## LivePure LP550TH

# LivePure Bali Series Air Purifier Instruction Manual

Model: LP550TH | Brand: LivePure

## INTRODUCTION

---

The LivePure Bali Series LP550TH is a powerful, next-generation air purifier designed to improve indoor air quality in multiple rooms or an entire home. This large console model is capable of cleaning the air in a 550 sq. ft. room over 117 times a day, ensuring a clean and fresh environment.

It features a gasket-sealed, medical-grade True HEPA filter that captures up to 99.97% of allergens and irritants as small as 0.3 microns, including smoke, dust, pet hair and dander, pollen, mold spores, and dust mite debris. Additionally, a Coco Carbon pre-filter helps reduce harmful VOCs and household odors.

## KEY FEATURES

---

- **Advanced Filtration:** Gasket-sealed, medical-grade True HEPA filter captures 99.97% of particles as small as 0.3 microns, including dust, smoke, pollen, pet hair and dander, mold, and dust mites.
- **Odor Reduction:** Coconut carbon pre-filter effectively reduces household odors from cooking, cleaning, and smoking, and extends the life of the HEPA filter by capturing larger particles.
- **Wide Coverage:** Cleans the air in multiple rooms or a whole home up to 1,500 sq. ft. in size over 42 times a day.
- **User-Friendly Controls:** Features a soft-touch control panel with 4 fan speeds, LED accent light, sleep timer, and whisper-quiet operation.
- **Convenient Design:** Includes wrap-around cord storage and a sleek, modern design to fit seamlessly into your home.

## Coconut Carbon Pre-Filter

The pre-filter captures large particles, such as dust, pet dander, and pollen, from the air before they reach the HEPA filter.

Carbon pre-filter also helps reduce odors from the air caused by cooking, smoking, and pets.

## True HEPA Filter

H13 True HEPA filter removes up to 99.97% of airborne particles as small as 0.3 microns - smoke, dust, pollen, pet hair and dander, mold spores and dust mites.

## SETUP

Before first use, ensure all packaging materials are removed from the unit and filters. Place the air purifier on a firm, level surface in the desired room, ensuring adequate space around the unit for optimal airflow.

1. Unpack the air purifier and all components.
2. Open the front cover of the unit by pulling out using the notches on the sides.
3. Remove the pre-installed filters and remove any protective plastic wrapping.
4. Re-insert the True HEPA filter, followed by the Coco Carbon pre-filter, ensuring they are properly seated.
5. Close the front cover securely.
6. Plug the power cord into a standard electrical outlet.

## OPERATING INSTRUCTIONS

The LivePure Bali Series Air Purifier features a soft-touch control panel for easy operation.

1. **Power On/Off:** Press the "On/Off" button to turn the unit on or off.
2. **Fan Speed:** Press the "Speed" button repeatedly to cycle through the 4 available fan speeds (Low, Medium, High, Turbo).
3. **Timer:** Use the "Timer" button to set the operating time for 2, 4, or 8 hours. The unit will automatically shut off after the selected time.
4. **Sleep Mode:** Activate "Sleep Mode" for quiet operation and dimmed display lights, ideal for nighttime use.
5. **Accent Light:** Press the "Accent Light" button to turn the blue LED accent light on or off.

## MAINTENANCE

---

Regular maintenance of your LivePure Bali Series Air Purifier ensures optimal performance and extends filter life.

### Filter Replacement

The unit features indicator lights for both the HEPA filter and Pre-filter to signal when replacement is needed. It is recommended to check filters regularly based on usage and air quality.

# Easy Filter Change - LP550TH

1. Unplug the air purifier. Remove the front cover by pulling out using the notches on the sides.

2. Pull the old filter forward to remove.

3. Align new pre-filter with HEPA filter and press to attach. Place the filter back into the unit ensuring the pre-filter is facing outward.

4. Place the front cover back onto the air purifier and press to secure.

Figure 6: Step-by-step guide for easy filter replacement on the LP550TH model.

1. Unplug the air purifier from the power outlet.
2. Remove the front cover by pulling it out using the notches on the sides.
3. Pull the old filter forward to remove it.
4. Align the new pre-filter with the HEPA filter and press to attach. Place the filter back into the unit, ensuring the pre-filter is facing outward.
5. Place the front cover back onto the air purifier and press to secure.
6. Plug the unit back in. If the filter indicator light remains on, press and hold the corresponding filter reset button on the control panel until the light turns off.

## Cleaning the Unit

- Always unplug the unit before cleaning.
- Wipe the exterior surfaces with a soft, damp cloth. Do not use abrasive cleaners or solvents.
- The Coco Carbon pre-filter can be gently vacuumed to remove loose dust and debris between replacements. Do not wash the HEPA filter.

## TROUBLESHOOTING

If you experience issues with your LivePure Bali Series Air Purifier, please refer to the following common solutions:

- **Unit not turning on:** Ensure the power cord is securely plugged into a working electrical outlet. Check if the front cover is properly closed.
- **Reduced airflow or purification:** Check if filters are clean and properly installed. Replace filters if the indicator lights are on or if they appear heavily soiled.
- **Unusual noise:** Ensure the unit is on a stable, flat surface. Check for any obstructions around the air intake or outlet. Verify filters are correctly seated.
- **Odor persists:** Replace the Coco Carbon pre-filter if odors are still present after regular use.

For issues not resolved by these steps, please contact LivePure customer support.

## SPECIFICATIONS

Feature	Detail
Brand	LivePure
Model Number	LP550TH
Color	Graphite
Product Dimensions	20.75"D x 12"W x 20.75"H
Item Weight	25.4 pounds
Floor Area Coverage	Up to 1,500 sq. ft. (42+ air changes per day)
Filter Type	True HEPA, Coco Carbon Pre-filter
Controller Type	Touch control
CARB Certified	Yes
Included Components	Air Purifier, User Manual

# Room Size Chart

This chart indicates how many times per hour the air purifier exchanges the air within a room.

## Energy Star Certified

This product has met strict federally mandated guidelines carried out by the EPA (Environmental Protection Agency). It is at least 40% more energy-efficient than standard models. This means that an Energy Star-certified air purifier not only saves energy but also reduces greenhouse gas emissions.

Figure 7: Room Size Chart indicating air exchange rates per hour for different room sizes, demonstrating efficiency.

## WARRANTY AND SUPPORT

The LivePure Bali Series Air Purifier comes with a comprehensive warranty to ensure your peace of mind:

- **Motor:** 10-year limited warranty.
- **Grill and Cord:** 1-year limited warranty.

For warranty claims, technical support, or any inquiries, please contact LivePure customer service through their official website or the contact information provided in your product packaging. Please have your model number (LP550TH) and proof of purchase ready when contacting support.
