## Intex B07HCT98VC

# Intex Swim Center Inflatable Above Ground Pool (Model B07HCT98VC) Instruction Manual

This manual provides detailed instructions for the setup, operation, maintenance, and troubleshooting of your Intex Swim Center Inflatable Above Ground Pool, Model B07HCT98VC.

## INTRODUCTION

Thank you for purchasing the Intex Swim Center Inflatable Above Ground Pool. This pool is designed for family use, providing a refreshing experience. Please read this manual thoroughly before setup and use to ensure proper operation and safety.

**Model:** B07HCT98VC

**Brand:** Intex

## IMPORTANT SAFETY INFORMATION

- Adult supervision is required at all times when children are in or near the pool.
- Do not dive or jump into the pool.
- Ensure the pool is set up on a level, stable surface, free from sharp objects.
- Empty the pool completely when not in use to prevent accidental drowning.
- Keep children away from the drain plug when emptying the pool.
- Ages 6 and up are recommended for use.

## SETUP INSTRUCTIONS

1. **Site Selection:** Choose a flat, level area in your yard, clear of any sharp objects, debris, or uneven ground. Ensure the area can support the weight of the filled pool.
2. **Unpacking:** Carefully remove the pool from its packaging. Unfold the pool and spread it out in the chosen location.
3. **Inflation:** Locate the inflation valves on the pool's chambers. Use an air pump (not included) to inflate each chamber until it is firm to the touch but not over-inflated. The pool features wide sidewalls for stability, which should be adequately inflated.
4. **Inspection:** After inflation, inspect the entire pool for any signs of damage or leaks before filling with water.

## OPERATING INSTRUCTIONS

---

- 1. Filling the Pool:** Begin filling the pool with water using a garden hose. Fill to the recommended water level, typically indicated by a line on the inside of the pool or until the water reaches the top inflatable ring. Do not overfill.
- 2. Supervision:** Always ensure constant adult supervision when the pool is in use, especially with children.
- 3. Usage:** The unique square shape allows for a maximum play area. Avoid rough play, diving, or jumping to prevent injury and damage to the pool.

## MAINTENANCE

- **Cleaning:** Regularly clean the pool walls and floor with a soft brush and mild soap. Rinse thoroughly.
- **Draining:** The pool features a convenient drain plug for quick and easy draining. Open the drain plug located at the bottom of the pool to empty the water. Ensure the area where the water drains is suitable.
- **Drying:** After draining, allow the pool to dry completely in the sun to prevent mold and mildew before storage.
- **Storage:** Deflate the pool and fold it neatly. Store in a cool, dry place, away from direct sunlight and extreme temperatures.

## TROUBLESHOOTING

Problem	Possible Cause	Solution
Pool is losing air.	Small puncture or leak in the vinyl.	Locate the leak by applying soapy water to the surface. Bubbles will indicate the leak. Use a vinyl repair kit (not included) to patch the hole. Ensure the area is clean and dry before applying the patch.
Pool is losing water.	Leak in the pool liner or drain plug not fully closed.	Check the drain plug to ensure it is securely closed. Inspect the pool liner for any visible tears or punctures and repair with a vinyl repair kit.

Problem	Possible Cause	Solution
Sidewalls are not firm.	Under-inflated chambers or air leak.	Re-inflate the chambers until firm. If air loss persists, check for leaks as described above.

## SPECIFICATIONS
