Rolife TG Series

Rolife 3D Wooden Puzzle: Eiffel Tower Model Kit Instruction Manual

Brand: Rolife | Model: TG Series

1. INTRODUCTION

Thank you for choosing the Rolife Eiffel Tower 3D Wooden Puzzle. This kit provides a rewarding building experience, resulting in a detailed wooden model of the iconic Eiffel Tower. Crafted with precision laser-cutting technology from natural wood, this kit is designed for accurate assembly and durability. Please read these instructions carefully before beginning assembly to ensure a smooth and enjoyable building process.

2. SAFETY INFORMATION

- **Small Parts Warning:** This kit contains small parts which may pose a choking hazard. Keep out of reach of children under 3 years of age.
- **Sharp Edges:** Some laser-cut edges may be sharp. Handle pieces with care during removal and assembly.
- **Material:** The puzzle is made from natural wood. Avoid exposure to excessive moisture or direct sunlight to prevent warping or damage.
- **Ventilation:** Assemble in a well-ventilated area.

3. PACKAGE CONTENTS

Before starting, verify that all components are present in your kit:

- Pre-cut wooden sheets (122 pieces total)
- Detailed English instruction manual with diagrams

- Small piece of sandpaper for smoothing edges

4. SETUP AND ASSEMBLY

Follow the step-by-step instructions provided in the included manual. The pieces are pre-cut for easy removal and assembly. No glue is typically required, as pieces are designed to interlock securely.

1. **Prepare Your Workspace:** Ensure you have a clean, flat, and well-lit surface for assembly.
2. **Review Instructions:** Carefully read through the entire instruction manual before detaching any pieces. Familiarize yourself with the diagrams and sequence of steps.
3. **Detach Pieces:** Gently press out each numbered piece from the wooden sheets. If a piece is difficult to remove, use a small tool or the tip of a craft knife to carefully separate it. Avoid forcing pieces to prevent breakage.
4. **Smooth Edges:** Use the provided sandpaper to gently smooth any rough edges or burrs on the detached pieces. This ensures a better fit and a cleaner finish.
5. **Assemble According to Diagrams:** Follow the numbered steps and corresponding diagrams in the instruction manual. Each piece is uniquely shaped and numbered to fit specific slots.
6. **Interlock Pieces:** Carefully align and interlock the pieces. Apply gentle, even pressure to ensure they fit snugly. Do not force connections.
7. **Verify Each Step:** Before proceeding to the next step, ensure the current section is correctly assembled and stable.

If you encounter any difficulty, refer back to the detailed diagrams in your instruction booklet. Some smaller pieces may have extra duplicates included in the kit.

5. USAGE AND DISPLAY

Once assembled, your Rolife Eiffel Tower model is ready for display. Place it on a stable, flat surface away from direct sunlight and excessive humidity to preserve the wood and prevent warping. This model is intended for decorative purposes.

6. MAINTENANCE

- **Cleaning:** To clean the model, gently wipe it with a dry, soft cloth. Avoid using water or chemical cleaners, as these can damage the wood.
- **Storage:** If disassembling for storage, do so carefully to avoid breaking pieces. Store pieces in a dry, cool place.
- **Repairs:** If a piece breaks, wood glue can be used for repair. Apply a small amount and hold the pieces together until the glue sets.

7. TROUBLESHOOTING

- **Pieces Not Fitting:** Ensure you are using the correct pieces for the current step as indicated by the numbering and diagrams. Gently sand the edges if they are too tight. Do not force pieces.
- **Pieces Breaking:** Wooden pieces, especially smaller ones, can be delicate. Always apply gentle pressure. If a piece breaks, use wood glue for repair.
- **Missing Pieces:** Double-check all wooden sheets and packaging. If a piece is genuinely missing, contact Rolife customer support.

8. SPECIFICATIONS

Feature	Detail
Brand	Rolife
Model Number	TG Series
Material	Wood
Number of Pieces	122
Assembled Dimensions (L x W x H)	9.02 x 6.1 x 0.01 inches (Note: This appears to be package dimensions, actual assembled dimensions are approximately 165mm x 157mm x 365mm based on image)
Item Weight	8.8 ounces
Recommended Age	8 years and up
