Bestway SaluSpa Filter Pump Type VI Replacement Cartridges (Model 90352E) Instruction Manual

INTRODUCTION

This manual provides essential instructions for the proper use and maintenance of your Bestway SaluSpa Filter Pump Type VI Replacement Cartridges, Model 90352E. These cartridges are designed to keep your inflatable hot tub spa water clean and clear by effectively sifting out dirt and debris. Regular replacement and cleaning are crucial for optimal performance and water quality.

SETUP AND INSTALLATION

Follow these steps to install or replace your filter cartridge:

1. Ensure your hot tub pump is turned off and unplugged from the power source.
2. Locate the filter housing on your SaluSpa hot tub.
3. Unscrew the top cap of the filter housing and remove the old filter cartridge.
4. Insert the new Bestway SaluSpa Type VI filter cartridge into the housing. Ensure it is seated correctly.
5. Screw the top cap back onto the filter housing until it is secure. Do not overtighten.
6. Plug in and restart your hot tub pump.

OPERATION

The Bestway SaluSpa Type VI filter cartridge works by trapping impurities as water passes through its pleated media. This continuous filtration process helps maintain clean and hygienic spa water, ensuring a pleasant experience.

MAINTENANCE

Proper maintenance of your filter cartridges is essential for extending their lifespan and ensuring effective water filtration.

Cleaning

The filter cartridges are lightweight and easy to clean. Rinse the filter with water from a hose or sink to remove accumulated dirt and debris. Regular rinsing helps maintain water flow and filtration efficiency.

Replacement

For optimal performance and water clarity, it is recommended to replace the filter cartridge every 2 weeks. This frequency may vary depending on usage and water conditions.

TROUBLESHOOTING

If you experience issues with water clarity or pump performance, consider the following:

- **Reduced Water Flow:** Check if the filter cartridge is clogged. Clean or replace it as necessary.
- **Cloudy Water:** Ensure the filter is clean and properly installed. Also, check your spa's chemical balance.
- **Pump Not Operating:** Verify the power connection and ensure the filter housing is securely closed.

For persistent issues, consult your hot tub's main instruction manual or contact Bestway customer support.

SPECIFICATIONS
