areal 653

INTRODUCTION

This manual provides detailed instructions for the setup, operation, maintenance, and troubleshooting of your auna Areal Surround 5.1 Home Cinema System. Please read this manual thoroughly before using the product to ensure proper and safe operation.

SAFETY INFORMATION

To reduce the risk of electric shock, do not remove the cover (or back). No user-serviceable parts inside. Refer servicing to qualified service personnel.

- Do not expose this appliance to dripping or splashing and ensure that no objects filled with liquids, such as vases, are placed on the apparatus.
- Do not block any ventilation openings. Install in accordance with the manufacturer's instructions.
- Do not install near any heat sources such as radiators, heat registers, stoves, or other apparatus (including amplifiers) that produce heat.
- Protect the power cord from being walked on or pinched, particularly at plugs, convenience receptacles, and the point where they exit from the apparatus.
- Only use attachments/accessories specified by the manufacturer.
- Unplug this apparatus during lightning storms or when unused for long periods of time.

WHAT'S IN THE BOX

Verify that all components listed below are included in your package:

- 1 x Subwoofer
- 1 x Remote Control
- 4 x Satellite Speakers
- 1 x Center Speaker
- 4 x Speaker Stands (for satellite speakers)
- 1 x Stand Base (for center speaker)
- 5 x Speaker Cables
- 1 x AUX Cable
- 3 x A/V Cables

- 1 x Set of Screws
- 1 x User Manual (German, English)

Image: Overview of the auna Areal Surround 5.1 Home Cinema System, showing the subwoofer, four satellite speakers, and one center speaker.

1. Speaker Placement

For optimal surround sound experience, position the speakers as follows:

- **Center Speaker:** Place directly in front of the listening position, typically above or below your TV/monitor.
- **Front Left/Right Speakers:** Position to the left and right of your TV/monitor, equidistant from the listening position.
- **Rear Left/Right Speakers:** Place behind the listening position, to the left and right.
- **Subwoofer:** Can be placed anywhere in the room, but often performs best in a corner or near a wall to enhance bass.

Image: Example setup of the auna Areal Surround 5.1 system in a living room, demonstrating ideal speaker placement around a television.

2. Connecting Speakers to the Subwoofer

Connect the satellite and center speakers to the corresponding outputs on the rear of the subwoofer using the provided speaker cables. Ensure correct polarity (+ to + and - to -).

Image: Close-up of the subwoofer's rear panel, showing the various audio input and output ports for connecting speakers and external devices.

Image: Detail of the speaker cable connection terminals on both a satellite speaker and the center speaker, showing the red and black clips.

3. Connecting Audio Sources

The system offers multiple input options:

- **Bluetooth:** For wireless streaming from smartphones, tablets, or laptops.
- **USB/SD:** Insert USB drives or SD cards into the front panel slots for MP3 playback.
- **AUX Input (RCA):** Connect devices like CD players, MP3 players, or laptops using the provided AUX cable to the "AUX AUDIO INPUT" on the rear.
- **5.1 Cinch Surround Input:** Connect DVD or Blu-ray players for true 5.1 surround sound using the "DVD AUDIO INPUT" on the rear.
- **Microphone Inputs:** Two 6.3mm jack microphone inputs are available on the front panel for karaoke or voice applications.

4. Power Connection

Once all audio connections are made, connect the power cord to the subwoofer and then to a suitable wall outlet (AC 230 V, 50 Hz). Turn on the power switch located on the rear panel.

OPERATING INSTRUCTIONS

1. Power On/Off

Use the power switch on the rear of the subwoofer or the power button on the remote control to turn the system on or off.

2. Input Selection

Press the "INPUT SET" button on the subwoofer's front panel or the corresponding input buttons (SD, USB, AUX, BT, DVD) on the remote control to switch between audio sources.

3. Volume Control

Adjust the master volume using the large knob on the subwoofer's front panel or the "VOL+" / "VOL-" buttons on the remote control. Individual speaker levels (FL, FR, CEN, SL, SR, SW) can be adjusted using the remote control.

4. Bluetooth Pairing

Select "BT" input. The system will enter pairing mode. On your device (smartphone, tablet), search for "auna Areal 653" and connect. Once paired, you can stream audio wirelessly.

5. USB/SD Playback

Insert a USB drive or SD card into the respective slot. The system will automatically switch to USB/SD mode and begin playback. Use the remote control for track navigation (CH-, CH+) and playback control (AUTO/II).

6. Remote Control Functions

The included remote control provides full functionality for the system:

- **Power:** Turns the system on/off.
- **Input Selection:** Dedicated buttons for SD, USB, AUX, BT, DVD.
- **Volume Control:** Master volume and individual speaker level adjustments.
- **Playback Controls:** Play/Pause, Next/Previous track (for USB/SD).
- **Sleep Timer:** Set a timer for automatic shutdown.
- **Repeat Function:** Repeat current track or all tracks.
- **Microphone Inputs:** Adjust microphone volume and echo (if microphones are connected).

The remote control requires 2 x 1.5V AA batteries (not included).

MAINTENANCE

To ensure the longevity and optimal performance of your auna Areal Surround 5.1 Home Cinema System, follow these maintenance guidelines:

- **Cleaning:** Use a soft, dry cloth to clean the surfaces of the speakers and subwoofer. Do not use liquid cleaners or abrasive materials, as they may damage the finish.
- **Ventilation:** Ensure that the ventilation openings on the subwoofer are not blocked. Adequate airflow prevents overheating.
- **Storage:** If storing the system for an extended period, disconnect it from power and store it in a cool, dry place away from direct sunlight and extreme temperatures.
- **Cable Management:** Periodically check all cable connections to ensure they are secure and free from damage.

TROUBLESHOOTING

If you encounter any issues with your system, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
No sound from speakers	Power not connected or turned on.	Check power connection and switch.
	Incorrect input selected.	Select the correct input source.
	Speaker cables loose or incorrectly connected.	Ensure all speaker cables are securely connected with correct polarity.
	Volume too low.	Increase master volume and individual speaker levels.
Bluetooth pairing fails	Device too far from system.	Move device closer to the system.
	Bluetooth not enabled on device.	Enable Bluetooth on your device.
	System not in pairing mode.	Ensure "BT" input is selected on the system.
USB/SD playback not working	Incorrect file format.	Ensure files are in a supported format (e.g., MP3).
	USB drive/SD card not inserted correctly.	Re-insert the USB drive/SD card.
	Corrupted files.	Try with different files or a different storage device.
Distorted sound	Volume too high.	Reduce volume.
	Poor audio source quality.	Try a different audio source.
	Incorrect cable connection.	Check all audio cables for secure and correct connections.

SPECIFICATIONS
