

Apple MU9N2AM/A

Apple Watch Sport Band (44mm) - (PRODUCT) RED Instruction Manual

INTRODUCTION

This manual provides instructions for the Apple Watch Sport Band (44mm) in (PRODUCT) RED. The Sport Band is crafted from a high-performance fluoroelastomer, designed for durability, strength, and comfort. Its smooth, dense material drapes elegantly and feels soft against the skin. An innovative pin-and-tuck closure ensures a secure and clean fit.

WHAT'S IN THE BOX

- Apple Watch Sport Band (44mm) - (PRODUCT) RED
- Three strap pieces for S/M or M/L configuration

SETUP: ATTACHING THE BAND

To attach the Sport Band to your Apple Watch, follow these steps:

1. Ensure your Apple Watch is powered off.
2. Hold the watch with the display facing down.
3. Slide one end of the band into the slot on the watch case until you hear a click or feel it lock into place. Do not force the band. If it doesn't slide in easily, press the band release button on the back of the watch and try again.
4. Repeat for the other end of the band.
5. Gently tug on each end of the band to ensure it is securely attached.

OPERATING: WEARING AND ADJUSTING THE BAND

The Sport Band comes with three pieces, allowing configuration for either S/M (Small/Medium) or M/L (Medium/Large) wrist sizes. The regular band fits wrists measuring 140–210mm.

1. Select the appropriate band length (S/M or M/L) that best fits your wrist.
2. Wrap the band around your wrist.
3. Insert the pin through one of the adjustment holes on the other side of the band.
4. Tuck the excess strap underneath the main band for a clean and secure fit.

MAINTENANCE: CLEANING YOUR SPORT BAND

To maintain the appearance and longevity of your Sport Band, follow these cleaning guidelines:

- Remove the band from your Apple Watch before cleaning.
- Wipe the band with a non-abrasive, lint-free cloth. If necessary, lightly dampen the cloth with fresh water.
- For stubborn stains, a small amount of mild, hypoallergenic hand soap can be used, followed by rinsing with fresh water.
- Allow the band to air dry completely before reattaching it to your Apple Watch.
- Avoid using harsh chemicals, abrasive materials, or ultrasonic cleaners, as these can damage the fluoroelastomer material.

TROUBLESHOOTING

If you encounter issues with your Apple Watch Sport Band, consider the following:

- **Band not attaching securely:** Ensure the band release buttons are not stuck and that the band is inserted correctly until it clicks. Do not force it.
- **Discomfort or skin irritation:** Ensure the band is clean and dry. Adjust the fit to be snug but not overly tight. If irritation persists, discontinue use and consult a medical professional.
- **Band appears damaged:** Inspect the band for any visible tears or defects. If damaged, it may need replacement.

SPECIFICATIONS

Product Dimensions	11.5 x 2.91 x 0.47 inches
Item Weight	1.58 ounces
Material	High-performance fluoroelastomer
Color	(PRODUCT) RED
Compatibility	42mm and 44mm Apple Watch Models
Wrist Size	140–210mm (Regular Bands)
